VISITS VALLEY QUEEN.

Banker Goss Thinks This a Promising Property.

President A. P. Goss, of the Bank of Sumpter, spent Sunday at the Valley Queen mine. While Mr. Goss does not pose as a mining expert and attaches very little importance to his opinions relative to a proposition of this kind, yet he has no hesitancy in saying that this property looks mighty good to him. He says:

"I spent the day very pleasantly looking through the mine with Superintendent Gray, and while I do not speak from the standpoint of an experienced mining man, and my opinions in regard to such matters probably carry little weight, but I do not hesitate to say that the Valley Queen impress me as a very promising property. Indeed I look upon it as one of the coming mines of the

Cable Cove district."

Superintendent Gray is carrying out a well planned development policy and late reports from the property state that the main lead will doubtless be encountered in a short time.

TALK OF THE TOWN.

L. P. Ostlund left Monday for The Dalles to spend the summer there.

William Godfrey, of the Red Boy, was a business visitor in Sumpter this week.

Miss Carrie Spalding has accepted a place in the office of Neil J. Sorensen & Co.

Roy Waters and Zeb Ray, known to fame as champion double drillers, left Monday for Idaho.

Mrs. W. H. Heppe, who has been confined to her room for the past month, on account of sickness, is improving.

Mr. and Mrs. C. K. DeNeffe, who were recently married at Prosser,

Washington, returned last week from their wedding trip.

Claude W. Roe, of the Whitney Lumber company, operating at Lawton, spent several days in the city this week.

Mrs. W. B. Schwackhamer returned from Union last Sunday, where she has been visiting relatives for three weeks. She was accompanied home by Miss Mabel Eaton.

T. T. Restiegen and N. C. Peterson, of Grand Forks, North Dakota, were at the Highland this week to make an examination with a view to investment.

Mrs. R. W. Oakes and children, of Caldwell, Idaho, who have been visiting Rev. and Mrs. J. M. Wilder, left Monday to visit at Portland and Grant's Pass before returning home.

To MARR & DAVIDSON,
Sumpter, Oregon.

Gentlemen:—Please place my name upon your mailing list for regular copy of "Mining Topics," which tells all about the mines of Eastern Oregon and which you agree to send at no cost to me, whatever.

SWORN EVIDENCE

WE TOLD YOU POSITIVELY that the price of Gold Bug Stock would advance on July 15th. We have made our word good and it has advanced to 12 cents per share. Only a limited amount will be sacrificed at this price. Recent sales of stock, together with the showing at the mine, warrants this conclusion.

THE GOLD BUG MINE IS NO LONGER AN EXPERIMENT.

WE DESIRE TO STATE that we are practical mining men, are right here on the ground, and have watched the progress of development of the GOLD BUG MINE from the time that the first "location work" was done. Therefore we are in position to know all the facts about this mine.

NOTICE THE FOLLOWING: We have opened out one of the prettiest and richest SHOOTs OF ORE that one could wish to see. For over 200 feet there is not a break in the ore nor a blank in the values in the ore. We began the drift in rich ore and the face of the drift shows the best ore encountered. This ore shoot opens up on the surface for over 600 feet, and we have demonstrated that the vein widens and the values grow richer with depth. The values in this FREE MILLING ORE run from \$30 to \$1,700 per ton in GOLD. Many samples run up into the thousands, and much of the ore shows free gold to the naked eye. But this ore shoot is only a small part of the GOLD BUG MINE. The management is composed of experienced mining men who have made a success of their other mines, and the circumstances were not as favorable as they are at this time.

TO ANY ONE WHO DESIRES TO VISIT THIS MINE WE MAKE THE FOLLOWING OFFER:

If, after you have thoroughly inspected it, you are not able to duplicate the values as stated or find any misrepresentations whatever about this mine, we will pay all expenses of the trip. Pool your interests and send a representative, for we mean exactly what we say. We want you to see this mine. We want you to see what has been done and what is being done. We Want You to See and Handle the Ore and See the Gold in it With Your Own Eyes. We INSIST on your investigating this proposition, because, if you do not, it is not fair to us, to the mine or to yourself. If this mine is just as represented you will know that we are offering you an exceptional investment. If it is not, we will take the blame and you are out nothing for your trouble. We invite visitors because every VISITOR means an INVESTOR. This has been true without exception. We have published several reports from visitors who are now investors. We have agreed to raise a certain amount of money for the further development and equipment of this mine, and we are going to make our word good. If you can not come and see this mine for yourself you can send for our large, illustrated prospectus and a sample of this rich ore (which you can have tested for your own satisfaction). If you are not then satisfied you can have a block of the stock reserved for a reasonable time until you make further investigations, unless the present allotment is over subscribed in the mean time. There is a very brisk movement in this stock, so take our advice and write or wire TODAY. It will mean a great deal to you no matter whether you are a poor man or a capitalist.

THE GOLD BUG MINE IS FAR PAST THE EXPERIMENTAL STAGE.
ONLY A LIMITED AMOUNT IS OFFERED AT 12 CENTS PER SHARE
