GIANTS GO DOWN TO SECOND DEFEAT

Third Game of World Series Is Won by Philadelphia, Score 8 to 2.

KID PITCHER BUSH WAS MAN OF HOUR

Athletics Walk Completely Over Tesreau, Who Had to Be Relieved.

New York, Oct. 9.—Connie Mack's first kid pitcher made good today. Bush, the Salt Lake youngster, has the Giants at his mercy and let them down with a scant pair of runs and five hits. Philadelphia took the third of the World's series games by a score of eight to two. The hitting of Collins and Baker throughout the game and Schang's home run in the eighth inning, are outstanding features of Philadelphia's players. Tesreau was relieved by Crandall for New York in the seventh inning, after seven runs had been scored off of him, five of which were gained in the first and second innings.

By Hal Sheridan.
New York, Oct. 9.—The drizzle this morning and yesterday's showers, soaked the Polo Grounds here, and the chances for the third game of the World's championship baseball series is greater.

This may mean the breaking or making of the Athletics. Mack faces necessity of pitching a youngster or returning Bender to the box after a days rest. The rain would rest Bender and Plank.

At seven o'clock fifteen hundred fans were waiting outside of the grounds. Despite the condition of the grounds, McGraw said that the game would be played unless it rained. In the event the game is postponed the team will remain here. The Giants are anxious for the battle to continue, believing that the breaks are now coming their way.

At twelve forty-five the last grand stand seat was sold. The field is in better condition than the field at Philadelphia was yesterday.

The general admission crowd for a time extended nine blocks from the ticket office. It appears that the crowd was larger than at the opening game.

At twelve-fifty when the teams appeared it was raining, but the sun broke through, as the band played. Matty was roundly cheered.

The batteries were Philadelphia, Bush and Schang; New York, Tesreau and McLean.

Score by innings: R H E
Phila. 3 20 0 0 2 10—8 12 1
New York 0 0 0 1 0 10—2 5 1
Crandall relieved Tesreau in the seventh. Bush pitched entire game.

ST. PETERS CHURCH GUILD ELECTS OFFICERS FOR YEAR

Decided to Hold Bazaar in December and to Arrange for Social Gathering.

Meeting yesterday afternoon at the rectory, the ladies guild of St. Peter's Episcopal church, elected officers, decided to hold a bazaar and to hold a social gathering on October 9.

The election of officers for the ensuing year resulted as follows: Mrs. W. B. Stevens, president; Mrs. F. C. Bellows, vice president; Mrs. R. C. Waller, treasurer and secretary.

The ladies thoroughly discussed the plans for the holding of a bazaar in December, similar to the one held last year, which was a great success. The final result was that such should be held then.

The ladies further decided to arrange for a social gathering of the parishioners on Thursday, October 9. A committee is to make arrangements for this event and refreshments will be provided.

Mrs. E. Devine, Mrs. E. Zoph and Miss Jewel Hendrickson, all of Lebanon, are shoppers in the city this afternoon. They will return home this evening.

F. Fotheringer, and family of five, left this morning over the Southern Pacific, for Foley, Ala., where they will make their home.

ANOTHER OLD NEWSPAPER HAS BEEN UNEARTHED

H. F. Merrill Has Copy of Dublin News-Letter Published in 1741.

H. F. Merrill has unearthed among his effects a copy of a paper published on June 27, 1741. It is a print of the Dublin News-Letter, supposedly published at Dublin, Ireland.

It is a peculiar antique of early day newspapers. Although it is a four page leaflet of three large columns, only two of the pages contain printed matter, while the other two are left blank.

The old time letters are used throughout the paper and the articles and advertisements are interesting to read. A great contrast is drawn to present day journalism. Advertisements in the old papers contain statements, that wouldn't be tolerated in the press of today.

The paper was presented to Mr. Merrill several years ago by an old firm by which he was employed.

Albany people are vitally interested in the completion of the canal and should at least make a shout. Those having bells should ring them, and any other big noises will be timely.

In honor of the completion of the canal at 11 o'clock tomorrow morning at all the public school buildings there will be short addresses by prominent Albany men, which the parents of the school children and others interested school children and others interested are invited to hear. Following will be the speakers:

Practice Football Game.—The Albany high school and the Albany College football teams held a practice scrimmage on the college park yesterday afternoon, which resulted about 10 to 0 in favor of the former. The event was purely for practice and the making of a score was disregarded. The members of both teams showed up exceptionally well and Professors Marquam and Flo, the coaches of both teams, expressed themselves as well pleased. Several different candidates were tried out and this gave the coaches a splendid insight into their material.

Granted 10 Days Holiday.—John Warner, the engineer and caretaker of the Albany fire department, was last night granted by the city council a vacation of ten days each year he remains with the fire department. The vacation is to take effect each year on October 22 and last ten days thereafter. Warner will go on a vacation on that date in this month.

NEW STEEL CAR TO TAKE PLACE OF OLD

Present Car To Be Taken Off Run for 30 Days, Repaired Replaced.

NEW CAR TO BE PUT ON BEFORE FEBRUARY 1

Recommendation of Street Committee is for Complete Renovation of Old Car.

"We recommend that the Portland, Eugene & Eastern Railway be given the privilege of taking the present street car off the run for a period of thirty days, during which time it is to be repaired in the Corvallis & Eastern machine shops here, to-wit: a new set of trucks, the seats to be cushioned or upholstered, and to be painted, all to be to the satisfaction of the committee on streets and public property, then replaced on the run, to be replaced by a new steel car not later than the first of February, 1914."

That was the recommendation of the committee composed of Councilmen Lyons and Cameron, who went to Salem last week at the instance of the city council to confer with the railroad officials, relative to the improvement of the street railway system. In short, their recommendation calls for a complete renovation of the car. It was adopted by the council last night and Mr. Cameron was instructed to take the matter up immediately with the officials at Salem, informing them of the action of the council and to get them to sign an agreement thereto.

In his report to the council, Mr. Cameron stated that the officials were cordial in the matter, that the recommendation grew out of the conference and that it is probable that the new steel car would be placed on the run by the first of January. The present car will probably be taken off of the run almost immediately.

ANOTHER FRANCHISE IS GRANTED TO RAUCH

He Declares That Prospects Are Good for the Establishment of Gas Plant.

Declaring that the prospects were good for a gas plant here, that his interests are spending good money towards that end, and that they are acting in good faith, G. L. Rauch, in addressing the council last night, was optimistic as to the rapid carrying out of the plans of his constituents in establishing a gas plant in Albany. Mr. Rauch said that the paving of the alleys was a blow to the gas people as they would be compelled to do much more work in laying the pipe lines.

Following his remarks, an ordinance granting a gas franchise to him, was read the third time, having been read at previous meetings, and passed. Rauch was granted a franchise some time ago but it became void upon failure to file bonds. At that time Rauch contended that the scarcity of finances was responsible, and that he and his clients were and have been in absolute good faith in the matter. On the strength of this contention the council reconsidered the matter and agreed to regrant a franchise.

Mrs. Emma Taylor and daughter Lillie left today for their home in Alsea after a visit with the former's sister, Mrs. Geo. W. Hughes.

The groom is well and favorably known by a host of friends in that section of the county. The couple will make their home on a farm.

Many cities and towns in various sections of the country have planned to make the opening of the big canal an event long to be remembered had the blast been fired at 9 o'clock as originally planned it would have been necessary to hold the demonstration in the coast cities at six o'clock in the morning.

REGISTRATION BOOKS WILL CLOSE TIGHT WHEN TIME IS UP

"Register Now" Is What Everybody Ought To Do--Don't Wait Until the Last Second

"Will those who come to register the last minute be denied the right to become qualified as voters for the coming city election, if the registration clerks cannot complete the registration, in the event there is a crowd awaiting, when the time is up for the registration books to close at 6 o'clock on November 22" asked Councilman Lyons in addressing the council last night.

"I believe that all of those who appear before the books close, are entitled to register, on the grounds that they appeared within the time limit," he continued, "although they could not be registered therein by the clerks by the fact that they could not handle the crowd before the time was up."

The consensus of opinion of the majority of the council was that the books should be closed at the time designated and no registrations received thereafter. Recorder Van Tassel heartily approved this opinion, stating that there is no reason why the electors should not register within the time limit. He cited instances where some had waited until the last minute, when it was just as convenient for them to come earlier.

The recorder was instructed to engage all the necessary help to complete the registration. With this instruction, Recorder Van Tassel will plan to handle the registration adequately. It was decided to advertise the fact that the registration is now on, by notices in the papers, urging everybody to register. The slogan is "Register now."

NINTH ST. TO BE PAVED OR GRAVELED

Is to Be Graded and Gravelled Unless Petition for Pavement is Made.

IN THIS EVENT COUNCIL IS WILLING TO PATCH IT

Property Owners Remonstrance Meets With Drastic Action of City Dads.

One thing or the other is to be done to Ninth street. It is to be graded and gravelled unless a petition for hard surface pavement is not made at once. In this event the city is willing to drop the graveling matter and to patch up the street temporarily for the winter.

That was what the council decided upon last night, following a lengthy discussion as the results of the introduction of a remonstrance against the grading and graveling of the street. The fact that the property owners petitioned for paving some time ago and that it was later remonstrated out entered into the argument. Also the jeopordy that the paved streets are placed in by the condition of Ninth street, and the fact that the city has spent money in former matters pertaining to the improvement of this street.

The remonstrance, which was signed by over 30 property owners, and which was placed on file, with the understanding that the recorder should go ahead with the grading and graveling matter, disapproving of the improvement for the reasons that the street is comparatively on grade, that it is in good passable condition, and that it is the common understanding that the street will soon be paved.

The government made every effort to create and anti-Jewish feeling through the case but did not want an outbreak just at this time, when the eyes of the world are centered upon the scene and the government is experiencing no little difficulty in preventing bloodshed. Today's session was devoted chiefly to reading the indictment and the opening statement of Chief Prosecutor Vipper.
