ROOSEVELT FACING A TEST

Cake is the Man for Senator

Nation Waits for Oregon's Verdict for or Against the President.

A great many Republicans are beginning to soberly ask themselves, 'Why should we elect Gov., Chamberlain to the United States Senate?'

And the echo is answering, 'Why, indeed!'

There is an overwhelming majority of Republicans in this State. In ordinary elections they have, and The Telegram believes wisely, looked to the men without reference to the party brand which they wore. In this way they have disciplined party and at the same time raised the standard of the local public service.

But in the matter of the election of a United States Senator they have presented to them a different problem. There they come in touch with the party of the Nation, the party of Roosevelt, of which they so warmly approve, and the verdict which they render the general public must accept as very largely the judgment of the voters of Oregon upon that administration. Our elections occur at an odd season of the year. We here fire the first gun of the Presidential election. The verdict is made up in advance, so far as the rest of the country is concerned. The Nation knows the State is overwhelmingly Republican. It likewise knows that the administration of President Roosevelt has received enthusiastic approval. That administration, disguise it as we will, is now on trial before the country.

By the general masses of people it has been warmly approved; by the corporate and plutocratic interests it is bitterly reviled, and, while little is being done openly, there is deep down a smouldering fire of resentment that cannot be extinguished. For the very reason the plutocratic forces of the country hate the president, the masses of the people admire and approve him.

If under such circumstances such as these it goes forth that the people of Oregon in June elect a Democrat for United States Senator, the administration receives a blow in the house of its supposed friends that it is conceivable may have a serious effect upon the plans of the friends of the administration and upon the great contest in November following. It must not be forgotten that much quiet work has been done in recent months against the administration. One may see the effect of it upon every hand in every community—the claquers busily engaged in hamstringing Roosevelt, and insidiously undermining the platform of principles which he had been steadily putting forth in his messages and speeches. If a well-known and supposedly safe administration State falls by the wayside in June, the prestige of the administration severely suffers and no man who honestly faces the question can see it otherwise.

From this standpoint, which is something more than a partisan standpoint, the matter appeals to The Telegram. It believes with heartiness and sincerity in the advanced platform of principles which the President is laying down, in the elimination of special privileges and the equality of opportunity for which the President stands, and to propagate and develop which he has done more than any other man of his generation. It considers this a matter of patriotism, rather than partisanship, and it proposes to do whatever lies in its power to uphold and sustain the man whose very name typifies these modern enlightened doctrines. In doing so, it believes it expresses the profound conviction of an enormous majority of the people of Oregon, irrespective of their party affiliations.
