

YOU MAY NOT BE SUFFICIENTLY VERSED IN THE SCIENCE OF MINING

To know and appreciate the Meaning and Intrinsic Value of Bold Outcrops on a Mining Property. Nature seems anxious to reveal her Storehouses of Wealth, and takes pride in pointing man to her hidden vaults. Mammoth vein croppings are, therefore, welcome monuments, and are regarded as Nature's index to untold Treasure. ❀ ❀ ❀

On the Mother Lode Vein System, of the Cracker Creek District, the most conspicuous object in the landscape is the Bold Quartz Croppings, that stand guard over Nature's rich deposits. By driving under its immense croppings the North Pole opened a Treasure Vault of Fabulous Riches which has enhanced its value into the Millions. Other examples might be cited in this and other districts. ❀ ❀ ❀

We are now driving a tunnel under the large croppings on our property, and are opening an Immense and Valuable Ore Body. At present the Great Fissure Ledge has been Crosscut for a distance of 200 Feet and the Footwall has not yet been reached. Twenty Feet of Good Milling Ore has already been passed through, and the Breast of the Tunnel is in a Splendid Body of Quartz. We have a Superb Proposition. With further development we expect to open a Rich Ore Chamber under these croppings. We feel confident that we are Opening a Great Gold Mine. ❀ ❀ ❀ ❀ ❀

The Last of the Allotment of 100,000 Shares is now being sold for
TWENTY CENTS PER SHARE.

Unless the Directors decide to place another block upon the market this will be your last opportunity to obtain ❀ ❀ ❀

CRACKER EAGLE STOCK

If you desire any of this stock, wire your order at once. Be quick in your movements. If the block is exhausted before the order arrives the money will be refunded.
