

HAVE YOUR EYES OPEN

To Your Best and Largest Interests. Why Should We Find it Necessary to Say This? For This Reason: If You Have Not Invested in Our Proposition, Your Eyes Are Only Partly Open to Your Largest Interests. We Can Not Too Strongly Emphasize the Merits of the Property of the

Standard Consolidated Mines Co.

EVERYONE who has examined it, from Mining Expert to the Careful Investor, has declared that we have been too conservative in our representations. Men familiar with the great properties of the famous Cripple Creek gold camp have grown enthusiastic over the present status and the future possibilities of the STANDARD. We do not have to blow our own trumpet. The mine speaks for itself. We are willing to let others proclaim its praises. In fact we would rather have you examine the three consolidated mines and satisfy yourself. Let us send you the opinions of able men, both from at home and abroad, with respect to the STANDARD as an investment. We have a veritable mountain of gold, cobalt, copper, platinum and silver. We will soon have a million dollar ore reserve created. The next event will be the erection of a large concentrator. The crowning event will be dividends, which are sure to follow. ❀ ❀ ❀ ❀

The Price of Stock Advanced to Fifteen Cents on August 1. Do You Want to Know All About the property and Management? Write Us. Address
