MEN MADE STRONG

~NO DRUGS~

A CHILD may inherit a parent's strength, it may inherit his weakness. There is food for sober thought expressed in that sentence. Strength is a natural condition, weakness the reverse. For thirty years I have been showing men the road to strength. I have demonstrated a natural remedy to be the true remedy. I have made a specialty of nervous and organic weakness in men as a result of youthful errors or later excesses, such as Drains, Impotency, Lamback, Varicocele, etc. I could not give you as good service as some doctors in fevers, or pneumonia, or smallpox. I am no authority on obstetrics or tuberculosis. Of course I studied these subjects, but this is a day of specialties. I know the nervous glandular system of men. That's my strong

card. I treat weak men, and weak men only. In the beginning let me say I use no drugs. When I take your money I want to give value in return. I couldn't do that and give you drugs for weakness. They stimulate. They give "quick results," but you fall back into a worse condition. You are weak, you have robbed Nature by abusing her laws, but she is magnanimous, she is forgiving. I will ask her to give that strength back to you. I am the inventor of an appliance which puts in you hands a means of using Nature's great restorer, Electricity.

It is the Famous Dr. Sanden's Electric Belt

with attachment for men. Mind what I say. In ten years from date this Belt will be the world's remedy for such. This is no boast. I received 6000 testimonials last year. All absolute cures after all else had failed. The treatment is most commonsense. It appeals to better judgment. It is the long continued use of the pure galvanic current which does the work. Ordinary batteries are worthless. They do not generate the volume, and cannot be applied long enough. That's why I invented my Electric Belt. It was to fill a want. You put it on when you go to bed, take it off next morning. That's what does the work. Seven hours of Nature's strengthener each day for ninety days, with a little sound advice to suit your case. That's all. That will bring you back to strength.

FREE BOOK. Write for free book, "Three Classes of Men," which explains all. Sent in plain, sealed envelope. Write today.

DEPT. 19...

DR. A. T. SANDEN, Russell Building, Portland, Ore.

NEW PLACER COMPANY.

Will Work the Griffith Mines on a Large Scale.

The Oregon Placer and Power company, with a capital stock of \$1,000,000, is the name of a company organized in Sumpter for the purpose of working the famous Griffith placer mines, located about eight miles northwest of Sumpter and about two miles from the Granite wagon road.

The property consists of 200 acres, it being an old channel deposit and has a depth of about seventy-five feet of pay gravel, which will average twenty-five cents to the yard and is 400 to 500 feet in width, with comparatively few large boulders.

The company has a six mile ditch, carrying from 600 to 800 miners inches of water, which is worth a small fortune in itself.

This property is to be equipped at once for work on a large scale. Neil J. Sorensen, the promoter, is to be congratulated on securing this valuable ground for his company.

Parable of the Advertiser.

Behold an advertiser went forth to sow, and when he sowed, some fell into handbills and dodgers, and the street cleaner came and gathered them up.

Some fell among concert and theater programs, and the people being interested in the performance and not in bargains, they were left on seats or crumbled and thrown on the floor.

And some fell among fake schemes and gift enterprises, and popular contempt sprang up and choked them.

But some fell into legitimate news-

papers, which found their way into the homes of the people who had time to read them, and they brought forth fruit, some one hundred fold, some sixty fold, some thirty fold.

Who hath ears to hear let him hear.—Exchange.

Chicago Money to go Into Placer Mines.

L. C. Jaquish, who visited Baker county last summer, together with two other residents of Chicago, returned here the latter part of last week, accompanied by three Chicago friends, and yesterday left here with a mining outfit in charge of Jack Vincent, for Desolation creek, in the Greenhorn section, where last summer was located by Mr. Jaquish and Mr. Vincent, a body of placer ground which promises to pay handsome returns. Mr. Jaquish expects a party of Chicagoans who are interested with him to arrive here some time next month. In the meantime, the ground will be thoroughly prospected and if it justifies, sufficient capital will be forthcoming to operate the claims on a big scale.—Baker Democrat.

"The Portland", conducted by Gus Woodward on Mill street, is fully a representation of its name. A visit will convince you of this.

A nice cool pitcher of Weinhard's beer 25 cents, at Henry Finger's, Center street.

General Brass and Iron Founders and Machinists.

Baker City Iron Works

GEO. F. MCLYNN, Proprietor :::::

Special attention given to repairing and rebuilding all kinds of machinery.

Baker City. Telephone Red 161

OIL STOCKS

California Oil Stocks are making fortunes for their holders, and in many cases, from the outlay of a few dollars.

We are taking subscriptions for stock in a company whose property is situated in the heart of the

California Oil Belt

The company is organized on a conservative basis, under excellent management and to secure the largest profits to every investor the stock will be withdrawn from the market when the amount subscribed is sufficient to make the property a producer, after which the oil product will pay for further development. There are funds now in the treasury nearly sufficient for such purpose and the stock will soon be taken off the market. Considering the history of other oil companies operating in the same oil belt, we think it highly probable that *an investment of \$50.00 in the stock now offered will, within ninety days, give a dividend of \$150.00 per month.*

We have invested our own money in the stock and if you will call at our office or address us by mail, we will give you good reasons for recommending the investment in the highest terms.
