

MANY VISITORS.

Large Parties In The District To Invest In Properties.

H. L. Stewart, of New York, vice-president of the Killen, Warner, Stewart company, and Charles H. Sieg, a director in the company, accompanied by a large party of Eastern investors, arrived in the city last week.

Many of these people were already interested in Killen Warner Stewart properties, and others come to investigate and invest if conditions were found favorable.

It might be remarked in this connection that there have been more visitors in the district at the instance of the various mining firms within the past week or two than at any time this season, and it is to be doubted if there ever has been a time in the history of the camp when investments were so lively.

PLENTY OF MONEY.

Directors of Smelter Company Materially Increase Reserve For Ore Supplies.

According to a recent arrangement made by Dr. Ed W. Mueller, manager of the Oregon Smelting & Refining company, the maximum charges for ore treatment, regardless of the character of the ore, will be \$13.50 and the minimum charge will be \$6.

President Lindsey and the directors of the company visited the plant this week and were highly pleased with its management.

The Mining World says that the production of gold in all the world for the year 1901 was 12,812,000 ounces of a value \$264,000,000.

of Cripple Creek, Colorado, are a close second, while the Con. Mercur of Utah and Alaska Treadwell follow.
