AN EXAMINATION

GEO. W. POAGUE, State Manager.
Fargo, North Dakota, Aug. 25, 1902.

Mr. J. C. R. Charest,
City.

Dear Sir:— At the request of yourself and other Fargo stockholders of the Friday Gold Mining Company (as well as for my own satisfaction as a stockholder) I made a personal inspection of the Friday Mine at Pentri, Idaho, and also looked over the records of the Company.
I shall not give you a detailed description of what I have seen, but will simply verify the statements made in the company's prospectus, as I found them to be conservative and correct. I also found the records of the Company in good shape.
I took special occasion to look into the standing and reputation of the officers and directors of the Company, and found that they enjoy the confidence and respect of the community in which they live.
I found the Friday in charge of a competent superintendent, and in order to satisfy myself as to the actual values of the ore in the mine, I took a number of general samples (specimens of which may be seen in my office) the lowest assay showing \$20.53 and the highest \$152.54 per ton.
I am indeed well satisfied with my investment, and would recommend the stock of the Company, to anyone seeking a legitimate mining investment.
I had the pleasure of meeting all of the officers and directors of the Company, and found them to be courteous and capable, and am satisfied that, under their management, our investments will be protected, and will prove profitable.
Thanking you for the confidence reposed in me, I am,

Respectfully yours,

GEO. W. POAGUE

Gentlemen,*

*I have today received from Mr. Geo. W. Poague - whom the Fargo stockholders of the Friday mine selected to make an examination for them - a detailed report of the results of his examination of the mine and company. I am so well pleased with the report that I have decided to increase my holdings in the Company.
From this and many other reports that I have received I have the heartiest recommendation of Friday stock as a gilt edge investment.*

*Very truly yours
J. C. R. Charest M.D.*
