

STRENGTH FOR WEAK MEN

COPYRIGHTED

Say the word. Let me show you what I have been showing weak men for over a quarter of a century—the true road to health. The remedy I offer you will serve you faithfully without danger.

USE NO DRUGS

During my early years of practice I gave prescriptions to weak men. I know better now. For thirty years I have been treating these peculiar nervous symptoms which result from youthful errors or later excesses, such as drains, impotency, lame back, varicocele, etc. From so vast an experience I can usually offer men, single or married, valuable advice. Reader, I wish it was in my power to show every weak man what wonderful results I am getting from my famous appliance, the

Dr. Sanden Electric Belt

and suspensory attachment. It is a never failing restorer of strength if used properly.

You may believe when I show you 6000 unsolicited testimonials of absolute cures—names and addresses—received during 1899. This belt is the result of patient years of study. It developed from a portable chain battery I invented twenty-five years ago. It has undergone many changes, until today it embodies the best features of all electrical appliances, and constitutes a perfect home self-treatment for men. It is really a portable battery of 36 elements. Weight, six ounces. Currents instantly felt, though regulated to any degree of strength while on the body by using regulator thumb screw. Worn all night. Soothes, strengthens, cures while you sleep.

MANAGER McCALLUM PAYS \$8000.

Though Money Not Yet Due on the Bell Baker and Red Fox.

Manager H. S. McCallum, of the Mammoth Gold Mining company, and the Bald Mountain Mining company, came to Baker City yesterday and made the final payment of \$8,000 of the purchase price of the Bell Baker and Red Fox claims, adjoining the Mammoth mine in Mammoth district. The persons receiving the money and from whom the title to these properties passed, were Thomas McEwen, J. F. Cupid and Andrew Elliott, all well known citizens of Sumpter.

The last payment on the purchase of these properties was not due until January 1, 1901, but a few days was of no importance to the syndicate buying them, all of whom are Boston people, since sufficient development has given ample evidence of the value of the mines.

The Mammoth Mining company, the purchaser of the Bell Baker and Red Fox, is one of the strongest companies operating in the eastern Oregon gold fields and it is a matter of congratulation to know that the company has placed its confidence with so great a degree of certainty of success as that indicated by the splendid showing made by the mines they now control, under so able management as that of Mr. McCallum who, since his advent into Baker county, has shown remarkable foresight and extraordinary business ability. His success has been remarkable and there are still greater achievements in store for him and those associated with him.—Democrat.

Good Showing on the Yellow Daisy.

S. B. Dourty's Yellow Daisy group, situated on the south end of Spokane mountain, near the Red Boy, is now undergoing further development. A force of men are at work extending the main tunnel

to cross-cut one of the numerous leads that are known to traverse this property and which crop out on the surface a few hundred feet up the mountain from the mouth of the main working tunnel. This property presents as fine a showing as any in this section for the amount of development done. No less than eight distinct and separate free gold leads of fair size and value have been uncovered on the surface, and the owners have every confidence that when these are encountered in the face of the tunnel at a depth of several hundred feet, they will have a mine equal to any in Grant or Baker counties. The Yellow Daisy group is about two miles from Lawton.—Lawton Standard.

Gold Hill Produces 35 Tons Daily.

The Gold hill, which is just four miles northeast of Express, and only a short distance from the Gold Ridge, has just increased its milling capacity to thirty-five tons daily, and in a few days the new machinery will be in operation. The force of thirty miners will be increased at once. There has been something over \$150,000 sunk into this mine, every dollar of which came out of it, besides paying handsome dividends, and it has today as good a financial standing as any mine in the country. In conversation with Colonel James A. Panting, under whose skillful management it has come into prominence as a producer, he said: "With the Gold Hill and the Gold Ridge we have two of the best mines in the country up near Express. I don't care what those Sumpter people think, I know this. We can show any day a ledge that will equal any in the country, both in size and value. I have spent the last four years in the Gold Hill and the mine now has a tunnel depth of over 650 feet and looks better all the time. As a matter of fact, there is little known of the value of this mine as we have never courted publicity. We have a good mine, we know it, and we are satisfied."—Baker City Herald.
