

THERE ARE ONLY 25,000 SHARES OF FRIDAY STOCK LEFT TO BE SOLD AT 15 CENTS PER SHARE

When this amount is sold the price
will positively be advanced or stock
withdrawn from the market entirely

WE HAVE SECURED A STAMP MILL

The machinery is now on the ground and
will soon be ready to crush and reduce the
Friday Ore. Upon the completion of the
Stamp Mill, we will at once proceed to Mine
and Mill the Friday Ore. Soon thereafter
we will be able to commence paying

REGULAR MONTHLY DIVIDENDS

You all know about the Friday Mine. You
know it is a good mine and will make
money for the stockholders. Bankers,
Brokers, Doctors, Attorneys, Merchants,
Mechanics, and others have invested in the
Friday Mine. They have found, after in-
vestigating, both as to the value of the
Friday and the honesty and integrity of its
Directors and Management, that it is a le-
gitimate and high class investment. We
can send you a prospectus showing the
conditions of the Friday Mine, the amount
of ore in sight; the cost of mining and
milling the same, etc. It will convince
you that we are offering stock in a
proven mine, not a prospect. ❖ ❖ ❖

**Buy now while you can get
it at Fifteen Cents per share**
