READ AND BE CONVINCED

We have the finest proposition for development open today in the rich Sumpter District, and that means the finest anywhere. 

We have the same showing the big mines alongside of us had. 

The last property is on the Cracker Eagle vein. We are 1,000 feet from the famous Mother Lode Vein, which has yielded millions, and is just getting down to business. Our surface showing is equal to that of the big mines; we can't miss those monster shoots.
