

**TO THE INVESTIGATING PUBLIC**  
**NOTHING SUCCEEDS LIKE SUCCESS**  
**AND THIS IS FRIDAY NOV. 28, 1902**  
**SUPERSTITIONS REGARDING FRIDAY**

**N**ATIONS have for years popularly regarded FRIDAY with superstition, and have considered it an unlucky day upon which to begin an enterprise or to set forth upon a journey; to spill more or less salt upon a FRIDAY was considered an exceptionally bad omen.

**FRIDAY VANQUISHES SUPERSTITIONS**

Those old superstitions are now no more. They have been relegated to the regions of "Forgotten Lore" and sit crouched therein upon the "Stool of Impossibilities," and FRIDAY boldly, unhesitatingly lays claim to the proud distinction of being meritorious. It decrees, in glittering letters of golden hue, that "ye shall no longer regard me with superstition;" but let thereon enterprises be launched, let journeys be commenced, let salt be spilled, more not less, for in the more there's certainly more to spill. This much we do assure, and thus the statement

**NOTHING SUCCEEDS LIKE SUCCESS**  
 for on today we celebrate the High Festival of the Golden Friday and all FRIDAY Stockholders Rejoice. Rejoice? Yes, Rejoice! For today of all days good reasons exist for rejoicing. Today FRIDAY Stock has Advanced to

**25c. Per Share**

Today we start the New, and the Last Allotment of Stock of FRIDAY GOLD MINING COMPANY which will be offered to the investing public.

**PREVIOUS INVESTIGATION AND SUBSEQUENT SATISFACTION**

While the stock was being offered at 15 cents per share, Investors thoroughly and conscientiously examined our enterprise in all of its details—experted the mine—personally examined the books—satisfied themselves of the standing, ability and integrity of the FRIDAY officers and of ourselves—and found that

**CONTINUOUS DEVELOPMENT WORK**

was going on at the mine; that great bodies of high grade milling ore had been blocked out, ready for the mill; that THE MILL is nearing completion, and in a very short time will commence crushing the rich FRIDAY ore, so rich, indeed, that an average of 381 assays gave \$56.72 per ton in gold, and that in a very short time the stockholders will receive REGULAR MONTHLY DIVIDENDS. As a result of this investigation, all of the stock which was placed upon the market at 15 cents per share has been sold. New Allotment—We are now offering a limited amount of FRIDAY stock at

**25c PER SHARE 25c**

for the purpose of completing the mill and enlarging the accommodations at the mine.

**REASONS WHY YOU SHOULD INVEST IN THE FRIDAY MINE NOW**

- 1 Friday stock has demonstrated its ability to advance in price rapidly.
- 2 The Friday Mine is thoroughly developed; not a mere prospect.
- 3 Until closed down on account of unfortunate litigation, which is now completely settled, the FRIDAY was a constant dividend payer.
- 4 Large ore bodies which will net to the company Thousands of Dollars for the first few months are now blocked out ready for the mill.
- 5 As soon as the mill is completed you will draw your regular monthly dividends.
- 6 The Friday Gold Mining Company is safe and conservative, and its Mine is certain.
- 7 We are only soliciting your money for the purpose of COMPLETING the MILL, to work the ore bodies NOW in the MINE.
- 8 The company is officered by men of well known business ability, mining experience and strict integrity.

**INVESTIGATE AND SATISFY YOURSELF**

We court the fullest investigation of the FRIDAY MINE and of ourselves, and we want each one to thoroughly satisfy himself before investing.

WE ARE PLEASED AT ALL TIMES TO FURNISH FULL INFORMATION
