**BANNOCKBURN SHOOT**

**Formation Indicates That Ore Body Is Near.**

Otto Herlocker, general manager of the Highland, was in from the property yesterday and reports a four-foot breast of greenish colored quartz, somewhat mineralized, in the Bannockburn drift. He thinks he is breaking into the Bannockburn shoot, and will probably know definitely within the next ten days.

When Mr. Herlocker left for the mine he was accompanied by C. L. Kinney, of Uhrichville, Ohio, who went to investigate the Highland with a view to investment.

**WILL GO BACK TO IOWA.**

**Dr. Heppe Will Again Take Up the Ministerial Work.**

Dr. W. H. Heppe, who has been connected for some time with the Killen Warner Stewart company as editor of the Eastern Oregon Gold Fields, will preach Sunday morning for the last time at the Methodist church. His theme will be, "The World Constructive and Transforming Power." In the evening a sacred concert will be given at the church.

Dr. Heppe and family will leave for Iowa about the middle of September, where he will again engage in ministerial work. While his stay here was to regain health and strength through a change of work after a long period of ministerial services, he has been active in lending aid to the local church, and has responded to numerous calls to deliver addresses on popular occasions. His stay has improved him much in health and he feels that he should return to his chosen work. He is still a member of the Iowa conference, where he has several appointments in view.

**Died of Typhoid Fever.**

George L. Edwards, a carpenter at the Golconda, died this morning of typhoid fever. The deceased was thirty-four years old, and leaves a wife and two children. The remains will be buried Friday at Baker City under the auspices of the Masons.
