DATES CONFLICT.

State Meeting Called for Same Day as Mining Congress.

Max Shillock, secretary of the Portland Board of Trade, is sending out letters to the press of the state asking that as much publicity as possible be given to the meeting called September 7 in that city for the purpose of organizing a permanent state mining men's association. While the object of this meeting is indeed a worthy one, and much good will doubtless result from such an organization, the date selected was unfortunate, inasmuch as it conflicts with the one chosen for the meeting of the American Mining Congress at Deadwood and Lead, South Dakota.

It has been suggested, and the suggestion seems eminently in place, that the Oregon mining men instead of running in opposition to the American Mining Congress, get together and send a big delegation to the national body, and later hold a state meeting and organize an auxiliary association. It is not too late to change the date of the state meeting and this would seem the proper thing to do.

Dismal Dist.

An exchange says that the citizens of Olinghouse Canyon, in the state of Nevada, have been having great trouble with their chickens, which have been

dying suddenly in great numbers. An examination of some of the dead chickens develops the fact that they have been picking up gold nuggets to such an extent that they overloaded their gizzards and the weight of the gold broke the chickens' backs.

Encountered a Sea Lion.

Mr. and Mrs. E. A. Case returned Sunday from an outing of several days at Long Beach, on the Washington coast. Mr. Case says he had the time of his life. He spent most of the time toying with the waves of the briny. Once he encountered a sea lion at depth and pursued it for eight or ten miles into the tumbling main, but failed to land the animal.

Well Pleased With District.

Colonel J. B. Frank, a prominent mining man of Denver, formerly connected with the McArthur-Forrest cyanide works, in company with Engineer A. B. Browne, of Sumpter, visited the various Cracker Creek properties this week. Colonel Frank is very favorably impressed with the district and states that he will in all probability locate here permanently. He left yesterday for Denver.

Born.

To Mr. and Mrs. H. W. B. Smith, of Baker City, yesterday morning, a girl. Mr. Smith is well known in this city, being the main owner of the Cracker-Summit.

Shoes of all kinds at Neill Mercantile company's.

WILL INCREASE PLANT

Black Eagle Mill to Be Enlarged at Early Date.

James F. Meikle, superintendent of the Black Eagle, in the Malheur district, accompanied by his wife and family spent several days in the city last week. A cam shaft was broken at the mill recently, occasioning some delay. Mr. Meikle states that he will have fifteen of the twenty stamps running on his return.

The Black Eagle has made an exceptional milling record. The ore is mined and milled at a total cost of sixty-eight cents a ton. While it is a low grade proposition, with large bodies in sight from which the ore can be literally quarried, some of the values run exceptionally high, Superintendent Meikle states.

Owing to the immensity of the ore and the cheapness with which it can be worked, the company will probably largely increase the number of its stamps in the near future.

Ice Cream! Ice Cream!

On, and each day after May 1st the renowned Hazelwood Ice Cream and Ice Cream Soda will be had at Sturgill's. 10 cents a dish, 25 cents per pint.

Use Giant Powder, Fuse and Caps.

MINING AND INDUSTRIAL INVESTMENTS

Books are now open for subscriptions to the Pacific Lumber and Live Stock Company, an industrial of unusual merit. Look into it.

A group of mines with 600 feet of development work done, demonstrating value will be sold as a whole or will sell one-half interest and work the property in connection with purchaser. Best chance in the district.
