TALK OF THE TOWN.

A. Hansen Carlrud went to Baker City on Monday.

Guy L. Lindsay, merchant and banker of Granite, was in Sumpter today.

Dell S. Lashier, a Portland traveling man, is taking in the sights of Sumpter.

Wait Wade, a Granite mining man, was in Sumpter on business yesterday.

Thomas S. Kennerly of the Gold Coin mines, is spending several days in Baker City.

Tonight the regular monthly meeting of the Sumpter fire department takes place.

E. J. Godfrey, of the Red Boy mine, paid that property his monthly visit during the week.

Roy H. Miller, cashier of the First Bank of Sumpter, left this afternoon for a trip to Portland.

W. H. Kleinfelter, of Baker City, has been visiting in Sumpter and vicinity for several days past.

Menne Unzieker, a mining and machinery man of Baker City, came up from below yesterday.

J. W. Carr, manager of the Quebec mine, on the mountain of that name, was in Sumpter yesterday.

A petition is being circulated asking the mayor and city council to close the dance hall run by John Arthur.

Mr. and Mrs. T. M. Lavin returned this morning from Hoquiam, where they have been visiting friends for several weeks.

A. B. Browne is now surveying the Snow Creek mines in the Greenhorns, and is expected home today or tomorrow.

P. A. McPhee, Mayor of Alamo, came in from his home town this morning and will remain a couple of days in Sumpter.

Miss Onie David, sister of Mrs. F. E. Hobson, arrived from Oregon City on Monday, and will remain in Sumpter for an indefinite time.

A. J. Trimble returned last week from an extended eastern trip. He states that his visit was purely for pleasure and had nothing to do with mining deals.

Dr. W. H. Vose's wife and children have arrived and taken up a permanent residence in Sumpter. They have leased one of the Fedrowe cottages on Columbia street.

For the month of January, the city received more money for liquor licenses than for the same period since incorporation. The amount in excess of any other month was \$125.

Roy Snyder, of Buffalo, New York, has arrived in Sumpter where he will assist in installing the machinery in the smelter building, and will probably be chief engineer at the works.

Burks & Davidson, stenographers, have moved from the second tier of offices in the Hotel Sumpter into the rooms formerly occupied by the Oregon Smelting and Refining company, on the ground floor.

Mrs. Jennie Dyer, of Portland, arrived in Sumpter on Sunday. She came

here for the purpose of taking a position as stenographer and typewriter with Burks & Davidson and commenced with her duties on Monday.

Several of the stockholders of the Alamo mine, accompanied by two experts, passed through Sumpter today enroute to the mine. It is presumed they will decide on the erection of a milling plant during this visit.

House Bill number 220, the much discussed Robbins mining bill, which is now before the state legislature, was read the first and second times on January 26, and is now before that honorable body for discussion, amendments etc.

J. J. Murray, late of Ellensburg, Washington, a graduate of the American Veterinary College of New York City, has established himself in Sumpter, and hereafter will be found at Thos. McEwen's livery stable and stage office on Center street.

The change from the First Bank of Sumpter to the First National bank was not made the first of this week as announced on an account of the pass books and other stationery failing to arrive on time. The First National will not commence business until March 2, when everything will undoubtedly be in readiness.

Alamo is now a full fledged city according to law, and although within less than a mile of working mines, whiskey can be sold by the glass. At the first election P. A. McPhee, was elected Mayor; L. Steinmetzer, recorder; and Fred Phelps, treasurer. The names of the persons composing the council are: G. P. Leavitt, J. P. McGuigan, Peter McCubbin, Malcolm Monroe and H. A. Stewart.

Advance in Photography.
Even geology is being advanced by photography, the pictures being important not only in instruction but as records for noting changes. A public museum of photographs of geological features was suggested about four years ago and, acting on this idea, a committee of the British association has now accumulated in London a great collection of valuable material. A selected series of twenty-two of the photographs has been published to be followed soon by two other issues.
