MISCELLANEOUS.

Articles of Incorporation—June 19, The Con Power Co by Frank S Baillie, H S Bowen and John L Rand; office at Baker City. 1,000,000

Reduced Rates to the East.

Those contemplating an eastern trip will be interested to know that there will shortly be on sale greatly reduced rate tickets in connection with the Rio Grande System, the famous "Scenic Line of the World." This line offers its passengers a most delightful and comfortable journey to all eastern points. It is the only transcontinental line passing directly through quaint and picturesque Salt Lake City, "The City of the Saints;" beautiful Glenwood Springs, Leadville, Pueblo, Colorado Springs (where a side trip may be made to the Garden of the Gods and the summit of Pike's Peak over the cog-wheel railroad) and Denver, the queen city of the intermountain region. Stop-overs are allowed on all classes of tickets. Three daily express trains make close connections with all trains east and west and afford a choice of five distinct routes of travel. The equipment of these trains is the best, including free reclining chair cars, standard and tourist sleepers, a perfect dining car service, and also personally conducted excursion cars, each in charge of a competent guide, whose business is to look after the comfort of his guests. No more pleasant and inexpensive means of crossing the continent can be found than is provided by these excursions. For additional details address J. D. Mansfield, general agent Rio Grande lines, 124 Third St., Portland, Oregon.

WRITE FOR CATALOGUE AND PRICES

The red diamond-shaped label on the box, and on every few yards of Eureka packing is an insurance policy. It insures long life of the packing, perfect performance of its duty as packing, reduction of friction to a fraction, and less packing expense than with any other kind of packing. When you have Eureka, "you have found it."

Our little pocket dice box made a great hit with several thousand engineers. It cost us a good deal, but we are willing to send it with the catalogue to any engineer who sends five cents in stamps for postage.
