### BOUGHT THE BELCHER

This Great Property Will Soon Be a Producer.

G. W. Daines, of Danville, Illinois, spent last week between Baker City, Sumpter and Alamo. The purpose of his trip here at this time was to make the final payment on the Belcher group of claims, near Alamo, which sale was negotiated by W. H. Jackson some months since. He will continue to act as superintendent of the mine. Mr. Daines was seen by a MINER man just before leaving here Friday for Spokane, where he is making his headquarters at present. He stated that the published reports regarding the transaction have been substantially correct.

The final payment was made last Wednesday at Baker City, by W. R. Eisenhour, of Spokane, for G. W. Daines, who is the principal stockholder and president of the purchasing company, the Daines Gold Mining and Milling company. The price paid was \$75,000. The property was owned by Andy Larsen, of Alamo, D. W. Denton, of Muscatine, Iowa, and Alfred Sterns, of Baker City.

The Belcher consists of six claims. The ledge is from eight to twenty feet wide and the ore runs from \$8 to \$10 to the ton.

The Belcher is one of the most promising properties in the entire district. It is essentially a tunnelling proposition and is so situated that 1000 feet of backs can be obtained of free milling ore before it will be necessary to go into deep sinking. There is plenty of timber and water for all mining purposes. water for power being obtainable from the Mann

ditch, 1000 feet above the millsite.

It is announced that a mill will be erected on this property in the near future to treat the large ore bodies already blocked out. A system of extensive development work will also be immediately inaugurated.

This is one of the most important transactions in the eastern Oregon gold fields of the present year, for the purchasers have ample means with which to carry out their plan of making the Belcher a producer at the earliest possible date. Mr. Daines is a progressive, broad gauge man whom any section is fortunate in getting him identified with its interests.

### HERE ARE SOME MONEY MAKERS!

2000 Shares of Grizzly at 9 cents. This Treasury Stock is being sold at ten cents. Owner of this block is working his own claim and must have the money to buy powder and grub.

2000 Shares of Tammany at 10 cents. None of this stock is now offered for sale, the company having placed all it wishes to sell in London at a much higher figure than this, and the Englishmen secured a bargain.

Other gilt edge mining and oil stocks at less than market prices—all forced sales.

\$10,000—A group of three claims in the famous Cracker Creek district; 100-foot tunnel cuts a good ledge carrying fair values that will surely increase with depth. Ten per cent down and remainder on reasonable time and liberal terms.

\$5,000—This is the most alluring proposition in Eastern Oregon; in the Alamo district. It has a pay streak from 2 to 10 inches, traced for 100 feet that is full of coarse free gold—Ledge is widening out in shallow shaft. Half cash, balance to suit purchaser.

If you dont see what you want, call or write and ask for it.

I have a cash customer for a cheap second-hand hoist, good for 300 feet.

Twenty-stamp mill, complete, new and entirely up to date. Can save purchaser \$3000 on original cost.
