

How can we tell you about Eastern Oregon, if you do not write to us? You who have been interested in mining stocks in older camps know that your capital made more money for you in the first years of the camp's history than it has since, because you were able to get your holdings cheaper. Everything has a settled value there now and about all you can expect is a good interest on your investment.

Eastern Oregon is the best gold camp today in the world. It is making its first history now. We are the pioneer operators here, know the district thoroughly, are working properties in all parts of it, and are in position to give you the benefit of our experience.

We are much gratified at the great number of letters which we have received from the Miner's readers, but there are a good many yet who have not written to us. We want you to do this.

The stock in the Standard Consolidated Mines Company at 10 cents per share is the fastest selling stock we have ever handled, and we have handled a good many.

A great many are asking for samples of the gold-cobalt ore from this mine, and we have sent out an immense amount of it through the mails. We have plenty left however, and if you will write us mentioning the Miner, we will send you a sample too.

We are offering you in this stock two dollars for one. That ought to interest you. It would if we could talk with you personally, but you can find out just as well by writing us. Please do so to day.

**Address**

**Killen, Warner, Stewart Co.**

**Sumpter, Oregon.**

537 New York Life Bldg, New York. Herman Bldg, Milwaukee.
