## ... AN INVESTMENT, <sup>NOT</sup><sub>A</sub> SPECULATION ...

**THE FRIDAY GOLD MINING COMPANY** here offers an opportunity for investment in a DIVIDEND PAYING GOLD MINE, located at Pearl, Willow Creek, Boise County, Idaho

### The Friday Mine Has:

1. A vein of gold bearing quartz, varying in width from 4 to 7 feet.
2. A shaft on the vein, 130 feet in depth.
3. Lateral drifts on the vein, aggregating 600 feet.
4. 4500 tons of ore, averaging in value more than \$20.00 per ton, or a total of more than \$90,000.00, already in sight, and ready to be milled. This body of ore, will net the stockholders over \$50,000.00.
5. A record for producing extremely high grade ores.
6. Already produced over \$100,000.00 in gold

Have you already spent money in mining stocks which have proved absolutely worthless?

Have you invested in a property, which you were told "had all the ear marks of a big mine?"

Have you often been promised quick returns on your investment, and so often been disappointed? If so, will you consider an investment from which the gambling feature has been entirely eliminated? If we will take you to the mine and show you the vein uncovered for over 1000 feet, and the fact of its continuity thus demonstrated, we again ask you, if we will do this, will you be convinced that we are not merely mining on paper, but in reality have a mine, and above all, have a large amount of ore, ready to be treated at an immense profit?

We can substantiate every statement we make, and hand you herewith a few figures, showing the value of the ore as it is encountered in the mine. This must be the most conclusive evidence that the FRIDAY MINE, is one of the richest mines in the northwest.

NUMBER OF ASSAYS	AVERAGE VALUE OF SAME	NUMBER OF ASSAYS	AVERAGE VALUE OF SAME	NUMBER OF ASSAYS	AVERAGE VALUE OF SAME
5	\$ 31.50	14	\$ 96.87	10	\$ 50.54
9	37.34	12	96.39	6	29.16
15	25.83	8	101.87	20	36.30
18	25.94	9	54.74	10	34.94
13	24.83	17	39.79	9	39.04
2	120.08	12	39.80	2	167.75
15	34.43	17	36.54	11	37.66
8	85.70	6	84.78	6	37.23
7	56.78	6	65.54	20	41.50
10	22.70	12	45.00	5	64.66
17	56.78	9	73.34	8	29.61
9	51.64	6	37.74	8	31.84

TOTAL AVERAGE OF THE 381 ASSAYS, \$56.72 PER TON.

As a quick medium for the return of good profits, this enterprise stands unequalled. While at the present it is impossible to state the definite rate the dividend will be, conclusions may be easily drawn from the facts already presented.

Other companies derive handsome profits from the working of ores that have an average value of but from \$5.00 to \$8.00 per ton, the yield of the FRIDAY GOLD MINING CO. will unquestionably average more than \$20.00 per ton, hence it would appear that the inducements to purchase stock in the FRIDAY GOLD MINING CO. could not be more strongly emphasized, even in the presence of actual figures and results.

It should be remembered that the opportunity for buying stock in the FRIDAY GOLD MINING CO. on what may be truly termed "ground floor" terms, will soon end. The present price of the stock is TEN CENTS PER SHARE, on June first the price will be advanced to FIFTEEN CENTS PER SHARE.
