

Diadem Gold Mining Co.

OFFICERS

President..... J. H. ROBBINS
 Mayor of Sumpter
 Vice-President..... N. C. RICHARDS
 Attorney-at-Law
 Sec'y and Treas... OTTO HERLOCKER
 Asst. Cashier First Bank of Sumpter
 Directors..... J. H. Robbins, N. C. Richards, E. M. Anderson, M. D.
 Supt. of Mines..... DAVID O'NEIL
 Geiser P. O., Baker County, Oregon

In addition to the officers of the company among the stockholders are: Hon. Lee Mantle, late U. S. Senator, Butte, Montana; Thos. R. Hinds, late County Treasurer, Butte, Montana; Hon. John F. Forbes, Attorney-at-Law, Butte; Chas. S. Warren, Speculator, Butte; Jos. F. Pardee, Miner, Phillipsburg, Montana; H. M. Grant, Insurance Adjuster, Portland; Geo. W. McDowell, Broker Portland; C. B. Richardson, Contractor, Walla, Walla, Wash.; Hector McRea, Miner, Rossland, B. C.; Dr. H. C. Sills, Fort Wayne, Ind., and many others who have investigated this promising property.

Mines Situated on Greenhorn Mountain

Baker County

1,000,000 SHARES
 PAR VALUE \$1 00 EACH

Home Office
 Sumpter, Oregon

This Mine is Working Every Day

This Mine is a Shipping Mine

The Baker City Sampling Works gives the following returns for two small shipments: Lot 68-1. 253 sacks of ore, dry weight, 13,063 pounds. Gold, 7 ounces; silver, 9.40 ounces. Gold per oz, \$20; treatment cost \$8. Net price per ton, \$130.50. Freight, \$7 per ton. Net value of lot, \$890.24. Lot No. 102. 378 sack ore; dry weight, 18,810. Gold, 6.20 ounces; silver, 9 ounces; gold \$20 per ounce. Cost of treatment, \$8; net price per ton \$115.80; freight at \$7 per ton; net value of lot, \$1019.04.

THE SHAFT is now down 70 feet. Tunnel now in over 700 feet. Rich body of ore in shaft (sinking stopped on account of water) should be reached in the tunnel in 300 feet, or by July 15. The directory is a guarantee of good faith. It is true that all prospects do not make mines, but it is also true that all mines were once prospects. Here is what the experts say of the Diadem: F. F. Grimes, a prominent mining man of Republic, Wash., says: "I consider the Diadem the best property I have ever examined. It is surely a remarkable showing and, in my judgement, the making of a great mine." Hon. Chas. Bonner, connected with Granite Mountain mine, in Montana, says: "In all my experience as a mining superintendent, extending over a period of 20 years, I consider the Diadem is by odds the best mine I have ever been connected with." Hon. J. K. Pardee, a mining expert well known all over Utah, Idaho and Montana, says: "In all the years I have mined I never saw a prospect that made the showing of the Diadem mine." A. L. McEwen, M. E., one of the best known English experts throughout the entire northwest, says: "For an undeveloped prospect, I consider it among the very best I have ever examined. I believe it will prove to be a great dividend payer when developed." Mr. James O. Loundigan, M. E., of Republic camp, Wash., and Boundary district British Columbia, says: "After making a large number of assays from this property, I am convinced that it is the best thing in Eastern Oregon for the amount of development work done."

The above is a plain business statement of this property. The management now offer for sale 50,000 shares of the treasury stock at 15 cents per share. Applications for stock must be accompanied by the money and should be addressed to Otto Herlocker, treasurer of the company, Sumpter, Oregon. For information address,

Care First Bank of Sumpter

Otto Herlocker, Sumpter, Ore.

IT PAYS TO BUY MINING STOCK.

Instances in Which Fortunes Have Been Made on Small Investments.

Professor William H. Tibbals, of Salt Lake, Utah, is authority for the statement that less than six years ago, Swansea stock was selling at ten cents a share, and that \$100 invested at that time in that stock has since yielded \$2,865 in dividends and reached a present market value of about \$4,000.

The Silver King mine is now paying \$100,000 a month in dividends. In 1893 the stock was bought at \$2.50 per share, or \$250 for 100 shares. The dividends received to date on that investment have amounted to \$2,500, and the present market value of 100 shares of Silver King is \$7,700. Some time last year Lower Mammoth stock could have been bought for 15c per share, and since then the assessments have amounted to 10 cents, making the cost of 1,000 shares \$250. The present market price of that 1,000 shares is \$4,125.

Not every mining stock can show such magnificent advances as these, but many can. And it is such facts that illustrate the advantages to the small investor, who, in no other character of enterprise, can hope to have his limited contributions yield as bountiful legitimate returns.

This is not getting something for nothing. The effort to do that rarely succeeds. But it is furnishing the small key necessary to unlock, by development, the great treasure house of nature and then helping one's self freely and rightfully to her generous riches.

No man is the poorer for the wealth that the mine owners win. He does not divert from others to enrich himself. On the contrary, the whole world gains when he gains. For until he brought them forth by industry and courage his riches

lay useless, locked idly in the fissures of the awaiting hills.—Denver Investor.

Colonel Donan's Work Appreciated.

Hon. Thomp. Burton, of Youngstown, Ohio, a man of prominence in that state, writes to Colonel Donan as follows: Your Oregon Railroad and Navigation Company book on "Oregon, Washington and Idaho" is duly to hand. I have read and read again this wonderful emanation of your genius. That is the precise term, and nothing else would express it. Allowing the statements to be substantially compilations of facts, still you are the only person living who could make the presentation as made in this booklet. It is marvelous. You have, if that were possible, outdone yourself, and for this seductive invitation to homeseekers and investors alone you merit from the capitalists generally, and from the transportation companies particularly, of the Pacific coast, a substantial recognition sufficient to put you on "Easy street" for the balance of your life. No mere salary for time occupied in compiling statistics and putting out an advertising folder is adequate compensation for the widespread influence this powerfully and charmingly written presentment of the Oregon Land must and will exert. It is work of the kind that no other man has ever done or could do.

Struck Gold While Boring For Water.

While boring for water at the hot springs, on the eastern city limits, to secure hot water for the new natatorium and city supply, when down about 15 feet mineral rock was struck which created a sensation when the news spread around town. The rock is of lava formation and contains peacock copper. Samples were brought to the city in the afternoon and assayed, giving values of \$20.25 to the ton in gold, and 35 cents in silver. The projectors of the natatorium are undecided whether to continue boring for hot water or for gold.—Democrat.
