

SUMPTER, OREGON

SUMPTER is located in the Blue Mountains, 4229 feet above sea level, healthful climate, and is the commercial, banking, mining and distributing center for the entire district for many miles in all directions, and, different from most mining towns, it is a model little city of homes for the surrounding district.

1898
1899
1900

THE YEARS 1901 and 1902 promises to excel all past records in the growth of Sumpter, and add many paying mines to our present large number. Well located real estate purchased now will increase many times in value in the next one to three years. Take advantage of the opportunity now offered.
