LATEST STRIKE IN THE GOLCONDA

Six Feet of \$150 Ore Encountered in the 100-Foot Level.

J. A. Howard came in from the Golconda this forenoon and confirms the report which he telephoned in yesterday regarding the latest strike in that property.

It was encountered while drifting on the 100-foot level, at a point about in line with the dip of the ore shoot carrying the marvelously high values that have made this mine famous throughout the world, a veritable realization of what its name implies.

When first found Monday night there was only a few inches of the ore, that assayed \$704. After twenty-four hours work it has widened out to full six feet, with gold values clear across the face of \$150. Mr. Howard says that there is every indication that there is a large body of this ore, and if so it will be the most valuable strike ever made in the mine; notwithstanding the fact that on the next lower level rock carrying \$50,000 has been mined.

The ore now being taken out will be sacked.

Check Swindler Makes Good Wages.

A smooth check swindler arrived in Sumpter Saturday forenoon and left Sunday afternoon with several hundred dollars secured on fraudulent checks. He opened a small account with one of the banks, on a forged check having the signature of Service-Wright Lumber company, of McEwen. He succeeded in getting four of these, for sixty dollars each, cashed by different merchants. He also issued his own checks on the local bank. The returns are not all in yet, but enough to demonstrate that he made good wages. He went from here to Baker City and turned the trick there with equal neatness and dispatch. He registered at Hotel Sumpteras Dr. Clyde Courtney, New York. There a check was cashed for \$20, which was made good at the bank before the fraud was detected. The hotel is ahead a good grip and a new suit of clothes. Officers are endeavoring to locate the man and probably will, but no trace of him has yet been secured.
