

RED BOY SALE HAS BEEN CONFIRMED

Debts Have Been Liquidated and the Property Will Resume at an Early Day.

The Red Boy sale was confirmed Saturday by Judge Eakin of the Circuit Court of Baker county. The property goes to Alexander Prussing, of Chicago, for \$80,000, which has been paid in. Mr. Prussing is trustee for the stockholders' syndicate under the reorganization.

N. C. Richards, attorney for Receiver Thompson, came back yesterday from Baker where he was in conference with the reorganizers. Mr. Richards says checks to the creditors have already been issued and that the final report of the receiver will be presented tomorrow. These details and other minor matters will be settled, the receiver discharged, and it is understood the resumption of the property will take place at an early day.

The district generally rejoices, that there is to be an early resumption of this old and well known property. It means much, and mining circles are especially jubilant.

The Democrat regarding the matter says: The scene in the court room was impressive. Hon. C. A. Johns represented the plaintiff, Oscar Benson, J. J. Heilner represented the creditors on open

account; Hon. N. C. Richards represented Receiver John Thomsen, Hon. John L. Rand represented some of the syndicate stockholders, E. J. Godfrey, John G. English, leading stockholders and Receiver Thomsen, were present in person.

Attorney Richards read the receiver's report of claims allowed against the property amounting to about \$60,000 and asking that an order of court be entered approving the same and barring all other claims. The order was entered.

Mr. Richards then read the report of the receiver of the sale of the property for \$80,000 cash to Alexander Prussing, of Chicago, trustee of the stockholders purchasing committee, and asked for confirmation of the sale, there being sufficient funds to pay all debts against the property and the costs of the receivership. The order was entered.

When seen last night Mr. Prussing stated that the details of the reorganization and the new management of the property could not be given out until after the meeting of stockholders in Chicago this week.

He reiterated that a large operating fund had been provided.

PRESIDENT CAKE VISITS THE MOUNTAIN VIEW

Judge H. M. Cake, of Portland, president of Mountain View company, arrived this morning and went out to the mine at once. Judge Cake will spend about two weeks at the Mountain View, taking his summer vacation. This morning when he arrived he began making diligent inquiry about the fishing in the vicinity of the property. Incidentally, of course, the judge will look after the preliminary work relative to the construction of the new mill.

"We are going to push the plant to completion as rapidly as possible," said he. "We are getting the material on the ground as fast as we can, and the general construction work is to start at once."

The present intention of the company is to complete the mill within the next three months and have it in operation.

Work on Alpine Mill.

Dick Addoms, superintendent of the Alpine, returned this afternoon to the property. The Alpine people have started work on the erection of their twenty stamp mill and expect to have it finished at an early date. Laidlaw & Steadman have charge of the construction. The material and machinery are all on the ground and the work is to be pushed.

GOLGONDA EXTENSION TO START UP SOON

E. E. Miller, George Colwell, and C. H. Peterson, of Portland, officers in the Golconda company, arrived in town this morning, with L. V. Swigget, who is also a stockholder in the company, and left at once for the property.

As the name would indicate the mine is located in the Cracker Creek district. The officers are here to make arrangements to inaugurate work at an early date.

Big Mining Deal Pending.

W. J. Elmendorf, of Spokane, who has been in and around Sumpter for several days past, left for home this afternoon. He is consulting engineer for several of the big mines in British Columbia and is one of the most efficient men in his profession in the Northwest. He went to Spokane a year ago from Colorado, where he had been mining for a number of years. Mr. Elmendorf was here on some special mission, but declined to state what it was. From information received from other sources, The Miner is justified in stating that a mining deal of large proportions is pending, and will be "pulled down," or declared off within thirty days.
