**First Camp Is Established at Eugene by Sub-contractor This Week.**

Work on the Eugene end of the P. E. & E. electric railroad to Monroe began Saturday at the Clark Madsen farm, four miles northwest of Eugene, says the Eugene Guard.

The first camp on this end was established by W. A. Wrenn, a sub-contractor who built the Oregon Electric grade from Junction City to Eugene. Mr. Wrenn finished his contract on the O. E. near the Madsen farm and moved over on the P. E. & E. contract. He has a station of six miles extending from the city limits of Eugene.

A grader to be operated by an engine is expected today and will be brought to the front at once. Mr. Wrenn says that the work is light and will be done rapidly. He has about 30 men at the camp.

Flagg and Standifer, who have the contract for the construction of the line to Monroe, opened offices this morning in rooms 1 and 2 of the Bangs building at the corner of East Eighth and Oak streets. New desks are being installed and everything will be in order by tonight.

**AGRICULTURAL COLLEGE TO HAVE CO-OPERATIVE STORE**

Oregon Agricultural College, Corvallis, Ore., Aug. 12.—The first step toward the establishment of a co-operative student bookstore at the Oregon Agricultural College has just been taken by the appointment of A. E. Eschricht of Portland, a graduate of the school of mines this year, as manager for 1912-13.

The rapid growth of the college has brought a demand for the co-operative store which for three years has stirred up much discussion. Each semester the enrollment was beyond anticipation so that the necessary text books were not on hand, and much delay was experienced in supplying classes with materials for their work. A committee appointed the past year to investigate conditions and confer with the college authorities decided to pave the way for a co-operative organization by the appointment of a graduate manager, that further steps may be taken at the close of this year. The present structure occupied by the school of mines, to be vacated this fall upon completion of the new mining building, will be turned over to the book store.

Until now the supplies and books have been sold from the business office in the administration building. The trophy room will also be located in the same building as the book store, and the championship cups and banners and other trophies will be gathered together there, where they can be kept in safety.

**MAN WHO SAVED PRETTY GIRL IS REWARDED WITH KISSES**

New York, Aug. 12.—Four girls who arrived at Hudson Park, New Rochelle, yesterday afternoon in an auto went in bathing there. One girl, who was about 20, attracted much attention in her dark brown silk bathing suit. All apparently were strong swimmers.

But as they were returning from a raft the girl in the brown suit sank. Julian Diaz, a volunteer life saver, swam out, dived, and brought her up. He took her to the shore where she soon regained her composure.

"Whom have I to thank for saving my life?" she said. Diaz told her. She hurried into the bathroom and soon reappeared, fully dressed.

"I suppose you want to know who I am," said she to the expectant Diaz. "Well, I'll only tell you I'm Ethel Jameson and that I live in the Bronx. But I want to reward you."

Whereupon she threw her arms about his neck and kissed him on both cheeks.

"That's reward enough," gasped Diaz, as the girls climbed into their car and sped away.

**MISFITS**

Contributed By F. P. Nutting.

The Misfit man had the pleasure of a Oregon Electric ride to Portland, a big, bounding city, full of life and activity, almost a suburb of the Hub, so quickly does an Oregon Electric limited take one along.

Portland is a beautiful town, rapidly going back into the hills and on top of them. Such homes as one sees, particularly on Portland Heights, where the finest scene in the world is presented to view, matchless anywhere.

Portland's magnificent new buildings are worth a peep at. For instance the Yeon, pronounced Yon, fifteen stories high, filled with fine offices and the hum of business.

A Packard ride with E. L. Thompson, a former Albany boy who has made a great success, was appreciated. In no other way can one see so much so quickly as in an auto run by one who knows the situation.

Then a later visit at the "pleasant home" of A. B. Slauson, whose wife was once an Albany girl, and another one at the Hobart-Curtis with a sister-in-law, were enjoyable experiences.

Close by Judge and Mrs. Wolverton, who made their start here, have a new and elegant home, said to have cost about \$25,000, with the fine site.

One runs upon Albany people everywhere. A ride in a boat at the Oaks, down the chute, was enjoyed with Harry Hyde as the boatman.

Business is good in Portland, all kinds, for the season. Don't take the word of pessimists that everything is a corpse.

But Albany looks the best of any place in Or., and what a country we have around it. Today a fifty-five mile ride out Halsey and Peoria way was a revelation, one that made the eyes of an Ill. teacher in the rig keep open, regardless of the dust and sweet valley breezes. Great are the possibilities here.

**COWBOY CHAMPION WILL BE AT PENDELTON ROUNDUP**

Pendleton, Or., Aug. 12.—John Spain, of Union county, who last year captured the championship of the Pacific Northwest in the bucking contest at the Roundup, recently suffered an injury to his right hand when it was caught in a rope so that amputation at the wrist was necessary, but the daring and plucky spirit which won him many admirers, still dominates, and he announces he will leave no doubts in the minds of the spectators at the coming show as to whether he "pulls leather."

In the bucking contest this year the rope will be handled by his left hand. Spain says he will be back in Pendleton to take as active a part as ever, and hopes to carry away some worthwhile prizes.
