NOTICE OF APPLICATION FOR PATENT.

United States Land Office,
La Grande, Oregon, January 15, 1900.

Notice is hereby given, that William Smith, whose postoffice address is Baker City, Baker county, Oregon, in behalf of himself and his co-owners, Fred Knuth, W. S. Powers, and John L. Sullivan, has filed an application for patent for the lode mining claim called the Myrtle quartz mine, situated in no organized mining district, Baker county, Oregon, and designated by the field notes and official plat on file in this office as Mineral Survey No. 371 in section two, township nine south, range thirty-six E. W. M., said Mineral Survey No. 371 being described as follows (magnetic variation being from 20 degrees 15 minutes to 20 degrees 25 minutes east):

Commencing for a description of the exterior boundaries of the Myrtle quartz claim at Cor No. 1 of this survey, identical with the NE cor of location, the ¼ sec cor between sections 1 and 2 tp 9 S, R 36 E. W. M. bears N 82 degrees 20 minutes E 656 ft. Thence S 23 degrees 45 minutes E var 20 degrees 25 minutes E 335.5 ft to I center post, set a tamarack post 4 in sq 4½ ft long 18 in. in the ground with a mound of earth around it, marked it "Myrtle E. C. S. 371" for east center post, 600 ft to cor No. 2, identical with the SE cor of location, set a tamarack post 4 in sq 4½ ft long 18 in. in the ground, with a mound of earth around it, marked it "Myrtle cor 2-371" for cor No. 2 of this survey. Thence N 71 degrees 45 minutes W var 20 degrees 25 minutes E 921 ft Mammoth Gulch course southwesterly 1284.3 ft to cor No. 3, set a fir post 4 in sq 4½ ft long 18 in. in the ground with a mound of earth around it, marked it "Myrtle Cor 3-371" for cor No. 3 of this survey, the SW cor of location bears N 84 degrees W 212 ft. Thence N 23 degrees 15 minutes W var 20 degrees 25 minutes E 900 ft to west center, set a pine post 4 in sq 4½ ft long 18 in. in the ground, with a mound of stones and earth around it, marked it "Myrtle W. C. S. 371" for west center post, the west center location tree bears N 69 degrees W 44.5 ft, scribed to cor No. 2, set a fir post 4 in sq 4½ ft long 18 in. in the ground, with a mound of stones and earth around, marked it "Myrtle cor 4-371" for cor No. 4 of this survey. Thence N 23 degrees 15 minutes E var 20 degrees 25 minutes E 340 ft to cor No. 5, identical with the NW cor of location, a fir log yellow pine tree 18 in in diameter, marked it "Myrtle cor No. 5-371." Thence S 71 degrees 45 minutes E var 20 degrees 25 minutes E 1385 ft Mammoth Gulch course southwesterly 1284.3 ft to cor No. 1, the place of beginning, the said claim containing an area of 21.56 acres of land.

The presumed course of the lode is a little north of west and south of east. The number of feet claimed on the lode is fourteen hundred and sixty-four and three-tenths lineal feet extending from discovery shaft easterly 531 feet to east center end and westerly 831 feet to west center end of Mineral Survey No. 371, as described in the foregoing field notes.

The surface ground varies on the south side of the lode from three hundred feet on the southwest end line of the lode to two hundred and twenty-one and eight-tenths feet on the southeastern portion thereof, and on the north side of the lode, width varying from two hundred and forty feet at the northwest end line of the lode to three hundred and thirty-five and five-tenths feet on the northeastern portion thereof.

The notice of location of said Myrtle quartz mine is of record in the office of the recorder of conveyances of Baker county, at Baker City, in book L of quartz mining location records at page 55 thereof.

The only adjoining claim is the Lilac quartz mine on the east. The adjacent claims are the Gold Standard lode claim on the south, also the Montezuma Lode claim on the south, the Log Cabin lode claim on the west and the Pedro lode claim on the north.

Any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations thereunder, within the 60 day period of publication hereof, with the register of the United States land office at La Grande, in the state of Oregon, they will be barred by virtue of the provisions of the statute.

NOTICE OF APPLICATION FOR U. S. PATENT.

United States Mineral Survey No. 362 A. & B. Application No. 208.

United States Land Office,
La Grande, Oregon, January 25, 1900.

Notice is hereby given that in pursuance with the act of congress approved May 10, 1872, the Columbia Gold Mining company, a corporation duly organized and existing under and by virtue of the laws of the state of Oregon, whose postoffice is Sumpter, Baker county, Oregon, has made application for a patent for the Old Middleman and the Tin Horn quartz claims, and for the Tin Horn mill site and for the Cyclone mill site, situated in no organized mining district, Baker county, state of Oregon, and described by the official plat herewith posted and by the field notes on file in the office of the Register of La Grande Land District, State of Oregon, as follows, viz: with magnetic variations at 20 degrees 25 minutes to 20 degrees 30 minutes east.

Description of exterior boundaries of the Old Middleman and Tin Horn quartz claims—Mineral Survey No. 362 A, to wit:

Beginning at a post marked "Cor. No. 1-362 A" that bears s 23 degrees 45 minutes e 166 feet from U. S. Mineral Monument No. 1, the same being corner No. 1 of the Tin Horn quartz claim; thence s 45 degrees 30 minutes e 400 feet to a post marked "2-362 A," being corner No. 4 of the Tin Horn quartz claim; thence s 23 degrees 30 minutes w 1500 feet to a post marked "3-362 A," being corner No. 3 of the Old Middleman quartz claim; thence n 45 degrees 30 minutes w 1500 feet to a post marked "4-362 A," being corner No. 2 of the Old Middleman, from which corner No. 1, U. S. Mineral Monument No. 1 bears n 23 degrees 30 minutes w 1248 feet distant; thence n 23 degrees 45 minutes e 600 feet to a post marked "1-362 A," being corner No. 2 of the Old Middleman; thence s 45 degrees 30 minutes e 1500 feet to a post marked "2-362 A," being corner No. 3 of the Old Middleman quartz claim; thence n 23 degrees 45 minutes e 1500 feet to a post marked "3-362 A," being corner No. 4 of the Old Middleman quartz claim; thence n 45 degrees 30 minutes w 604 feet to a post marked "4-362 A," being corner No. 1 of the Old Middleman quartz claim; thence n 45 degrees 30 minutes w 213.5 feet to a post marked "5-362 A," being corner No. 4 of the Tin Horn quartz claim; thence n 23 degrees 30 minutes e 1500 feet to place of beginning.

Description of Tin Horn mill site—Mineral Survey No. 362 B, to wit:

Beginning at corner No. 2 of the Tin Horn quartz claim, a post marked "1-362 B," being corner No. 1 of Tin Horn mill site; thence s 46 degrees 30 minutes e 213.5 feet to corner No. 3 of the Old Middleman, a post marked "2-362 B," thence s 56 degrees 45 minutes w 604 feet to corner No. 4 of the Old Middleman quartz mine, a post marked "3-362 A," thence n 23 degrees 45 minutes w 50 feet to intersection with east line of Appomattox quartz claim M. S. No. 204, a post marked "4-362 B," thence n 40 degrees 30 minutes e 570 feet to place of beginning.

Description of the Cyclone mill site—Mineral Survey No. 362 B, to wit:

Beginning at corner No. 1 of the Old Middleman quartz claim, thence s 23 degrees 45 minutes e 166 feet, a post marked "1-362 B," being corner No. 2 of the Cyclone mill site; thence s 20 degrees 30 minutes w 660 feet to a post marked "2-362 B," being corner No. 3 of the Cyclone mill site; thence n 23 degrees 45 minutes w 430 feet to a post marked "3-362 B," being corner No. 4, Cyclone mill site; thence n 20 degrees 30 minutes e 660 feet, a post marked "1-362 B," being corner No. 1, Cyclone mill site; thence s 23 degrees 45 minutes e 264 feet to place of beginning.

Which said Tin Horn quartz claim is fifteen hundred (1500) feet in length and extends seven hundred and fifty (750) feet northeasterly and 750 feet southwesterly along the Tin Horn lode, bearing gold, from the discovery point thereof, with surface ground four hundred (400) feet in width, being 200 feet northwesterly and 200 feet southeasterly from said lode; and the notice of location of which is recorded on page 285 of Volume E of Records of Quartz Claims in Baker County, Oregon, in the office of the recorder of said county. The adjoining claim to said Tin Horn quartz claim being the Columbia quartz claim, Mineral Survey No. 270, on the northwest; the Britania quartz claim the said Old Middleman quartz claim adjoining partially on the east, south and west; and is also adjoined by Tin Horn mill site; the Appomatox quartz claim, Mineral Survey No. 204, the northeasterly corner of which is identical with the southwesterly corner of said Tin Horn quartz claim, all else being vacant, unoccupied land. There being no conflicting claims.

Said Old Middleman quartz claim is fifteen hundred (1500) feet in length, and extends 683 feet southwesterly and 817 feet northeasterly along the Old Middleman lode, bearing gold, from the discovery shaft thereon, with surface ground six hundred (600) feet in width, being three hundred feet on each side of said lode, except that portion thereof covered by the Tin Horn quartz claim as above described, the notice of location of which Old Middleman quartz claim is recorded on page 72 Vol I of the records of quartz claims of Baker county, Oregon, in the office of the Recorder of said county. The adjoining claims to said Old Middleman quartz claim being the Tin Horn in a northerly direction, the Tin Horn mill site, and the Cyclone mill site, and Telephone quartz claim, and the Afterthought quartz claim being the nearest claims in the west, there being no adjoining claims to the south except as above stated, and all else being vacant, unoccupied land. There being no conflicting claims except the said Tin Horn quartz claim as above stated, application for patent of which is hereby made.

Said Cyclone mill site adjoins the Old Middleman quartz claim on the northwest corner thereof and Telephone quartz claim and adjoins no other quartz claims, all else being vacant, unoccupied land, and has an area of four and 47-100ths (4.47) acres; the notice of location of which is recorded on page 230 of Volume I of Records of Quartz Locations for Baker County, Oregon, in the office of the Recorder of Conveyances thereof, and a more particular description of which is hereinabove set forth.

Said Tin Horn mill site adjoins the Appomattox quartz claim, Mineral Survey No. 204, the Columbia quartz claim, Mineral Survey No. 270, the above mentioned Tin Horn and Old Middleman quartz claims and Telephone quartz claim, and contains an area of one and 726-1000 (1.726) acres, all else being vacant, unoccupied land, the notice of location of which is recorded on page 204 of Volume M of the Records of Quartz Locations for Baker County, Oregon, in the office of the Recorder thereof and a particular description of which is hereinabove set forth.

Any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations thereunder, within the time prescribed by law, with the Register of the United States Land Office at La Grande, County of Union, State of Oregon, they will be barred by virtue of the provisions of said statute.

NOTICE OF APPLICATION FOR PATENT.

United States Land Office,
La Grande, Oregon, January 15, 1900.

Notice is hereby given that William Smith, whose postoffice address is Baker City, Baker county, Oregon, in behalf of himself and his co-owners, Fred Knuth, W. S. Powers, and John L. Sullivan, has filed an application for patent for the lode mining claim called the Myrtle quartz mine, situated in no organized mining district, Baker county, Oregon, and designated by the field notes and official plat on file in this office as Mineral Survey No. 371, in section two, township nine south, range thirty-six E. W. M., said Mineral Survey No. 371 being described as follows (magnetic variation being from 20 degrees 15 minutes to 20 degrees 25 minutes east):

Commencing for a description of the exterior boundaries of the Myrtle quartz claim at Cor No. 1 of this survey, identical with the NE cor of location, the ¼ sec cor between sections 1 and 2 tp 9 S, R 36 E. W. M. bears N 82 degrees 20 minutes E 656 ft. Thence S 23 degrees 45 minutes E var 20 degrees 25 minutes E 335.5 ft to I center post, set a tamarack post 4 in sq 4½ ft long 18 in. in the ground with a mound of earth around it, marked it "Myrtle E. C. S. 371" for east center post, 600 ft to cor No. 2, identical with the SE cor of location, set a tamarack post 4 in sq 4½ ft long 18 in. in the ground, with a mound of earth around it, marked it "Myrtle cor 2-371" for cor No. 2 of this survey. Thence N 71 degrees 45 minutes W var 20 degrees 25 minutes E 921 ft Mammoth Gulch course southwesterly 1284.3 ft to cor No. 3, set a fir post 4 in sq 4½ ft long 18 in. in the ground with a mound of earth around it, marked it "Myrtle Cor 3-371" for cor No. 3 of this survey, the SW cor of location bears N 84 degrees W 212 ft. Thence N 23 degrees 15 minutes W var 20 degrees 25 minutes E 900 ft to west center, set a pine post 4 in sq 4½ ft long 18 in. in the ground, with a mound of stones and earth around it, marked it "Myrtle W. C. S. 371" for west center post, the west center location tree bears N 69 degrees W 44.5 ft, scribed to cor No. 2, set a fir post 4 in sq 4½ ft long 18 in. in the ground, with a mound of stones and earth around, marked it "Myrtle cor 4-371" for cor No. 4 of this survey. Thence N 23 degrees 15 minutes E var 20 degrees 25 minutes E 340 ft to cor No. 5, identical with the NW cor of location, a fir log yellow pine tree 18 in in diameter, marked it "Myrtle cor No. 5-371." Thence S 71 degrees 45 minutes E var 20 degrees 25 minutes E 1385 ft Mammoth Gulch course southwesterly 1284.3 ft to cor No. 1, the place of beginning, the said claim containing an area of 21.56 acres of land.

The presumed course of the lode is a little north of west and south of east. The number of feet claimed on the lode is fourteen hundred and sixty-four and three-tenths lineal feet extending from discovery shaft easterly 531 feet to east center end and westerly 831 feet to west center end of Mineral Survey No. 371, as described in the foregoing field notes.

The surface ground varies on the south side of the lode from three hundred feet on the southwest end line of the lode to two hundred and twenty-one and eight-tenths feet on the southeastern portion thereof, and on the north side of the lode, width varying from two hundred and forty feet at the northwest end line of the lode to three hundred and thirty-five and five-tenths feet on the northeastern portion thereof.

The notice of location of said Myrtle quartz mine is of record in the office of the recorder of conveyances of Baker county, at Baker City, in book L of quartz mining location records at page 55 thereof.

The only adjoining claim is the Lilac quartz mine on the east. The adjacent claims are the Gold Standard lode claim on the south, also the Montezuma Lode claim on the south, the Log Cabin lode claim on the west and the Pedro lode claim on the north.

Any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations thereunder, within the 60 day period of publication hereof, with the register of the United States land office at La Grande, in the state of Oregon, they will be barred by virtue of the provisions of the statute.

NOTICE OF APPLICATION FOR PATENT.

United States Land Office,
La Grande, Oregon, January 15, 1900.

Notice is hereby given that William Smith, whose postoffice address is Baker City, Baker county, Oregon, in behalf of himself and his co-owners, Jennie D. Ferguson, J. L. Fuller, M. K. MacRae and John L. Sullivan, has filed an application for patent for the lode mining claim called the Bunker Hill quartz mine, situated in no organized mining district in Baker county, Oregon, and designated by the field notes and official plat on file in this office as Mineral Survey No. 370 in section 1 township 9 S, range 36 E. W. M., said Mineral Survey No. 370 being described as follows (variation, magnetic, being 20 degrees 45 minutes east):

Commencing for a description of the exterior boundaries of the Bunker Hill quartz mine at Corner No. 1, which corner is a post 4 in. sq. 4½ feet long set 18 in. in the ground with mound of earth scribed 1-370, whence the ¼ section corner on north side of section 1 in township 9 S, R 36 East bears No. 1040 East 13.82 chains distant, thence S 23 degrees 15 minutes East 900 feet East center end post, 600 feet to cor No. 2, a post 4 in sq 4½ ft long set 18 in. in the ground with mound of earth scribed 2-370, thence S 70 degrees 45 minutes W 1500 ft to Cor No. 3, a post 4 in sq 4½ ft long set 18 in. in the ground with mound of earth scribed 3-370, for 3 in. its bears N 28 deg E 34 ft dist. Dated and scribed B T 3-370, thence N 23 degrees 15 minutes W 900 ft west center end post, 600 ft to cor No. 4 a post 4 in. sq 4½ ft long 18 in. in the ground with mound of earth scribed 4-370, thence N 70 degrees 45 minutes E 1500 ft to cor No. 1, the place of beginning and containing 20.66 acres.

The presumed course of the lode is nearly east and west. The number of feet claimed on the lode is fifteen hundred feet, extending S 1500 ft 70 degrees 45 minutes W to W center end post, 750 ft N 70 degrees 45 minutes E to E center end post from discovery shaft. The surface ground claimed is three hundred feet in width on the north side of the lode, and three hundred feet in width on the south side of the lode.

The notice of location of said Bunker Hill quartz mine is of record in the office of the recorder of conveyances of Baker county, at Baker City in book L of locations of quartz mining claims at page 161.

Adjoining claims: On the east Globe Case quartz mine, and on the west the Lilac quartz mine.

Any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof so described, surveyed, platted, and applied for, are hereby notified that unless their adverse claims are duly filed in the U. S. Land office at La Grande, Oregon, and within the 60 day period of publication hereof, with the register of the United States Land office at La Grande, Oregon, they will be barred by virtue of the provisions of the statute.

NOTICE OF APPLICATION FOR PATENT.

United States Land Office,
La Grande, Oregon, January 15, 1900.

Notice is hereby given that Fred Worley and J. W. Duckworth, whose postoffice address is Sumpter, Baker county, Oregon, have filed an application for patent for the lode mining claim called the Lilac quartz mine, situated in no organized mining district, Baker county, Oregon, and designated by the field notes and official plat on file in this office as Mineral Survey No. 376, in sections one and two in township nine south, range thirty-six E. W. M., said Mineral Survey No. 376 describing the said Lilac quartz mine as follows (magnetic variation being 20 degrees 25 minutes east):

Commencing for a description of the exterior boundaries of the Lilac quartz claim at Corner No. 1 of this survey, identical with the NW cor of location, the ¼ sec cor between sections 1 and 2 tp 9 S, R 36 E. W. M., bears N 77 degrees 2 minutes E 594.4 ft, thence south 23 degrees 35 minutes E var 20 degrees 25 minutes E along the first course of Myrtle Lode Sur 275, 300 ft to west centre post, identical with east center post of Myrtle Lode sur 371, a tamarack post 4 in sq 4 ft above the ground with a mound of earth around it marked "Myrtle E. C. S. 371" marked it "Lilac W. C. S. 376" for west center post, 600 ft to cor No 2, identical with the SW cor of location, set a tamarack post 4 in sq 4½ ft long 18 in. in the ground with a mound of earth around it marked it "Lilac cor No. 2-376" for cor No. 2. Thence N 76 degrees 45 minutes E var 20 degrees 25 minutes E 1462.4 ft intersecting section line between sections 1 and 2 tp 9 S, R 36 E. W. M. 1204.6 ft to cor No. 3, identical with SE cor of location, identical with cor No. 3 Bunker Hill Lode Sur 370, found a fir post 4 in sq 3 ft above the ground with mound of earth around it marked "Bunker Hill Cor 3-370" marked it "Lilac Cor 3-376" for cor No. 3. Thence N 13 degrees 35 minutes W var 20 degrees 25 minutes E along the third course of Bunker Hill Lode Sur 370 (Reported in Sur 372 to be N 13 degrees 15 minutes W) 300 ft to east center, identical with the east center post of location, and point of discovery, identical with the west center Bunker Hill Lode Sur 370, found a fir post 4 in sq 3 ft above the ground marked "Bunker Hill W. C. S. 370" marked it "Lilac E. 376" C. S. for east center post, 600 ft to cor No. 4, identical with the NE cor of location, identical with cor No. 4 of Bunker Hill Lode Sur 370, found a fir post 4 in sq 3 ft above the ground with a mound of earth around it marked "Bunker Hill Cor 4-370" marked it "Lilac Cor 4-376" for cor No. 4. Thence S 76 degrees 25 minutes W var 20 degrees 25 minutes E 1658.8 ft insersecting section line between sections 1 and 2 tp 9 S, R 36 E. W. M. course 1 degree 03 minutes W 2743.5 ft to NW cor sec 1, 1204.6 ft to cor No. 1, the place of beginning, embracing an area of 17.832 acres of land.

The presumed course of the lode is nearly east and west. The number of feet claimed on the lode is twelve hundred and ninety-four and six-tenths linear feet, extending along the center line of Mineral Survey No. 376, extending westerley from discovery shaft at east center end of said claim. The surface ground is three hundred feet in width on the north side of the lode and three hundred feet in width on the south side of the lode.

The notice of location of said Lilac quartz mine is of record in the office of the recorder of conveyances of Baker county, Oregon, at Baker City, in book L of records of quartz mining locations at page 160.

Adjoining claims: On the east by the Bunker Hill Lode Sur 370, on the west by the Myrtle Lode Sur 275. Adjacent claims: On the NW is the Pedro Lode and on the SW is the Montezuma Lode.

Any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof, so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law, and the regulations thereunder, within the 60 day period of publication hereof, with the register of the United States land office at La Grande, Oregon, they will be barred by virtue of the provisions of the statute.

NOTICE OF APPLICATION FOR U. S. PATENT.

United States Mineral Survey No. 366. Application No. 209.

United States Land Office,
La Grande, Oregon, Jan. 29, 1900.

Notice is hereby given that in pursuance with the act of Congress approved May 10, 1872, the Columbia Gold Mining Company, a corporation duly organized and existing under and by virtue of the laws of the state of Oregon, whose post office is Sumpter, Baker County, Oregon, has made application for a patent for the Cyclone Consolidated quartz claim, situated in no organized mining district, in Baker County, State of Oregon, including the Cyclone and Protection quartz claims, and described by the official plat herewith posted and by the field notes on file in the office of the Register of La Grande land district, State of Oregon, as follows, with magnetic variation at 20 degrees 30 minutes east, viz:

Description of the Cyclone Consolidated Quartz Claim (consisting of the Cyclone and Protection quartz claims). Mineral survey No. 366, towit:

Beginning at a post marked "Cor. No 1 366," which is s 71 degrees 45 minutes w 277 feet from U. S. Mineral Monument No. 1, the same being corner No. 1 of the Protection quartz claim; thence s 45 degrees 30 minutes w 1500 feet to a post marked "2-366," being corner No. 2 of the Protection quartz claim; thence n 51 degrees 25 minutes w 105 feet to a post marked "1-366," being corner No. 3 of the Protection quartz claim; thence n 45 degrees 30 minutes e 692 feet to a post marked "2-366," being corner No. 2 of the Cyclone quartz claim; thence n 23 degrees 30 minutes w 531 feet to a post marked "3-360," being corner No. 3 of the Cyclone quartz mine; thence n 45 degrees 30 minutes e 1358 feet to a post marked "4-366," being corner No. 4 of Cyclone quartz claim; thence s 23 degrees 30 minutes e 531 feet to a post marked "1-366," which is n 2 degrees 45 minutes w 446 feet from U. S. Min. Monument No. 1, being corner No. 1 of the Cyclone quartz claim; thence s 23 degrees 30 minutes w 530 feet to a post marked "4-360," being corner No. 4 of the Protection laim; thence s 51 degrees 25 minutes e 105 feet to the place of beginning.

Which said Cyclone quartz claim is 1358 feet in length and extends 1358 feet northeasterly along the Cyclone lode, bearing gold, from the south center end post of said Cyclone quartz claim, said post being marked "S Center End Post Sur. No. 366," with surface ground 531 feet in width, being 300 feet northwesterly and 231 feet southeasterly from said lode, and the notice of location of which is recorded on page 363 of volume F, Records of Quartz Claims for Baker County, Oregon, in the office of the Recorder of said county.

The adjoining claims to said Cyclone quartz claim being the Protection on the south, the Eureka on the southeast, the Victory on the north and Ohio on the west, said Protection claim being included in this notice of application for patent, all else being vacant, unoccupied land. There being no conflicting claims.

Said Protection quartz claim is 1500 feet in length and extends 1475 feet northeasterly and 25 feet southwesterly along the Protection lode, bearing gold, from the discovery point thereon; with surface ground 195 feet in width, being 162 feet on the southeasterly side and 33 feet on the northwesterly side of said lode, the notice of location of which Protection quartz claim is recorded on page 272 of volume J of the records of quartz claims of Baker county, Oregon, in the office of the County Recorder of said county. The adjoining claims to the Protection quartz claim being the Cyclone on the northeast, and the Columbia quartz claim, Mineral Survey No. 270, on the south, and the Ohio on the north. All else being vacant, unoccupied land. There being no conflicting claims.

Any and all persons claiming adversely the mining ground vein, lode, premises or any portion thereof so described, surveyed, platted and applied for are hereby notified that unless their adverse claims have been filed according to law and the regulations thereunder within the time prescribed by law, with the Register of the United States Land Office at La Grande, in the county of Union, State of Oregon, they will be barred in virtue of the provisions of said statute.
