

BOTH PAPERS AT THE PRICE OF ONE TO ALL NEW SUBSCRIBERS.

We want to get 250 new subscribers to our paper, and are going to do it if we can; we therefore have made arrangement with the Farm Journal by which we can send the AURORA BOREALIS for 1 year and the Farm Journal 5 years, both for \$1.00. All subscriptions must be one year in advance.

We know what our paper is, and the Farm Journal is a gem—practical, progressive—a clean, honest, useful paper—full of gumption, full of sunshine, with an immense circulation among the best people everywhere. You ought to take it.

The Democratic primary will be held on March 29, and from present indications there will be a lively contest. Two delegates are to be elected and it is reported that a tramp has been hired to stay in the neighborhood and be on hand at the primary so they can hold a meeting.

The Republican primary election in this precinct passed off very quietly Wednesday. The following delegates being elected. W. S. Hurst, A. H. Will, J. G. Miller, H. A. Snyder, H. Becke, Wm. Fry and I. Snyder. For road supervisor, A. H. Kraus, Henry Gerwig and R. L. Reed, the Democratic bosses, were on hand taking notes.

The Aurora barber shop will from this date be conducted under the names of Reed & Reed instead of R. L. Reed as heretofore, as Mr. Reed's better half presented him with a bouncing tonsorial artist on Tuesday of last week, which was kept on the dead quiet by Mr. Reed for fear the boys would demand the treats, this being his first born.

Mr. Watts of the Pacific Coast Library Co., of Portland, has succeeded in placing a library at Canby, Barlow, Hubbard and Butteville and also has due well under headway in this city. This is an excellent opportunity to get the use of 1080 good books for the small sum of \$3.50. All those who wish to take out a membership should see H. A. Snyder at once.

Who says so? Farm Journal says so, and if the Farm Journal says so, it is so. You must have it; so march up and subscribe for the AURORA BOREALIS for one year in advance. We have a clubbing arrangement by which we can send our paper for one year and the Farm Journal for near five years, the balance of course at the price of our paper alone. Subscribe and be happy.

The base ball game Sunday between the Hubbard and Canby nines attracted a large crowd of rubbernecks. The game throughout the nine innings was closely contested and was the most interesting one of the season. The score resulted in 15 to 16 in favor of Canby. There was a great deal of wind power wasted by both nines in coaching, which had a tendency to add life to the game. Hon. Geo. Stewart acted as peace maker and his decisions could not be changed.

G. W. Swope of Oregon City spoke to a large and appreciative audience in Pioneer hall last Saturday night on the principles of Republicanism. Mr. Swope is an able speaker and his address was appreciated by all who had the pleasure of hearing him. After the political address Mr. Townsend of Portland the most practical dairy and creamery man of the state, addressed the citizens and farmers of this section in regard to starting a creamery or cheese factory in this city. Mr. Townsend gave the farmers a practical common sense talk. He said that a creamery could not be started in a day, but that it took perseverance and time, and the best proposition that he could propose at the present time, would be to run a wagon in this section to gather up the cream and send it to the creamery at Salem, and in the course of time when the farmers in this section could furnish enough cream a plant could be erected at this place.

There have been poultry books printed costing fifteen dollars and more, but there never has been one at any price with more beautiful colored reproductions of poultry, than those found in Biggle Poultry Book, an announcement of which appears in another column. The paintings were made direct from best birds of the different breeds, and the coloring and characteristic shape of each breed are perfect. As for the text, there never was a book printed containing more practical, level-headed informa-

tion. Its chapters include, "Eggs for Hatching," "Hatching the Eggs," "Care of Chicks with Hens and Brooders," "The Successful Care of Incubator," "The Farmer's Flock," "The Village Henfery," chapters on "Breeds," on "Feeding and Marketing," and "Diseases and Remedies," with the old and new school methods of treatment. One man wrote the publisher that, "The mottoes alone at each chapter heading were worth the cost of the book." Twenty thousand copies of this admirable work have been printed. The price is 50 cents, free by mail; address the publishers, Witter Atkinson Co., Philadelphia.
