

INTERVENTION NOW SEEMS CERTAIN

Diaz on Board an American Gunboat and Huerta Expected to Demand Surrender.

"UNITY OF INTEREST" IS PLAN OF PRESIDENT

England, France and Germany Agree to Defer Action Pending Announcement of Policy.

Continued from Tuesday, Oct. 28.

(By United Press Association) Washington, Oct. 28.—(Special to Democrat.)—The intervention in Mexico seemed nearly inevitable in the view held by government officials who are clearly in touch with the administration and the same is now openly admitted. The appeal of Diaz for American protection could not be disregarded it is said. He told the Canadian consul at Vera Cruz that his life was in danger and it would have been inhuman to have refused him admission to the consulate. Since he did not consider himself safe even there, there was nothing left to do but put him aboard the American fighting vessel. That the incident gravely complicated the situation is not denied. It is thought likely that Diaz and his two companions will be taken to a neutral port where they will be unmolested. It is expected that Huerta will demand the surrender of Diaz but it will be refused. Alexander Williams, an American correspondent is still aboard the vessel.

Foreign Powers Agree to Wait.

Washington, Oct. 28.—Secretary Bryan officially announced that Germany, France and England have agreed to defer action on the Mexican situation, pending the official announcement of the American policy.

Washington, Oct. 28.—That President Wilson and Secretary Bryan plan a "unity of interest" of all nations on the western hemisphere, was the interpretation placed upon the president's utterances at Mobile yesterday by those close to the administration. Politicians and diplomats are convinced that the President has outlined a policy that he and Bryan have already decided upon and by which they propose to put a stop to the frequent uprisings which have heretofore disturbed Central and South America. It is understood that they propose to eliminate every suggestion of "dollar diplomacy" from the program and maintain the Monroe doctrine in its most literal sense. The president, it is said upon excellent authority, is determined to avoid intervention with Mexico if it is possible to do so, but if he must intervene, he will withdraw American troops as soon as order is restored.

No word has been heard since from the deputy sheriff.

ALBANY MANS SON-IN-LAW IS SHOT WHILE HUNTING

Bullet Glances from Tree or Stone and Strikes Herman Schmidt in Leg.

According to advices received here yesterday afternoon by W. A. Kimsey, his son-in-law, Herman Schmidt, was accidentally shot in the right leg by a rifle near Grants Pass the day before yesterday while hunting with four companions. He was hurried to a Grants Pass hospital and operated upon. The doctors removed the bullet from the knee, in four pieces. The leg was splintered in three places. The doctors believe they can save the leg. It will be necessary to put in a cork. The unfortunate man will be compelled to remain at the hospital for months.

Priz Gerbers, his cousin, saw a deer and shot once, aiming too high. The bullet struck a rock or tree, from which it ricocheted, passing into Schmidt's left leg three inches above the knee cap, splintering the femoral bone. Schmidt was carried through mountains six or seven miles before aid could be given, and the best possible care will be necessary to save the injured member, which probably will require another operation.

Schmidt was recently married here to Miss Lennie Kimsey, daughter of Mr. Kimsey. He is the son of a well known Grants Pass man.

"I haven't any idea how many will be here," said Mr. Stewart, "but I think all of the counties that have entered into the proposition will be well represented. All of the plans for the meeting are fully arranged and a great meeting is anticipated. The meeting will convene at the Commercial club at 2:30 o'clock. PRESIDENT IS IN SECLUSION

Head of Nation Working on Solution for Mexican Problem Which Will Be Final.

CONSIDERING DEMAND FOR HUERTA'S RETIREMENT

Any Interference by Foreign Nations Will Be Regarded as an Unfriendly Act.

(By United Press Association) Washington, Oct. 29.—The president shut himself in his study today to work out the Mexican problem. He emerged from his seclusion with the declaration that the world expected the United States to find a way of settling affairs in Mexico. The president then promised the powers that he would enunciate a definite policy and made it clear that the United States will resent any outside interference in Mexican affairs. That he is considering an ultimatum to Huerta demanding his retirement is known definitely.

U. S. May Send Ultimatum.

Washington, October 29.—President Wilson is today considering the wisdom of sending an ultimatum to President Huerta demanding his retirement. In view of the communication received by the administration, it is believed that England, Germany and France will uphold him in such a demand. If he did so Huerta would probably be forced to quit. The president said that he is inclined to think that this is the best plan to eliminate the dictator without using force.

Irving Nelson and wife of Eugene, are at the Hotel Hammel.

Arthur Clarke, a prominent business man of Corvallis, is in the city this afternoon attending business matters.
