

BELKNAP SPRINGS IS COMING RESORT

The Springs Are The Best and Affords Campers Unsurpassed Advantage.

ACCORDING TO STATEMENT MADE BY F. M. FRENCH

New Road Is Being Built—Hunting and Fishing Is Fine There.

Continued from Friday, August 16.

That Belknap Hot Springs is the coming resort of this section of the state was the statement made this morning by F. M. French.

That the hot spring is the best of any in this section and that the resort is one of the best, affording unsurpassed advantages to campers and that it is enjoying considerable popularity was an assertion Mr. French made.

"Is it only a question of a little more adequate road," he said, "before the resort can boost for permanent improvements such as a hotel and the ordinary conveniences. At present the road up there is unusually good for a mountain highway. A large crew of men are now busily engaged in repairing the road and when completed I believe it will represent one of the best mountain roads in this section."

Returning last evening in their automobile, Mr. and Mrs. French and son Seth have enjoyed a ten days camping and outing there. They report a most enjoyable outing and Mr. French and son Seth stated they had unusual good luck fishing.

"We made the trip from Belknap to Albany," said Mr. French, "both going and coming without mishap in the convenient time of 9 hours. The exact distance traveled was 104.8 miles."

Speaking of the springs, Mr. French said: Belknap Springs is the coming resort for this section of the state. The spring is the best in this section and the resort affords unsurpassed advantages and beauties for campers. Permanent improvements are to be made there soon by those who control the grounds. They are waiting a little on the improvement of the road which is being done at present and then the construction of a good substantial hotel will be begun. Evidence of the popularity of the resort has enjoyed this season can be surmised by the fact that there are now fifty tents on the grounds, the campers being numbered among people from all sections. At one time there were about 15 Albany people there. Mr. French also stated that he and his son caught 50 mountain trout while there and that one of the campers caught one of the largest Dolly Vardens that he had ever seen. It measured 34 inches and weighed 1 3/4 pounds.

SMITH DOES NOT BELIEVE IDEN GUILTY

Says He Will Not Believe It Until Charge Has Been Proved.

That he will not believe that W. A. Iden is guilty of any crime until he is proven guilty, was the statement made this morning by ex-Sheriff D. S. Smith, in commenting on his acquaintance with the prisoner.

"I knew Mr. Iden about ten years ago," said Mr. Smith, "when he was a minister in the Methodist church south at Tangent and while he taught school there, I had known him for two years prior to his leaving here and all that I know or have heard of him has been the best of recommendation. In all his transactions and actions while here he was regarded in high esteem and was a respected citizen. I can't understand such a charge being made against him and I cannot believe it until he has been proven guilty."

WILL IMPROVE LOCAL CEMETERY

Temporary Organization Perfected; C. E. Sox President. F. P. Nutting Secretary.

BEN BARTCHER PRESENTS PLANS FOR IMPROVEMENT

Will Cost Over \$3,000 to Put Grounds in Proper Condition According to Expert.

With a view of securing a permanent organization for the management of the city cemetery, a temporary organization was formed, at a meeting at the commercial club last night, with a good attendance of Albany people interested in having the cemetery present an attractive appearance.

C. E. Sox was elected temporary chairman and F. P. Nutting secretary. Mr. Ben Bartcher presented the plans for the future care of the cemetery. It will take between \$3,000 and \$4,000 to put the entire cemetery in good condition, and a subscription of \$300 a month for a year is needed for the work. At that the first year only a general improvement could be made, without permanent landscape decorations, the cemetery being in a very poor condition at the present time, full of poison oak, weeds and curbs. The modern system is to do away with curbs entirely, having all the graves on level, covered with grass and flowers, subject to the lawn mower.

Others speaking were A. C. Schmitt, L. E. Hamilton and F. H. Pfeiffer. All were heartily in favor of the move for the betterment of the property, with a permanent arrangement in the shape of an endowment for keeping it up.

A committee on permanent organization, consisting of C. E. Sox, Chas. Carter, L. E. Hamilton, Fred Veal and F. H. Pfeiffer was appointed, with power to act, the committee to have charge of affairs until a permanent organization of lot owners is effected.

Under the proposed arrangement all the funds will be handled by the organization in such a way as to demand the entire confidence of the people interested.

Another meeting will be held on Friday night of next week. The committee met this afternoon at 3 o'clock to make arrangements for the organization and temporary arrangements for starting work on improvements.
