DR. ELEG. MEETING HELD LAST NIGHT

A Good Crowd Attends Meeting and Plans Are Discussed For Big Celebration.

THE FINANCE COMMITTEE IS MAKING GOOD PROGRESS

East End Improvement Club Invites Committee to Attend Meeting of Their Club.

A large and enthusiastic crowd of "boosters" attended the Oregon Electric meeting which was held in the Commercial Club rooms last night and plans are about completed for the best celebration in the history of the Willamette Valley.

The evening was devoted to a discussion of the financial arrangements, the various committees presenting estimates and plans for their various departments. Chairman Wm. Bain, of the finance committee, was much gratified with the subscriptions which have already been received, and during the balance of the week there will be a determined campaign on the part of this important committee.

Mr. Bain has greatly enlarged the committee since the last meeting, and in fact everyone present at last night's gathering left the club rooms with the feeling that it was his duty to consider himself a committee of one for the gathering of funds with which to make the Oregon Electric Celebration July Fourth not only a complete success but also an event by which to gauge all future attempts of a similar nature in the state of Oregon.

President Goins, of the East End Improvement Club, promised all kinds of enthusiasm at tomorrow night's meeting of that organization, which is entering heart and soul into the Hub City's preparations for the Fourth, and invited everybody present at last night's meeting to attend and help the Progressive East End Club to make "a big noise."

Chairman Fletcher responded that the executive committee would attend in a body and assured the East Enders present that the celebration committee appreciated the spirit of co-operation and encouragement which is being evinced on all hands.

The meeting lasted until 10:30 everyone present, whether represented on a committee or not, entering freely into the discussions, and it is hoped that future meetings which will be announced from time to time in these columns, will be as largely attended by everyone interested in bringing a record-breaking crowd to Albany on the Glorious Fourth.

The commencement address of David Starr Jordan, president of the Leland Stanford Jr. University, before the graduating class of the one-hundred twenty-six, of the O. A. C., was a masterpiece of argument against war and preparation for war, delivered in plain language, without oratory, about as a man would talk in his own parlour.

It was in the midst of massive decorations and evergreens, before an immense audience, following songs by the prima donna Mmme. Norelli, an artist of superior talent. Some things he said were of a striking character.

War is always the acme, the consummation of waste. It is graft, the getting of something for nothing; it belongs to the dark ages, a sham, a matter of pomp and feathers.

The notion that war creates brave men is a mistake. Good blood and training make bravery.

The nations of the world owe \$37,000,000,000, mostly the result of war.

The European nations are so much in debt they couldn't fight if they wanted to, even if transported free across the ocean.

The men who talk about war with Japan are scoundrels, doing it for financial gain. Japan is hopelessly in debt.

\$800,000 a day is spent for war preparation, a waste.

A Chinaman put it this way: Big fish eat little fish, little fish eat shrimp, shrimp eat mud.

War debts create a national debility. A Mexican dog has so degenerated if one were to pinch his tail his eyes would pop out. That's what war does.

The total enrollment of the O. A. C., covering all departments, President Kerr announced, is 2868, a great showing.

The Misfit man greatly appreciated the program, a treat of a high order. It was also his good fortune to eat with Prof. Homer and his estimable family, with Mrs. Prof. Lake, of Washburn, D. E. as the guest of honor.

A walk over Corvallis revealed many pretty homes, and a greatly improved city. But it did not make a friend for the parking system in street making. The average park between the curb and the sidewalk is about 15 feet of measly looking weed and knotted grass. Among other things five potato patches, with as many as six rows, were counted. A few well-kept curb patches were seen, making a fine setting. If all were kept up it would make lovely streets, but with most of them unkept it is simply a horrible spectacle.

A. L. Ingalls, of Eugene, E. H. Shutterman of Albany, D. S. Lewis of Albany, and Frank E. McKenna of Albany, all employees of the Oregon Power Company, went to Corvallis this morning on business connected with the company.

Miss Annie E. Baker of Vancouver, B. C., who has been visiting with her brother A. C. Baker, the mail transfer clerk at the depot, and Miss Bertha Worrell, returned home today. Miss Baker is a former resident of Albany being employed at the Young department store.

WEST GIVES GRADUATES GOOD ADVICE

Governor of State Receives an Ovation When He Concludes His Address.

PRES. CROOKS PRESENTS DIPLOMAS TO GRADUATES

Commencement Exercises Are Well Attended by Friends of Albany College.

Governor Oswald West received a tremendous ovation this morning when he delivered the annual commencement address to the graduates of the Albany College.

Declaring that many young men are looking for a "soft snap" and are only too willing to dodge the responsibilities of life, the Governor gave the graduates an abundance of sensible advice, and his address was interspersed with terse and well put epigrams.

His address was in part as follows: "Too many young men and women would slide through life with little exertion. They wait for opportunity to knock at their door when every day and every hour opportunity is knocking loudly and only waits for a receptive mind and willing hands to grasp it."

"Every young man should have a definite and fixed purpose. He should have an object in life and neither popular clamor or the advice of well-meaning friends should swerve him from that fixed purpose in life. Don't be afraid of being called a dreamer, but make your dreams a reality. Every great man is more or less of a dreamer—every great undertaking was in its inception a dream—then a reality."

"It is the duty of every man to do good in the world. This duty devolves upon both the rich and the poor, and it is a duty as well as a duty."

"A great many men go through life on the brains of their wives and their stenographers. Many a wife feeds her husband intelligence every day of his life and without her assistance he would be numbered among life's failures. If I had my way, every woman in the state would have the privilege of voting."

"The reason that the fellow that minds his own business, succeeds so well, is because he has so little competition. You will have enough to attend to without attending to the other fellow's business ventures."

"I have taken this job of mine more or less seriously. Early in life I formed certain ideas as to the treatment of prisoners. When I was elected to my present position I obtained the privilege of putting those ideas into effect and have done so to the best of my ability. I have been criticised and advised against the policy by some of my intimate friends, but remained firm. The policy is now working out better than I anticipated."

"I have always held that it is better to fail and sink into oblivion than to succeed by a surrender of principle or by the performance of a crooked act."

The program for the commencement exercises was as follows:

Professional—March, Batiste Miss Emma Sox; invocation; solo—Serenade. Tosti, Miss Agnes Willis; Commencement address—The Honorable Oswald West, Governor of Oregon; Solo—I Will Extol Thee (from Eli), Costa, Mrs. Adna Smith Flo; Presentation of diplomas, President H. M.
