

## ALBANY TO HAVE A MODERN CAFETERIA

M. J. Monteith Leases Building Now Being Vacated by Flood at First and Ferry.

NEW ESTABLISHMENT WILL BE OPENED ON OCTOBER 10

Local Travelling Salesman Will Have Modern and Attractive Establishment.

M. J. Monteith, a well known commercial traveler of this city, has leased the building which will be vacated shortly by G. A. Flood, at the corner of First and Ferry streets, and will open a first-class cafeteria there on Oct. 10.

The building will be remodeled as soon as Mr. Flood has vacated, and will be transformed into one of the neatest and most convenient cafeterias in the Willamette Valley, without exception. Breakfast, luncheon, and dinner will be served each day, cafeteria style, and it is the aim of Mr. Monteith to serve the public nothing but the best to be secured in the line of foods.

Another commendable feature which the proprietor of the new establishment will feature is prompt and efficient service, and he will employ a corps of courteous assistants to serve his patrons. Everything that will be of convenience to the patrons of the new cafeteria will be installed in the building and no expense will be spared to make the place attractive and the most popular eating place in Albany.

M. J. Monteith, or "Mack," as he is familiarly known to his friends here, has resided in Albany for many years and is well acquainted in this city and county as well as throughout the valley where he has traveled for several years, and having kept a close watch on the rapid growth and commercial progress of the city, he decided after investigation of other towns in the valley that his "home town" was the best of all, and therefore decided to invest his money here.

A first-class cafeteria has been something that Albany has needed for a long time and the Democrat joins with the many friends of Mr. Monteith in wishing him success in his new enterprise.

The new fixtures for the cafeteria, including one of the latest cooking ranges, have been ordered for some time, and will arrive here in time to be installed, ready for the opening of the place, which will be on October 10th or as near that time as possible.

## ARMORY WILL BE EQUIPPED FOR COAST ARTILLERY WORK

Will Represent Regular Fort; Much New Apparatus Will Be Installed Soon.

To give the members of the local company of coast artillery a thorough course in the service of handling the big 12-inch rifles which guard the mouth of the Columbia river at Fort Stevens, the local armory will in the course of a few weeks be transformed into an exact representation of a coast defense fortification with the exception of the guns.

Plotting boards, telephones, fire commander's station, battery commander's station, observing towers, range and deflection boards, primary and secondary stations, will all be installed in the armory for the use of the militiamen in their study of the art of coast defense. Several shipments of the material to be used here have already been received by Capt. F. M. Powell, and more are now on the way.

The members of the local artillery company are rapidly becoming proficient in the work and at the recent maneuvers at Fort Stevens brought home the record for service practice with the big guns, having made four hits in four shots fired at a pyramidal target anchored in the Pacific ocean 6162 yards away, one of which pierced the bulls-eye.

The bulls-eye made by the Albany boys was the only one made during the 10 days' practice at Fort Stevens and the officers and men were warmly complimented by the regular army officers for their efficiency with the big rifles. All of the men are studying hard and hope to make even a better record next year.

## MUCH OPPOSITION TO THIRD TICKET

One Faction Would Nominate a Third Ticket in Linn Co. But Meets with Opposition.

SECRETARY OF CLUB REPLIES TO STATE COMMITTEEMAN

Those Favoring County Ticket Demand that a Convention Determine the Matter.

Taking exception to a statement issued by Geo. Sanders, state committeeman of the Progressive party, in which he opposes the nomination of a third ticket in Linn county, I. R. Schultz, secretary of the Roosevelt club, today authorized the publication of the following statement in the columns of the Democrat:

The Progressive party was organized as a revolt against the stand-pat Taft Republicans, and the machine methods of the stand-patters, and to advance and put into effect through the medium of a third party the progressive ideas we represent. And to now vote for the local Taft Republican candidates, and also elect a Taft-Republican legislature, and thus give aid and comfort to the Taft-Republican machine, is about the most foolish and absurd thing that a Progressive could do.

"Should Mr. Sanders refuse to call a convention to consider that matter; he will find the Linn county Progressives are not all 'mollycoddles,' and that fully 90 per cent of them will vote against the Taft-Republican candidates, by voting for the Democratic ticket, where there is no Progressive ticket in the field.

"One of the principal objects of our organization is to eradicate and destroy the Taft-Republican machine, root and stem. And those who are in a sane condition, are not liable to be found supporting any Taft-Republican candidates, local or otherwise.

"The facts of the matter are: that petitions are being prepared and will be circulated among the members of the Progressive party in Linn county, making a formal demand upon State Committeeman Geo. E. Sanders, to issue a call for a county convention, for the purpose of determining whether or not a Progressive ticket will be placed in nomination in this county."

In closing Mr. Bryan charged that Colonel Roosevelt was not for the people, but was aligned with the trusts and with the men of Wall street.

## WOMAN DESERTS HUSBAND WHEN HE IS ILL WITH FEVER

C. A. Hardesty Files Complaint Today Asking For Divorce From Myrtle Hardesty.

That while he was sick in bed with the typhoid fever his wife, Myrtle Hardesty, deserted him and taking their son Dale Hardesty aged 1, went to California, is the allegation made by C. A. Hardesty who today filed a complaint with the county clerk asking that he be granted a divorce and be given the custody of the boy. The couple were married on March 20, 1912, in Lane county.

Hardesty states in his complaint that he has always treated his wife in an affectionate manner and alleges that when he would come home after a hard day's labor, driving a team, tired and worn out, his wife would refuse to cook his meals and do other household duties.

He became ill with the fever in August and it was necessary to secure the services of a physician and nurse, and it was while he was seriously ill that his wife left him, taking her clothing and some of the household furniture. He was cared for by neighbors and friends.

Hardesty alleges that when his wife deserted him, his father remonstrated with her, telling her that she shouldn't leave him while he was ill, but that his pleadings were in vain.

Hardesty says in his complaint that he is able to give his son Dale a good education and a home and asks the court to give the boy into his care. Weatherford and Weatherford are attorneys for the plaintiff.
