## Grizzly Gold

## Mining Company

Capital \$500,000

In 1,000,000 shares of the  
par value of Fifty Cents  
Each. Treasury Stock  
400,000 shares.

FULL PAID AND NON-ASSESSABLE

## PROPERTY

**T**HE Grizzly group consists of the "Colorado" and the "Colorado Extension" quartz mineral claims, situated in the Sumpter District of Baker county, Oregon, six miles northwest of the town of Sumpter, forming part of the rich mineral zone wherein are located producing mines of fabulous wealth, such as the "North Pole," "Columbia," "Golconda," "Bonanza" etc., etc. Development work on the Grizzly group has disclosed a gold bearing ledge of remarkably high value, a force of men are now at work and there is every reason to expect the property will become one of the greatest mines in Oregon.

## Read Our Proposition Carefully

A limited amount of Treasury Stock is offered for sale at SIX CENTS PER SHARE, payable cash down or in twelve monthly payments, the funds realized being used for opening up the property and making a producing mine of it. The purpose of the company is to have a steady inflow of cash to meet monthly pay roll. This can be realized by selling stock on monthly installments just as well as if selling for all cash, and at the same time enabling investors to secure control of a larger block of stock than if paying all cash.

Two Thousand Shares at \$120.00, payable \$10 down and \$10 per month until paid. Larger blocks of stock on pro rata scale.

## SOME MINING NOTES.

Operations at the Badger—Monitor Bonded  
—Banner Sold Outright.

The Badger mine at Susanville is pushing operations with a force of about 30 men. They have the shaft sunk to the depth of 300 feet, and intend to continue work until it has reached the depth of 500 feet. On the 300 foot level they are drifting on the ledge and are taking out tons of valuable ore. This they are sending to Sumpter, from which place it is being shipped to the smelter. The Badger company has leased the Elk creek placers to Sing Lee & Co., of Susanville. The mine is being operated by the firm, but with what success is not known. It is learned, however, that they are working ground that has been worked before and are doing reasonably well.

The Stockton mine, owned by Messrs. Ames and Simmons, will soon resume operations, and the shaft which is now down 100 feet, will be sunk to the depth of 200 feet. They have some valuable ore in this mine, which will be sent to the smelter for reduction.

Wm. Cooper, who has spent years prospecting in the Susanville camp, has bonded his Monitor mine to Frank Cooper. Work is progressing on the property, and ore taken out is being worked with an arrastra with good results.

Ike Guker and Joe Shaffer are doing development work on the Daylight quartz claim, owned by Mr. Guker and G. W. Dart, of John Day. They have the tunnel now driven about 60 feet, and have already cut one pay chute on their ledge. This ore shows up nicely, but they will continue the tunnel farther and crosscut a pocket lead, at a depth of about 80 feet.

Bryant Scroggins, formerly a resident of Long Creek, bought the Banner quartz

property near Mt. Vernon last week of Neil Jackson, the consideration of the sale being \$500. Mr. Scroggins recently came to the John Day valley from Silver City, Idaho, where he has been for several years working in the mines. He thinks the Banner claim is good property, and will improve as developed.—Blue Mountain Eagle.

## Lien on Columbia Southern.

S. Ban and N. G. Seaman, partners doing business under the firm name of Ban & Seaman, yesterday filed in the clerk's office of this county a lien for \$20,865.86 on the part of the Columbia Southern railroad lying between Moro, in Sherman county, and Shaniko, in Wasco county, forty-six miles, or thereabouts, in extent. The lien is to secure payment for tracklaying and surfacing the part of the road mentioned, which was done under a contract made between Ban & Seaman and A. E. Hammond and Archie Mason, whom Ban & Seaman claim to have been the agents of the Columbia Southern and, in the matter of sub-letting the contract for the work done, to have acted with the knowledge and consent of the Columbia Southern company. The total amount of Ban & Seaman's claim was \$32,365.86, on which they received on account \$11,500. It should be said that the greater portion of the balance claimed under the lien is for extras and alleged "extra cost and expense of doing the work by reason of interference and unjust treatment of claimants" by the officers of the company.—The Dalles Chronicle.

All kind of cake, pies bread etc., at Brechtel's bakery, opposite the depot. All orders filled promptly.

Handsome lot of Dicken's vest chains for men at F. C. Brodie's jewelry store, Opera House block.

## Umpqua Listed on the Exchange.

At the Oregon Mining Stock exchange today, the companies appeared under two heads, listed and unlisted, the listing committee having passed on those properties under the head of listed, and the companies having complied with the requirements of the committee. Those on the unlisted list will no doubt appear under the head of listed in a few days. The Umpqua Mining & Milling company was called on the board of the Exchange for the first time today. The company owns the American, Chance, Grand Prize and Gold Hill lode claims, located about five miles west from Sumpter on the Ibe road, in Baker county. The company is incorporated for 1,000,000 shares, par value 15 cents each, non assessable, 400,000 shares in the treasury. The officers of the company are: President, Willis Kramer; vice-president, H. W. Miller; secretary, W. F. Burlison; treasurer, A. P. Goss. These gentlemen, with J. C. Aiken and J. M. Drennon, are the board of directors. The Grizzly company is delayed in some of the details required by the listing committee, which will soon be overcome.—Telegram of last Thursday.

## Oregon Cayuses as Family Ponies.

"The little Indian cayuses of eastern Oregon need not be sent to the cannery any more," said Samuel Gray, a Huntington business man at the Perkins yesterday, "as a market has been found for them in the East. A good many carloads have left Huntington for the east this summer, as the cayuse makes a nice family pony when he is treated right, and he soon becomes docile." Mr. Gray said 15 carloads of horses of all sizes had been sent east from Huntington last week by Mr. Goodman, who has a horse ranch in the vicinity. There were work horses, cavalry horses and family pony cayuses in the lot, and he thinks very good figures can be realized on them.—Oregonian.

## RIO GRANDE WESTERN RAILWAY

IN CONNECTION WITH THE  
DENVER & RIO GRANDE OR  
COLORADO MIDLAND RAILROADS

OFFERS CHOICE OF  
THREE DISTINCT ROUTES

AND THE  
MOST MAGNIFICENT SCENERY  
IN AMERICA.
