FULL PAID AND NON-ASSESSABLE

PROPERTY

THE Grizzly group consists of the "Colorado" and the "Colorado Extension" quartz mineral claims, situated in the Sumpter District of Baker county, Oregon, six miles northwest of the town of Sumpter, forming part of the rich mineral zone wherein are located producing mines of fabulous wealth, such as the "North Pole," "Columbia," "Golconda," "Bonanza" etc., etc. Development work on the Grizzly group has disclosed a gold bearing ledge of remarkably high value, a force of men are now at work and there is every reason to expect the property will become one of the greatest mines in Oregon.

Read Our Proposition Carefully

A limited amount of Treasury Stock is offered for sale at SIX CENTS PER SHARE, payable cash down or in twelve monthly payments, the funds realized being used for opening up the property and making a producing mine of it. The purpose of the company is to have a steady inflow of cash to meet monthly pay roll. This can be realized by selling stock on monthly installments just as well as if selling for all cash, and at the same time enabling investors to secure control of a larger block of stock than if paying all cash.

Two Thousand Shares at \$120.00, payable \$10 down and \$10 per month until paid. Larger blocks of stock on pro rata scale.

PROMOTER,
PROSPECTOR.J. E. McManus Will Search for
Mineral in the Greenhorn.

John E. McManus, the leading mining promoter on Puget Sound, with headquarters in Seattle, arrived in Sumpter Monday. He was formerly mineral land inspector, his territory covering Montana, Idaho and Washington, and no man in the Northwest is better acquainted with its mineral resources. Mr. McManus is the man who developed the great copper mine, the Sunset, to its present famous position in the mining world.

He says he came here to prospect—and still he is not broke. That is a new rule for a successful promoter, but all of his movements since arriving here go to prove that this statement is on the square. He has about finished outfitting and expects to leave today for the Greenhorn. Furthermore, he evidently secured information regarding this district before leaving the Sound, for he knows exactly what he wants to do and where he wishes to go.

He will prospect that dozen or so miles of virgin mountain territory between Austin and Susanville. The positive assurance with which he starts out for that particular district looks as if he were acting on some kind of an inside tip, either pertaining to some unrevealed bonanza which has been discovered there, or else the route of a proposed railroad.

Mr. McManus is accompanied by W. T. Martin, formerly of Philadelphia, now a resident of Seattle. Hugh Kennedy,

one of the best known prospectors and mining men in the northern Cascades, arrived yesterday and will be one of this party of "prospectors."

Domesticating an Indian Race Horse.

A. P. Duncan has bought from Indian Louie the bay racer known as "Hiacclatawa." He has deeded to the horse a front stall in the big livery barn where he beds him down with the soft, fluffy feathers of the Harney valley sagehen. "Hiacclatawa" wears a pale blue silk smoking jacket during the day time, and when the chilly air of night begins to fall he is robed in a beautiful white blanket imported from Germany expressly for the purpose. The only trouble with the horse is he continues to pine for the camas tops and mahogany browse of his coalhood days.—Harney County News.

Unkind Comment on Our Ball Games.

Sumpter and Baker City can play base ball nearly as badly as Heppner can. In their last game at Baker City a week ago, which attracted an immense, enthusiastic crowd, the score stood 31 to 28 in favor of Baker City. This reminds us of the fitness of the remark made by an old resident of this place during a game last spring. He said: "You young buggers can't play ball. Why, when I was a boy we used to get as high as 40 and 50 runs in a game; now you fellows get only 5 or 10."—Heppner Times.
