

Safe, Profitable Investment

OUT IN

THE CABLE COVE DISTRICT

where greater activity prevails than in any other mining region in the West today, the

Gipsy King Gold Mines Co.

owns eight full claims and a water right. These claims were nearly the first located in Big Limber gulch, about eighteen months since, and were then considered the choice of a dozen groups filed on during the summer of 1900. For ten months past development work has been in progress uninterruptedly. Shafts have been sunk, open cuts excavated and tunnels driven, and this work has justified the opinion of experts when the stakes were driven, that the property was the best in the district.

At present the main ledge has been uncovered at two points, 3,000 feet distant from each other, and at numerous intermediate points. It is not claimed that this ore shoot is 3,000 feet in length, but the barren spots have not yet been encountered. The vein is from six to nine feet across. There are other ledges on the property that have not yet been exploited.

Assays of Gipsy King ore are so gratifying; give such high values in gold and silver, that experienced mining men have been skeptical as to their accuracy; but so uniform are the returns from a score of assayers in this and other mining states, perhaps a half hundred in number, that there can no longer be any doubt on that point. No "trace" has ever been returned; the lowest was \$14.92, the highest \$392.00 with an average of better than \$40.00 across the full width of the ledge.

The Gipsy King Gold Mines Company is capitalized at \$1,000,000, par value of shares \$1.00 each, fully paid and non assessable. In the treasury there is now remaining something over 200,000 shares of the 250,000 treasury fund. All other stock has been pooled and not a share offered for sale and can not be for at least six months to come. This is the best possible proof of the good intentions of the promoters of the enterprise, of their faith in the property. They believe they have a mine and are not willing to sell their holdings at prospect prices.

January 1, the price of stock was fixed

10 CENTS PER SHARE

Send your money with your order, to J. H. ROBBINS, Treasurer of the company and President of the First Bank of Sumpter. For further information address

OTTO HERLOCKER, Secretary, Sumpter, Oregon.

This is not one
of those so called

"Get Rich Quick"

schemes, but is a proposition that will yield very large returns on the money invested, compared with "industrials" railroad stocks, farm mortgages and the like. And it is equally as safe as any of them.
