

Some Stock Still Remains!

Of the First 50,000 Shares Offered by

The Gipsy King Gold Mines Company

STOCK NON-ASSESSABLE

Most of it has been sold and not one cent in commission has been paid to a broker. Those who wish to buy mining stocks will invest in this on the merits of the proposition, after careful investigation.

The great advantage offered to buyers by the GIPSY KING is that only treasury stock is on the market, all other being pooled and placed in escrow; thus giving the company absolute command of the price of its stock. When the few thousand remaining shares of this first offering are disposed of, the price will be advanced. Men are now at work on the property and active development on an extensive scale will be inaugurated at an early day.

Orders for stock should be accompanied by the cash and sent to J. H. ROBBINS, President of the First Bank of Sumpter and Treasurer of this Company,

For prospectus, or any desired information, address,
