

EASTERN OFFICERS HIGHLY PLEASED. Arrangements Made For Continuous Work at Lucy Group.

At a recent directors' meeting of the Greenhorn Gold Mines and Development company, operating the Lucy group, in the Greenhorn district, held at Greenhorn City, Ed Sullivan was appointed superintendent and arrangements made for continuous development work. Charles Scholl and Moses P. Keogh, of Milwaukee, secretary and treasury, respectively, of the company, were present at the meeting. They visited the property and expressed themselves highly pleased with its prospects. Accompanied by Sam R. Stott, president of the company, Morris Sullivan, vice president, and Ed Sullivan, superintendent, they came back from Greenhorn last week and returned to Milwaukee.

In an interview these gentlemen state: "We made a thorough inspection of the Lucy and are thoroughly satisfied with the showings. The cabins have been completed and we have two shifts of work on the ledge. There is no doubt but that we have the Morning lead. We are now drifting in good ore which assays from \$40 to \$50, and our policy is to push development work as rapidly as possible. We believe we have a gilt edged proposition which will early become one of the big producers of the Greenhorn district."

THE MONITOR BONDED.

Colonel Topping and W. E. Sanders Secure Claim Adjoining Oriole.

Colonel E. S. Topping and W. E. Sanders have taken a bond on the Monitor claim, adjoining the Oriole property, near Susanville, from Frank Couper, of the Morning, and Messrs. Haskell and Waterman, of Baker City. The Monitor is one full claim and a fraction and contains a continuation of the Oriole ledge. The acquisition of this property was necessary for the operation of the Oriole, and besides it is a valuable holding within itself. The two claims, however, can be worked in conjunction to a much greater advantage.

Colonel Topping states that active operations will be started in a few days, and that it is probable plans for the erection of a mill will be considered in a short time. Both claims have rich showings and will doubtless develop into a valuable property.

PREPARING FOR WINTER.

Continuous Work To Be Carried On At Valley Queen.

Superintendent Tom C. Gray, of the Valley Queen, is having timbers framed for the lower tunnel. He states that he now has in over 3,000 feet of lumber for building sheds over the tramway. He is also getting in winter supplies and continuous development work will be carried on at the property.

The Valley Queen is among the promising Cable Cove properties, and Mr. Gray's policy is to open it up as speedily as possible.

Prune Business Pays.

Walter H. Jory, a prominent prune grower of Salem, was in the city this

week investigating several mining propositions with a view to investment. Mr. Jory says that the prune business will net better results this year than ever before, and he thinks he will branch out and try his luck in mining securities.

GENERAL STEWART.

Vice President of Killen Warner Stewart Company's Military Career.

It is not generally known that H. L. Stewart, of New York, vice president of the Killen Warner Stewart company, who has been spending some time in the district looking after the company's mining interests, is entitled to be called General Stewart. The fact leaked out only the other day, and Mr. Stewart is now hailed as "general" by his Sumpter friends.

Here is the way, according to best accounts, he earned the title, though the general, who is naturally modest and reticent, has very little to say about the matter. A native of Maryland, he received his education in a military academy. When quite a young man he emigrated to Nevada. An adjutant was to be appointed on the governor's staff, and Mr. Stewart's military education, coupled with his martial bearing and splendid physique, marked him for the place.

JUSTICE AND CRACKER KING.

Both Properties Making Good Showings, Says Supt. Doyle.

J. M. Doyle, who has charge of the development work at the Justice, in the Wind creek basin, and the Cracker King, in the Cracker Creek district, states that he has opened a new tunnel on the former, well down the mountain from the upper workings on the vein. It shows one well defined wall with six inches of \$10 quartz in place. The tunnel is in only fifty feet. It will give a depth of 600 feet under the apex. Mr. Doyle thinks the Justice is going to become one of the first producers in the Wind creek basin.

At the Cracker King, which is owned by Seattle people, the drift tunnel, he states, is in 100 feet with twelve inches of ore which runs from \$10 to \$24 a ton. This property is located near the North Pole, E. & E. and Columbia, of the Cracker Creek district.

Shoes of all kinds at Neill Mercantile company's.

ELECTRIC METAL LOCATING COMPANY

Hereby Gives Notice:

That it is the exclusive owner in the United States of patents on what is known as the TERREOHMETER for locating metals in the earth by creating a ground circuit and measuring their depth.

We are informed the same is being used by a person or persons in or near Sumpter, and hereby give notice that such persons have no patent right to use the same and are infringers. And that we shall hold all persons using the same or procuring the same to be used on their property strictly responsible at law for the same.

ERNEST DALE OWEN, Prest.

EVERY INVESTOR SHOULD KNOW

That the West is the place to buy Western stocks, I don't care if it's Golconda, Red Boy, Cracker Jack, Cracker Oregon, or what it is--it stands to reason that I, being right in the heart of the Northwest Mining District, should be able to supply you with any stock desired. This business is done through my brokerage department, which, by the way, handles more stock than any other firm in the West. I want to place the name of every reader of this paper on my mailing list. A postal card will do, requesting my market letter regularly.

YOU HAVE READ

Of the development of the Victor Group, in the Cracker Creek District, in the recent issues of this paper. Same has been bought by a strong Eastern company, and the stock will shortly be put on the market by the

CRACKER CREEK GOLD MINES COMPANY

An elaborate prospectus is now in the hands of its printers. As soon as it is off the press you should receive a copy. Drop a postal to me today, and I'll mail you one in due course of time. I shall act as the Company's Fiscal Agent.
