

Strength For Weak Men

COPYRIGHTED

Say the word. Let me show you what I have been showing weak men for over a quarter of a century—the true road to health. The remedy I offer you will serve you faithfully without danger.

USE NO DRUGS

During my early years of practice I gave prescriptions to weak men. I know better now. For thirty years I have been treating those peculiar nervous symptoms which result from youthful errors or later excesses, such as Drains, Impotency, Lame Back, Varicocele, etc. From so vast an experience I can usually offer men, single or married, valuable advice. Reader, I wish it was in my power to show every weak man what wonderful results I am getting from my famous appliance, the

Dr. Sanden Electric Belt

and suspensory attachment. It is a never failing restorer of strength if used properly.

You may believe when I show you 6,000 unsolicited testimonials of absolute cures—names and addresses—received during 1899. This belt is the result of patient years of study. It developed from a portable chain battery I invented twenty-five years ago. It has undergone many changes, until today it embodies the best features of all electrical appliances, and constitutes a perfect home self-treatment for men. It is really a portable

battery of 36 elements. Weight, six ounces. Currents instantly felt, though regulated to any degree of strength while on the body by using regulator thumb screw. Worn all night. Soothes, strengthens, cures while you sleep.

FREE BOOK! Write for little book, "Three Classes of Men," which explains all, and is sent in plain, sealed envelope free, or if in or near this city, drop in and consult me free of charge. I give all correspondence personal attention. Do as I say. Write or call today.

DR. A. T. SANDEN,
Dept. 19, Russell Building
Portland, Ore.

COUNCIL PROCEEDINGS.

Water Works Service Causes Much Complaint.

At the meeting of the council Saturday evening A. W. Ellis was appointed mayor pro tem.

J. B. Stoddard appeared before the council and made a sensible talk regarding the bad condition of south Mill and adjacent streets, owing to the leaks in the water mains. The council agreed to have a consultation with R. E. Strahorn, the owner, and endeavor to put a stop to this nuisance, and have the present policy of furnishing water when and where it is not wanted and withholding the service where it is needed and paid for.

The health ordinance was laid on the table.

The misdemeanor ordinance has become a law, ten days having elapsed since its passage and not having been vetoed, but its provisions are withheld from the public, owing to the fact some clerical errors need correcting in enrollment, and the official whose duty it is to look after this matter has been too busy during the past eighteen days to do the work. Until either posted or published this ordinance can't be enforced.

There will be no meeting of the council Saturday evening, but a special meeting has been called for Tuesday, the 25th.

Diadem Will Drive a 600-Foot Tunnel.

At a meeting of the directors of the Diadem Gold Mining company held yesterday, the resignation of John M. Murphey as secretary was accepted and W. H. Mosby elected to fill the vacancy. Mr. Murphey resigned on account of his removal from Sumpter to Spokane. At the

same meeting of the directors it was decided that further development shall be done by contract, and a call for bids on 600 feet of tunnel work was issued. Superintendent Grimes was present and he reported that the mine is looking good and growing better all the time. This property is famous for its high values. Of the several shipments of ore made, the lowest netted the owners \$115 a ton.

PORTLAND STOCK EXCHANGE.

Claims to Have Sold 241,500 Shares the First Day.

The Portland Mining Stock Exchange opened Monday. The apparent sales were 241,500 shares, but it will be hard to convince any one that this was strictly on the square. About the opening, the Telegram says:

"As an evidence of the increased interest taken in mining here the opening of the Portland Mining Stock Exchange this morning is significant. Though organized last February, this exchange did not open its doors until this morning. Its first call was at 10:30.

"With the opening of the Portland Exchange Portland has two mining exchanges in operation, as the Oregon Exchange, which has been in business in the assembly hall of the Chamber of Commerce building the past three months, will continue operations at the old stand.

The rooms of the Portland Mining Stock Exchange are located at No. 126 First street. Here commodious and conveniently arranged quarters have been fitted up. The opening this morning was signaled by a large attendance, the floor being crowded by directors, brokers, stockholders and interested spectators. Among the visitors were several who came from Southern Oregon on purpose to attend the call.

"Just prior to the call Secretary Court-

land L. Parker, in a few well-chosen words, spoke of the aims, objects and plans of the exchange. He briefly outlined the plans of the board of directors and closed with a prediction for the future that met with a hearty response from the audience. R. F. Peabody officiated as caller. The call was gratifyingly active, 241,500 shares of stock changing hands. There were six listed mines on the board, and one—American Boy, in Slocan country—was called up under the head of miscellaneous properties.

Portland G. M. & M. headed the list of sales with 140,000 shares; May Queen followed with 26,500 shares, and American Boy made a good third with 20,000 shares to its credit.

Rocky Mountain Scenery By Day Light.

Day light stop over at Niagara Falls. Through first-class tourist sleeper from Pacific Coast weekly for Chicago, Boston, New York and other eastern points via Rio Grande Western (Great Salt Lake Route), Denver & Rio Grande, C. R. 142 Third St., Portland, Oregon.

Call for Bids on Tunnel Work.

Sealed bids will be received by the Diadem Gold Mining company until October 10, 1900, at their office in Sumpter, Oregon, for the running of 600 feet of tunnel, being the continuation of the company's present tunnel, which is in 225 feet. The company reserves the right to reject any and all bids.

The Diadem Gold Mining Co.

Sumpter, Or., Sept. 18, 1900.

Five quart bottles of Olympia beer for \$1.00 at Henry Fingers'.

The Literary Digest

Issued Weekly
32 Pages Illustrated

"All the Periodicals in One"

THE LITERARY DIGEST has taken the highest rank as a weekly review of current thought at home and abroad, in the realms of literature, art, science, religion, politics, sociology, travel, discovery business, etc. Discussion and information on all sides of important questions are given. The contents each week cover a field so diversified as to make THE LITERARY DIGEST indispensable to the busy man who desires to keep up with the thought of the time, but who lacks the leisure for such a task.

OPINIONS FROM AUTHORITIES

E. P. Powell, D. D., in Unity, Chicago: "THE LITERARY DIGEST is an absolute necessity to those who would keep in line with the progress of thought and achievement. I do not see how any thinking man can get along without it."

Edwin Markham, Author of "The Man With the Hoe": "THE LITERARY DIGEST is one of the two or three most valuable journals that come to my table."

Ex-Senator John J. Ingalls: "THE LITERARY DIGEST enlarges the boundaries of intelligence."

Senator William P. Frye: "It will afford immense assistance to the scholars of the country."

Gov. John P. Altgeld, of Illinois: "THE LITERARY DIGEST is one of the very best publications in America. To a student of current literature it is invaluable."
