

My Hair is Scraggly

Do you like it? Then why be contented with it? Have to be? Oh, no! Just put on Ayer's Hair Vigor and have long, thick hair; soft, even hair; beautiful hair, without a single gray line in it. Have a little pride. Keep young just as long as you can.

"I am fifty-seven years old, and until recently my hair was very gray. But in a few weeks Ayer's Hair Vigor restored the natural color to my hair, and now there is not a gray hair to be seen."—J. W. HANSON, Boulder Creek, Cal.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of **SARSAPARILLA, PILLS, CHERRY PECTORAL.**

The Bucket Shopper.
At the "open board," in golden grain, He plunged with his little might and main—
And now he is making frequent "calls" At the shop with the sign of the golden balls.

Cure for Soreness.
A cure for soreness, which a German doctor says he has discovered, consists in the sufferer lying on his back and having handkerchiefs soaked in hot water twisted very tightly around his forehead.

Libby's Food Products

Libby's Sweet Mixed Pickles
That firm, crisp quality and delicious flavor is what you get when you insist on Libby's Mixed Pickles at your dealers. They are always the finest and never disappoint. It's the same with Libby's Sweet Cherkins and Sweet Midgets. Ask for them.

Libby's Olives
The cultivation of centuries marks the olive groves of Spain as the world's best. Libby's Olives are imported from the oldest and most famous of these groves. The result is a rare product, delightfully appetizing. Try one bottle and you'll buy more and never be without them.

Libby's Preserves
Pure, ripe fruit and pure sugar in equal parts, cooked just right and timed to the second, in Libby's Great White Kitchen, is the secret of the extreme superiority of Libby's Preserves. There's none as good as any price. Grocers and delicatessen stores carry all of Libby's Food Products. They are warranted the best to both you and the dealer.

Write for free booklet—How to Make Good Things to Eat. Inside or Libby's at your dealer's. Libby, McNeill & Libby, Chicago.

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, Imitations and "Just-as-good" are but Experiments, and endanger the health of Children—Experience against Experiment.

What is CASTORIA
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought Bears the Signature of **Chas. H. Fletcher** In Use For Over 30 Years.

NEWS NOTES GATHERED FROM VARIOUS PARTS OF OREGON

REGENTS GET BUSY.

New Buildings, New Books and New Teachers Ground Out.

University of Oregon, Eugene—At the last meeting of the board of regents a frame building to contain six or eight rooms, at a cost of \$5,000, was authorized to be built on nine lots just purchased in Fairmount. It will be used after this year for a shop.

President Campbell was ordered to go East immediately to select a professor in geology, assistant in economics, assistant in civil engineering, assistant in psychology and a librarian.

The following new members of the faculty were elected:
L. R. Alderman, professor of education, salary, \$1,800; Dr. Hugo Koehler, German, salary \$1,000; Mrs. Ella Pennel, assistant in English and assistant dean of women; Dr. R. C. Clark, assistant in history; Haines Curry, instructor in chemistry; Mozelle Hair, assistant instructor in English literature; Mabel Cooper and Miriam Van Waters, assistants in the correspondence school.

The board ordered \$10,000 worth of books for the library; the Mary Spill home for girls to be finished and furnished and the library building furnished. The matter of authorizing an assistant in public speaking was deferred to some future time.

Open Bids at Klamath.

Klamath Falls—Bids were opened recently for extension of the South Branch canal of the Klamath project. This work comprises seven miles of main canal, which will connect the present canal with the Adams ditch in the vicinity of Merrill. Two bids were received for the entire contract, and other bids were received on schedule covering portions of the work. The board of engineers will decide upon awarding the contract in a few days. All of the bidders are prepared to rush work as soon as the contract is let, and in all probability water for the Adams system will be carried through the main canal next year.

Homesteaders Ruled Off.

Klamath Falls—Decisions have been handed down by the United States land office at Lakeview, in reference to several contest cases between homesteaders and those placing timber and stone filings. In each case the homesteaders have lost. In the case of O. B. Newton vs. Nell Boyd-Yaden, homesteader entry was refused, on account of the land being heavily timbered and residence not maintained. In this case filing had been made five years ago, and the land had been lived upon by claimant and commutation made, but the patent had never been issued.

Railroad Accidents in June.

Salem—According to reports received at the office of the railroad commission at Salem, four persons were killed by the railroads during the month of June in this state. No passengers or employees were in the number. Thirteen passengers were injured, one trainman, one yardman, two other employees, and one other person. One passenger train was derailed, two freight trains were derailed. There was one collision between passenger train and one collision between a passenger train and a freight train. The summary of accidents for June is comparatively low.

Teachers' Institute Dates.

Salem—The following dates for annual teachers' institutes have been set: Coos county, Myrtle Point, August 18, 19, 20 and 21; Wallowa county, Enterprise, August 26, 27 and 28; Wasco county, The Dalles, October 6, 7 and 8; Columbia county, Rainier, October 6, 7 and 8; Washington county, October 12, 13 and 14; Polk county, Dallas, October 14, 15 and 16; Klamath county, Klamath Falls, October 21, 22, 23 and 24.

Bandon Booklets Out Soon.

Bandon—The booklets and other literature ordered by the Bandon Commercial club will be ready for delivery about August 20. C. H. Warren, manager of the Warren Publicity company, of Portland, was asked to help raise the necessary funds. Mr. Warren and the committee succeeded in raising more than was needed and the Commercial club has decided to double the order to 10,000 booklets.

Rich Mineral in Curry.

Bandon—A mining expert, B. C. Merrill, who has been prospecting in Curry county, has gone to San Francisco, but will return about August 1 with a force of men to work on two veins of mineral, one of which he discovered himself. He says the mineral prospects of Curry county are extremely promising and he expects it to develop into a great mining country.

New Lumber Yards at Vale.

Vale—The Vale Lumber company has finished putting in lumber yards at this place. The company is composed of parties from Union, who have mills and enough timber to last them 50 years, at the present rate of cutting. It is a strong company and will be a valuable addition to Vale's business enterprises.

Bandon Starts Publicity Campaign.

Bandon—This city has raised a publicity fund and will exploit the rich resources of the Coquille river valley country—coal, timber, agricultural, etc.. The commercial body and other representative citizens donated liberally to the booster fund.

CAN'T SELL WORMY APPLES.

Fruit Inspector Will See That Laws Are Strictly Enforced.

Salem—County Fruit Inspector Armstrong states that the state law prohibiting the marketing of wormy and scaly apples, pears and other fruits, which was not enforced last year on account of the light yield of fruit in some sections, will be rigidly enforced this year.

The yield is abundant and there is no reason, declares the inspector, for any grower to bring bad fruit to market. Mr. Armstrong states that the movement will be state-wide, under the direction of the state horticulturist, W. K. Newell, of Portland, and the district commissioners.

SALEM FINDS NEW CHERRY.

Cross Between Bing and Lambert Attracts Attention.

Salem—Salem cherrygrowers are all agog over the discovery of a new variety that promises to be more valuable than any of the other stable kinds. The new cherry is known as the Kalich Giant. It is a cross between the Lambert and Bing and was originated by a man named Kalich at Woodlawn, Portland. It is larger than either the Bing or Lambert and in color is between the two. It is expected to prove very valuable on account of ripening after the other leading varieties have disappeared from the market.

A display of the new cherries in a store window created widespread interest here today.

Inventory Normal Property.

Salem—At a meeting of the executive committee of the normal school board of regents, Secretary C. L. Starr was authorized to go to Drain and take an inventory of the property there belonging to the state. This step was taken in order that the board of regents and legislature may know what is there belonging to the state and the exact situation. President A. L. Briggs has also given notice of his resignation. It is not known where Professor Briggs will go from the Drain school.

Will Drain Union Lands.

La Grande—The board of regents of the Oregon Agricultural college held a meeting at Union last week, and steps were taken to introduce scientific draining in this valley, where the lowlands are now worthless, due to excess of rainfall. Estimates will be invited on draining and tiling 100 acres located at the experiment farm, near Union, and will thus introduce into this valley the first attempt at draining wet lands on scientific plans.

May Rebuild Woolen Mill.

Albany—Jacobs Bros., owners of the Oregon City woolen mills, are considering a plan of rebuilding the old woolen mill plant in Albany. They were here recently inspecting the site of the old mill, which was destroyed by fire in 1904, and announced that they would rebuild the plant and establish a big mill here if local capital would take an interest in the enterprise.

PORTLAND MARKETS.

Wheat—Club, 86c; red Russian, 84c; bluestem, 88c; valley, 86c.

Wool—Eastern Oregon average best, 10@16c, according to shrinkage; valley, 15@15 1/2c; mohair, choice, 18@18 1/2c per pound.

S.S.S. DRIVES OUT BLOOD HUMORS

The skin is not simply an outer covering of the body, but through its thousands of pores and glands it performs the great and necessary work of regulating our temperatures, and also assists in disposing of the refuse and waste matters of the system by the constant evaporation that goes on through these little tubes. To perform these duties the tissues and fibres which connect and surround the pores and glands must be continually nourished by pure blood. When from any cause the circulation becomes infected with impurities and humors, it loses its strengthening powers and begins to disease and irritate the delicate tissues, and produces Eczema, Acne, Tetter, or some other itching, disfiguring skin trouble. S. S. S. cures skin diseases of every kind by going down into the circulation and neutralizing and removing the impurities and humors. It changes the quality of the blood from an acrid, fiery fluid to a cooling, health-producing stream, which, instead of irritating and inflaming the skin, cures and nourishes it by its soothing, healthful qualities. Salves, washes, lotions, etc., may be used for any temporary comfort or cleanliness they afford, but skin diseases cannot be cured until S. S. S. has purified the blood. Book on Skin Diseases and any medical advice sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Just a Billville Opinion.

"We are so fond of worry," says a Billville philosopher, "that if we ever reach paradise we'll worry about having to fly too high and wing too often. We once knew a man who spent his lifetime trying to find out what he had to worry about."—Atlanta Constitution.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Worse Still.

"My wife is getting to be very tiresome," complained Groucher, "she doesn't seem to know her own mind from one minute to the next."
"My wife," said Kratchett, "is the same way. She's as uncertain as the weather."
"Huh! Mine's as uncertain as the weather forecasts." — Philadelphia Press.

Must sell. Price for everything, \$2,500. Address

MRS. O. A. DEARING Room 419, Corbett Bldg., Portland, Ore

BORAX IN THE DAIRY

The problem of keeping sweet all the utensils used in connection with milk and cream selling and butter making has been a serious one with the farmer.

He has come to realize that the slightest taint or hint of acidness left in a can, tin or churn may ruin a whole output; that the taint that is left in form of bacteria which grow and multiply in milk or butter, producing disastrous results. The farmer has learned that hot water won't rise away the greasy residue in dairy utensils. He has learned that soap leaves a residue of its own which is, if anything, worse than the milk or cream residue, and there has been constant clamor for a dairy cleanser and sweetener that will meet modern requirements.

A few of the largest creamery establishments called experts into consultation on this problem, and these scientific aids decided unanimously upon a product of nature which exactly fits the bill—BORAX. Scientists have long known borax as a cleanser, a sweetener and an antiseptic destroyer of bacteria and germ growths that destroy all that is harmful, preserve freshness, sweetness and purity, and relieve the dairyman and dairy housewife of drudgery and of needless work and worry. Write Pacific Coast Borax Co., New York City, for "Successful Dairying," being valuable information on the most profitable selection of cows, their feeding and care, the handling of milk to yield the highest price product, and the protection and preservation of these products from deterioration; with article on diseases of cows, and recipes for their cure. The book is FREE. Local agents wanted. Write for money making plan and reliable.

St. Helen's Hall, Portland, Or. Resident and Day School for Girls. Catalogue on Request.

Mystery of Seedless Fruit.

Science so far has failed to furnish any explanation of the mystery of seedless fruits. They are not the outcome of the work of man. Man perpetuates them; he does no more. The seedless orange was found in a state of seedlessness.—Vegetarian.

Lack of Co-operation.

"I wish," said the revivalist, "Brother Grimshaw wasn't quite so strong on doctrinal points. As fast as I bring people into the church he tries to put them out of it for heresy."
