

Libby's Food Products

Peerless Dried Beef

Unlike the ordinary dried beef—that sold in bulk—Libby's Peerless Dried Beef comes in a sealed glass jar in which it is packed the moment it is sliced into those delicious thin wafers.

None of the rich natural flavor or goodness escapes or dries out. It reaches you fresh and with all the nutrients retained.

Libby's Peerless Dried Beef is only one of a Great number of high-grade, ready to serve, pure food products that are prepared in Libby's Great White Kitchen.

Just try a package of any of these, such as Ox Tongue, Vienna Sausage, Pickles, Olives, etc., and see how delightfully different they are from others you have eaten.

Lasting.

"Your suggestion," said a depositor to the bank receiver, "offers very good comfort. It is a bachelor's comfort—that is to say, no comfort at all."

"What," said a bachelor to a benedict, "only married a year and already so blue?"

"Ah, but," grumbled the benedict, "I never imagined that a wife would prove so expensive."

"The bachelor patted the blue married man on the back in a consolatory way."

"Yes," he said, "a wife is an expensive article, that is true. But then you must remember that she lasts a very long time."

Mothers find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Good for the Nerves.

"John," said Mrs. Stubb, proudly, when her husband returned that evening, "here is a parrot I bought from a Brazilian sailor. Isn't it a good parrot?"

"No," snapped Mr. Stubb, in anticipation of interrupted slumbers, "that is not a good parrot."

"Not a good parrot? Why, John, what do you call a good parrot?"

"Why, a dead parrot, Maria."

Breaking It Gently.

"Ah, me good man," said the heavy tragedian, as he came out on the main line of the railroad, "how far is it from here to dear old Chicago?"

"Three pair of half soles and six pair of new heels," was the information of the gatekeeper, who was familiar with the ways of stranded Theatians.

Echoes of the Past.

William the Conqueror had just won the battle of Hastings.

"Well," he said, "I guess we may as well put up the sign, 'This Country Has Changed Hands!'"

Which, when you consider the fact that the country was under his heel, shows that William was lamentably careless and inexact in his rhetoric.—Chicago Tribune.

Followed Instructions.

"Do you know," said Cholly, "I never had played a game of golf in my life, and when I asked the old Scotchman what was the first thing for me to do he looked at me just like this and said, 'Hoot, mon!'"

"Then what did you do?"

"I hooted, of course."—Chicago Tribune.

Promising Outlook.

"It's a curious fact," observed the doctor, "that the Japanese are trying to increase their stature. They find that their bodies are long enough, and they are making a systematic effort now to increase the length of their legs."

"Yes," said the professor: "I see that the Mikado is pulling their legs for a bigger navy."—Chicago Tribune.

Temporary.

"You don't want me to come to see you any more?" exclaimed the young man, startled and indignant.

"No, Mr. Feathertop; not any more."

"Yet you let me kiss you a month ago, when you had known me only a few days!"

"You foolish fellow," said the pretty girl, "that kiss was only a—retainer."—Chicago Tribune.

NEWS ITEMS OF GENERAL INTEREST FROM THE STATE OF OREGON

TO PURIFY CAMPAIGN.

Corrupt Practices Act Restricts Candidates' Acts.

Salem.—The adoption of the corrupt practices act by the people at the election June 1 will make the next political campaign a vastly different one from those which have been seen in Oregon in the last few years.

For one thing, the advertising plan of making a campaign, which Senator Bourne made popular in Oregon, will be less extensively used in the future. Two features of the corrupt practices act will tend to accomplish this end—one a limitation on expenditures, and the other a requirement that paid advertising be so marked. Undoubtedly the measure will have a salutary effect in purifying elections, though some of its provisions seem unnecessarily severe.

Publicity in the matter of campaign expenditures is one of the most important requirements of the law, and hereafter it will be necessary for candidates and party managers to keep an account of all expenses and file it within 15 days after the primary or general election, showing contributions to campaign funds and the purposes for which all money was spent. Candidates are permitted to use one page of a pamphlet to be issued by the state for the purpose of giving the voters information concerning them, each candidate to pay for the space occupied, and in excess of that each candidate may spend in a primary campaign 15 per cent of one year's salary, and in a general campaign 10 per cent of one year's salary, though any candidate may spend as much as \$100 if the percentage should be less than that. A candidate for governor will hereafter be limited to an expenditure of \$750 in a primary campaign and \$500 in a general campaign.

WILL CEMENT CANAL.

Seepage Causes Washout on Umatilla Irrigation Ditch.

Pendleton.—A section of the main feed canal of the Umatilla irrigation project about 40 feet in length was washed out between Foster and Echo, the cause of the washout being seepage water, which has constantly drained through the porous soil at that point. The O. R. & N. track is within a few feet of the canal at that point, and the grade has been softened for about half a mile by the seepage. The government engineers have decided to cement a section of the canal there. It is estimated it will cost \$21,100 to complete the cement work necessary. Owing to the strong flow under the tracks, the company has kept track walkers constantly there for several months. All trains have run slowly over the place for some time. Costly repairs will be made on the O. R. & N. track. Water will be turned off the feed canal while the repairs are in progress.

CITIZENS TAKE INITIATIVE.

Plan Bonds to Raise Money to Improve Siuslaw Bar.

Eugene.—The citizens of the Siuslaw valley, on the coast of Lane county, are becoming tired waiting for the government to improve the bar at the mouth of the Siuslaw river so vessels can pass out or in without delay, and a plan is being discussed to raise funds for the undertaking in another way. It is proposed to bond that part of the county lying west of the Coast range of mountains for 30 or 40 years, and use the money thus raised in building jetties at the mouth of the river. It is thought by the promoters of the scheme that \$100,000 could be raised easily in this way, and that with this sum considerable start could be made toward constructing the jetty. It is hoped by the time this sum is expended the national government would be ready to take up the work and push it to completion. To meet the interest on the bonds each year, it is proposed to collect a toll of perhaps 25 cents per thousand feet on the lumber and a proportionate sum on other articles exported from the towns at the mouth of the river. Later a sinking fund could be raised in the same way to pay off the bonds when they become due. In this way the expense of building the jetty would be borne by the industries directly benefited by the work.

Posse Chases Horse-thieves.

Baker City.—In the country south of Huntington officers are chasing a band of horse-thieves, who have been practicing in Malheur county. It is claimed the thieves are headed for Baker county, with the probable hope of being able to reach a transcontinental railroad and get out of Oregon. In the last few weeks many reports have been received from Malheur county that the gang had been there some time ago and later pardoned by Governor Chamberlain has completed a new organization, and is operating in the same manner they were a few years ago, when the taxpayers of eastern Oregon spent much money and effort to capture them.

Coos Finds Oil.

Marshfield.—The stir over oil in Coos county, successfully held down for several weeks past, has reached the stage that facts cannot longer be kept from the public. Oil men have been here on investigating missions, and corporations and individuals have quietly been taking options for several weeks. Actual crude oil has been struck near Bandon, and gas has been encountered in many places. Around Coos Bay indications are sufficiently strong to warrant large options and extensive preparations for borings.

The Governor's View.

Salem.—"There seems to be no question of my election," said Governor Chamberlain, "and I am deeply grateful to the people for the high tribute which has been paid me. I attribute my election to the State-meat No. 1 issue more than anything else, considering the overwhelming Republican majority in the state, and had I been stuck to that principle as strongly after the election as he did before, he would have won out hands down."

Open Gates at Hermiston.

Pendleton.—With hundreds of enthusiastic excursionists in attendance and ideal weather prevailing, the head gates of the Umatilla irrigation project were thrown open at Hermiston last week. An excursion train of six coaches left this place, bearing a large number of representative business men and farmers, as well as representatives from Milton, Freewater, Weston and Athena.

Monmouth Wants Freight Depot.

Salem.—The Oregon railroad commission has ordered that a hearing be had at Monmouth, June 15, at 1:30 P. M., on the question of a Southern Pacific freight depot.

Reject Dam Bids.

Klamath Falls.—The secretary of the interior has rejected the bids on the Clear lake dam, a part of the Klamath irrigation project, on account of the high figures, together with the fact that land owners in that section have still five per cent more land to sign up to bring the total up to the required 80 per cent. The two bids submitted were by Mahoney Bros., of San Francisco, \$115,770, and Maney Bros., of Winnemucca, \$188,980. The government may readvertise for bids, or do the work by force account.

Good Progress on Calapooia Line.

Brownsville.—The new railroad up the Calapooia river from Brownsville is being surveyed. Work on the line will commence soon. The line will run out from South Brownsville and thence east for about 20 miles to Crawfordsville and Holley. This will be of great advantage to the town. It will open up a vast timber belt said to be the finest in the state. The big dam across the river is about completed. Brownsville will soon have electric lights again.

Albany Will Retaliate.

Albany.—Because they believe the Southern Pacific railroad is seeking to retaliate in erecting a small and inexpensive depot to replace the present structure, following the action of the city council in securing an order from the state railroad commission for a new depot here, the merchants and heavy shippers have decided to combine and ship all their eastern freight orders over the Northern Pacific, or some other line not owned by the Harriman system.

Branco Bucking for Condon.

Condon.—Condon will celebrate the Fourth of July in old-fashioned style, and a committee was appointed to solicit funds for the carrying on of the festivities. It is planned to hold a market day in connection with the celebration, just as has been held in Pendleton and The Dalles. Broncho-bucking contests and husband will form a part of the programme, while a number of carnival features will also be added.

Young Chosen at Milton.

Milton.—J. E. Young, recently principal of Moore's school, in this valley has been appointed principal of the Milton school. The directors had previously engaged R. J. Davies, but this week he notified the trustees of his refusal of the position. Mr. Davies will teach at Nyasse, Ore.

Rather Like a Reflection.

An unfortunate author writes to the London Westminster Gazette: "Prof. Chandler, I understand, has just written a book on the literature of rognery. In a letter accompanying the prospectus of the work the publisher writes to me as follows: 'We think you may be interested to know that reference is made to your name in these columns.' I do not object, but I think it might have been put differently."

Art and Specializing.

Why should an artist who has painted portraits for years be denied talent as a landscape painter? There is no reason for it. We have grown to mistake speciality for personality, and the artist who has made his name as a painter of cats will have to paint cats all his life.—Kunst, Munich.

Things to Avoid.

Eastern Tourist—This climate is very healthy, isn't it?
Westerner—Oh, yes.
Eastern Tourist—What are the things to avoid out here if one wishes to keep in perfect health?
Westerner—Bullets, knives and rope.

Comparing Notes.

Mrs. Skimpem—My boarders always pay promptly.
Mrs. Fillem—Mine do for a few weeks after they come, but it doesn't last long.
Mrs. Skimpem—Why not?
Mrs. Fillem—They get so fat they can't get their hands in their pockets.

His True Vocation.

"You are wasting your time painting pictures."
 "But I sell my pictures," protested the artist.
 "And that convinces me that you can sell anything. Such being the case, why not take up life insurance, or steel bridges, or something with big money in it?"—Home Herald.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance in nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. Outraged.

"Pardon me, old man," began the veteran boarder, "but we don't want to lose you, and I just want to warn you that you'd better begin to pay something on your board."
 "Why?" asked the new boarder.
 "Well, I noticed that Mrs. Starvem was dangerously polite to you this morning."—Philadelphia Press.

S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.
