Two Albany young men who went to Newport on the excursion train yesterday, while on the return trip decided to take a nap and curling up in a seat on one of the cars were soon wrapped in the arms of Morpheus. The train "bowled" along, stopping frequently to take on water or to discharge passengers, but still the local men slept, and although considerable noise was being made by a bunch of young people from Corvallis who occupied seats nearby, they refused to be awakened.

When the train finally reached the union depot in this city, both young men were still asleep. The Albany crowd detrained and the Hoover section, containing several cars of passengers, started on its way to the mountains carrying the sleepers with it. When the train was threading its way out of the city and was near Hackleman's grove, one of the fellows awoke, and after rubbing his eyes for several minutes, gazed about the car and asked a man across the aisle if the train wasn't getting pretty close to Albany, "Albany!" said the man, "why we reached Albany an hour ago and are now on our way to Hoover."

The young man gasped and shaking his companion who was still "sawing wood," headed for the rear end of the train. He was closely followed by his companion and the two left the train at the grove, and headed for the depot hotel which loomed up in the distance some 10 blocks away, where they separated, each taking a back alley home, in fear that someone who knew them would see them doing their Edward Payson Weston stunt.

SECRETARY OF STATE OLCOTT FAVORS THE BLUE SKY BILL

Editor Albany Democrat,
Albany, Oregon.
My dear Sir:
In a recent issue of your paper I noticed a favorable mention of the Blue Sky Bill, which is appreciated.
This bill will stop the sale of worthless stock and save the people of Oregon at least one million dollars per year. It will pay all the expenses of maintaining the Corporation Department and leave several thousand dollars per year clear profit.
It will add about \$20,000 per year to the present revenues from corpor-

In using your influence to bring about the enactment of this bill, I believe you are performing a valuable public service.

Very sincerely.

SOON GET A CREAMERY

Some talk has been indulged in by parties interested as to establishing a creamery and ice plant at this place. This should be encouraged. There is more than enough cream shipped from here to Portland to supply a big local plant. Farmers could well afford to take stock in such an enterprise. It is understood that an experienced butter-maker has approached a number of our business men saying he had considerable backing for such an enterprise but that it would be necessary to enlist some local capital in order to make it go.—Lebanon Advocate. P. E. & E. RAILWAY WOULD USE

The Portland, Eugene & Eastern Railway Co., has filed an application for a franchise over the county road through Monroe. The proposed right-of-way enters the county road a short distance south of Monroe and follows it through the town to a junction with the Corvallis line, a distance of about one-fourth of a mile.

The county court will go to Monroe Monday morning to view the right of-way and consult with Monroe citizens in regard to the franchise.

COUNTY ROAD SOUTH OF MONROE MARTINI COCKTAILS CARRIED IN CANES BY SOCIETY WOMEN

Bar Harbor, Me., Aug. II.—Canes and cocktails are the very latest combination at Bar Harbor for society women. Canes, of course, have been quite the rage all season. Every-body's carrying them, even on the mottest days. There are canes of every size and variety known. Cocktails, nothing less, are contained therein, martinist manhatans and lone trees.

Some of the tops of the canes are made in the form of tiny drinking cups, with the gold top tightly screwed on so you never would know it was a top and wouldn't in 1,000 years imagine that it was doing the heavy stant of keeping down a cocktail. But when you see the dainty lady take off the top and life it carefully to her rosebud lips, and proceed to sip—well, then you really have to believe.
