

HIGHLAND STOCK

WILL BE ADVANCED IN PRICE

MAY 15th, 1903

Development at the Highland Mine Justifies an Advance in the Price of Stock. It is Much More Valuable Now Than When We Placed the First Allotment on the Market Some Two Months Ago.

CONSTANT DEVELOPMENT AND RESULTS

A crew of men have been kept constantly at work ever since we acquired this property and the Glasgow crosscut has now encountered and fully crosscut the ledge. In this crosscut we have opened up a body of ore sixteen feet in width carrying good commercial values.

In speaking of commercial values we mean ores which have a sufficient value to pay for the extraction, milling and all other incidental expenses thereto, with enough of a margin left over to pay good dividends to the stockholders.

This large body of ore was not in the nature of a surprise, we simply expected it, as the surface developments showed this same large body of ore, and there was no reason why it should not be encountered in this crosscut and at this depth.

FUTURE DEVELOPMENT

We are now turning to drift on the ledge to the west from the crosscut in order that we may open up the richer ores at a greater depth which are found on the surface throughout the Bannockburn claim.

This line of development, we believe, will prove very interesting to all who are interested, or may become interested, in the Highland mine as it will certainly open up ore bodies rich in quality and in large quantities.

It will demonstrate that the Highland will rank as one of the largest producers in the district.

From now on the development work will be comparatively easy and not very expensive, as we will be drifting along on the ledge where the ground is much easier to work than in the country rock which encases the vein.

Every month will show a large increase in our ore reserves.

FREE TRIP TO THE HIGHLAND

To any one who wishes to invest a reasonable sum of money in the Highland mine, we will pay all traveling expenses to and from the mine for the purpose of his making a personal examination.

In offering you a free trip to the Highland we feel that this is proof within itself of the value of this property as it stands to reason that if we did not have a good mine there and all that we claim for it we could not offer you such an inducement.

We would be only too glad to have each and every one who contemplates the investment of money in mines, come out and look over this property and the district in general. In offering to pay your expenses out here and back we feel that we are not running any risk whatsoever as we know positively that no one, no matter how great or conservative an expert or mining engineer he may be, could possibly, roughly speaking, "turn it down."

POOL YOUR INTERESTS

If you have not sufficient money yourself to justify you in coming to the Highland to look it over before investing, we would suggest that you and your friends make up a small pool and send one of your number out here to look over the Highland. In this way we believe you would get absolute information as to the value of the property you invest your money in, and you will also have an opportunity to learn all about the reputation, standing and ability of the directors of the Highland company.

OUR REFERENCE

We take pleasure in referring you to any Bank, Business Man, or Mining Man in our own community.

If you wish to secure any of this stock while it is selling at the low price you should send in your order as quick as possible. Those who have not all the money on hand to pay for as much stock as they wish to purchase may send us a portion of it and we will set the stock aside for you, and you can pay the balance later.

THE PRESENT PRICE OF STOCK IS SIX (6) CENTS PER SHARE

Notice

In case all the stock which we wish to sell you at this price should be sold before your order is received, we reserve the right to return you your money. ❦ ❦ ❦ ❦
