

WISCONSINITES MAY BUY THE MORNING

Party of Wealthy Milwaukee Men Here to
Examine a Rich Greenhorn
Mine.

A party of wealthy Milwaukee men passed through Sumpter this morning en route to the Greenhorns. They will probably purchase the Morning mine. The party consisted of Charles Scholl, a Milwaukee broker; G. E. Bergland, William Knowles, U. M. Campbell and F. W. Morris. They are all officers and directors of the Lucy mine, near the Morning. Morris J. Sullivan, of Sumpter, was formerly owner of the Lucy. Accompanying the party were Mr. Sullivan and T. J. Simmons.

It is learned that the Milwaukee men, who have for some time been negotiating with the owners for a purchase of the Morning mine, have practically concluded the deal, and that their visit at this time is to effect a formal transfer.

Just what bearing the recently filed suit of T. W. Davidson against the Morning mine will have upon the pending sale of the property to the Milwaukee men is not known. It will be remembered that Davidson assumed a bond on the mine, complied with certain conditions and secured a sufficient fund to pay off all outstanding indebtedness against the property. This fund is on deposit in Sumpter, and a formal tender is said to have been by Davidson last month of the moneys due as a first payment on his bond. The owners of the mine refused to accept the tender or deliver the property. Grounds for their refusal have not been made public.

The Milwaukee people are expected to return to Sumpter about Tuesday, by which date a definite decision will probably have been reached by them regarding the purchase.

No one intimately connected with the Morning mine ownership is in Sumpter, so that information from an authoritative source as to why the Davidson bond was declared forfeited could not be secured.

THE FAMOUS OLD CAMP OF AUBURN

No new shaft will be sunk by the Auburn Deep Sinking company. Work will be continued on the drift at the 90-foot level in the old one.

Mayor McColloch, Councilman De Neffe, Joe E. Reed, Postmaster Frank Jewett, A. P. Goss and J. C. Davies, all of whom are officers and heavy stockholders in the company, except Mr. Davies, visited the property at Auburn Thursday and inspected the work. All of the members of the party returned with feelings of enthusiasm.

Councilman De Neffe said: "It's

as plain as the nose on your face that we are working in an immense basin, perhaps caused in prehistoric times by a big waterfall. On either side of the canyon the bedrock outcrops. In the middle of the basin our shaft has penetrated over 200 feet of wash, but has not yet passed through 'wetfoot' bedrock. If we sink deeper and find a gravel substratum lying between 'wetfoot' and true bedrock, there is every reason to believe that the deposit will be richly auriferous. Under the circumstances we have decided to sink deeper, and in the meantime we will continue drifting from the 90-foot level in search of a pay channel in the surface wash, the existence of which has been proven by prospect holes."
