Pelton Water Motor

Is so superior to all others as regards strength, durability and economy of water, in fact all that constitutes a HIGH CLASS WATER MOTOR, as to admit of no comparison, adapted to every variety of service and made of sizes varying from the fraction of 1 up to 100 H. P. Recent scientific tests made at the Michigan University in connection with several other motors claimed to be the best on the market showed 45 per cent higher efficiency in favor of the PELTON, while the relative cost per H. P. to buy was only one-third to one-half that of others. Water companies desiring to make the best of their water supply should discriminate in favor of the PELTON. Deliveries made from New York or San Francisco, as may afford the best freight rates. Circulars free. One of these motors can be seen any time operating THE MINER presses.

THE PELTON WATER WHEEL CO.
