

WE WISH TO EXTEND NEW YEAR GREETINGS TO OUR MANY PATRONS

We appreciate the Confidence that has been reposed in us and desire Each Year to be a Happy year because of the Investments that our Host of Friends may see fit to Make with us. That this may be the Happiest and Most Memorable Year of all, We Urge Upon Your Immediate Attention Our Offer of

CRACKER EAGLE STOCK

We feel confident that an Investment in this Stock will bring much Cheer to the Family Hearthstone in coming years and will help to make it Light at Eventide.

THE CRACKER EAGLE is the most popular stock offered to-day in the Sumpter Gold Fields. Everyone who has inquired into its merits has been impressed with its Exceptional Character and has secured for himself a portion of its holdings. There is nothing strange and inexplicable in all this. An investigation simply results in an Investment.

THE CRACKER EAGLE measures up to all the requirements that the conservative investor wishes embodied in a Mining Proposition. Its ore body has been proven for almost One Mile in length. The width on the surface is 30 feet, and in the crosscut now being driven at a depth of 100 feet has widened to 80 feet, with the further wall still veiled. This gives an ore body that cannot be exhausted in a century. The Gold values are good and increase with depth. The largest producers in the district, with a combined capacity of 100 stamps, are its immediate neighbors. It is located in one of the richest mining zones in Eastern Oregon. We cannot tell you all about it in this limited space. If it is possible, come and visit the property and satisfy yourself. Send for our book that is full of information and beautiful cuts of the property.

We are sorry to have to tell you that the stock has again advanced in price and cannot be had for less than Twenty Cents per share. Now, we did all we could to persuade you to buy before at the former price. AGAIN let us urge you to buy before another advance. Cracker Eagle will go to a dollar this year if the present showing and the opinions of mining men count for aught.
