

CONSERVATIVE MINING INVESTMENT!

LIBERTY BELL CONSOLIDATED MINES COMPANY own four quartz claims in the Alamo division of the famous Red Boy district, one half mile from the town of Alamo, in Grant County, Oregon.

In the very heart of possibly the **Greatest Mineral Zone** in all the world, surrounded by such well-known operating properties as the Bonanza, Strassburg, Red Boy, Inter Mountain, Cougar, Concord, Alamo and Quebec. The claims are well timbered and watered. Geological formation—argillite and porphyry. Character of ore—simple silicious quartz, sixty per cent free milling, the remaining values concentrating 50 in one.

Three distinct well defined veins can be traced for a distance of 1000 feet on the surface, averaging from 14 to 30 feet between walls, giving \$7.20 per ton on surface.

Numerous open cuts, adits, tunnels and cross country trenches thoroughly prospect the width and values of the ledge.

Pan samples taken from various test pits on the surface, never fail to yield a fine prospect in free gold, the assay value giving as high as **\$216 per ton** in gold.

The Strassburg group, which adjoins the

LIBERTY BELL on the north and east, in driving a cross cut to tap their main lead at a depth of 500 feet, have cut two blind ledges 14 and 19 feet in width only 150 feet from our side line, coursing southwest through three of the LIBERTY BELL claims.

Capitalization, 1,000,000 shares, par value \$1 each, **fully paid and non-assessable**, 400,000 shares in the treasury. The first issue of 100,000 shares is offered at 25 cents per share. **Price of second issue will be advanced to FIFTY CENTS.**

The proceeds from the sale of 200,000 shares properly expended in developing the mines and purchasing milling plant, will enable the LIBERTY BELL to pay **\$30,000 monthly**.

All checks and drafts should be made payable to R. H. MILLER, Treasurer, who is Cashier of the First Bank of Sumpter.

Developing Mines with Plug Hats.

In New York City it is said that never before were conditions so favorable for obtaining money with which to develop mining enterprises. But the proposition must be well presented and possess merits. Formerly investors required but one report on a prospective purchase, but now they require two at least. The best experts to be obtained are sent to examine the properties, and the one that precedes knows nothing of the one who is to follow him, and the last examiner is ignorant that the property has been experted before. If an individual possess a meritorious proposition, it is said he can develop it faster with a plug hat in New York than he can with a pick on the ground.—Northwestern Mining News.

Concord Buys the Wilson Group.

The report is current here that the Concord people have secured the Wilson property, adjoining their group of claims, on a bond. The rumored figures are \$15,000 on 60 days' time, with 10 per cent down and the remainder in graduated payments. It is said a crew of men will be put to work at once by the owners.—Lawton Standard.

Laces in Lace.

Mrs. Marsh, next door to MINER office, will give practical instructions in lace work. Materials and hundreds of patterns to select from.
