Aurora, Or., Thursday, Sept. 10, 1908

There is a sense of the inconsistent in the position of Mr. Debs, socialist candidate for president, who is touring the country in a special train at the expense of laboring men...

Mr. Harriman has promised that all railroad construction now under way in this state shall be completed, besides the building of a new line in Central Oregon...

In every state where the primary law has been introduced it means the end of the old regime. The machine politician has to step down and out while the advocate of reform methods steps into office...

The editor of this paper was the first to openly advocate the guarantee of bank deposits in this state. We do not advocate this as a political measure, but as a public expediency...

They Should Come West.

In his speech at Portland recently Judge Alton B. Parker declared that the West had no adequate idea of the suffering that followed the panic in the East last fall...

A Little Printer's Ink Makes Millions Think—Think—Think!

More truth than poetry. A little Printer's Ink prints a little advertisement in a little "magazine" that circulates at a little price and goes into a million little homes...

The millions of people in these homes are caused by the Printer's Ink to think that they can get big bargains for their money by sending it away by mail...

Sometimes when they receive the stuff they order by mail they have another Think coming. They think, "What fools we mortals be," and apply the Think to themselves.

"Wonder why Mister Man, our local dealer in many things we need, doesn't advertise these things in our local paper? Maybe if he did we wouldn't be tempted to send to the big city for these same things..."

Now, Mister Man, what do you think—think—think!

CONCLUSION: THERE'S PLENTY OF PRINTER'S INK IN THIS NEWSPAPER SHOP.

"Oregon," Builders

Are you doing what you can to populate your state?

OREGON NEEDS PEOPLE—Settlers, honest farmers, mechanics, merchants, clerks, people with brains, strong hands and a willing heart—capital or no capital.

Southern Pacific Co-Lines in Oregon

are sending tons of Oregon literature to the East for distribution through every available agency. Will you not help the good work of building Oregon by sending us the names and addresses of your friends who are likely to be interested in this state...

Table with 2 columns: City and Fare. From Denver \$30.00, From Louisville \$41.70, Omaha \$30.00, Cincinnati \$42.20, Kansas City \$30.00, Cleveland \$44.75, St. Louis \$35.00, New York \$55.00, Chicago \$38.00.

If you want to bring a friend or relative to Oregon, deposit the proper amount with any of our agents. The ticket will then be furnished by telegraph.

GEO. MILLER, Agt at Aurora; H. N. BROWN, Agt at Canby; Wm. McMURRAY, G. P. A., Portland, Oregon.

country where nature has given us a soil and climate that will produce everything that man's necessities require, we are safe from the sting of financial depression. We cannot realize the suffering that comes to our unfortunate brethren in the East at such a crisis...

Oregon has hundreds of thousands of acres of vacant lands that could be made to produce an abundance for 50 times our present population. People who come here with a desire and willingness to work need suffer no longer for the necessities or comforts of life...

No matter what size building you want I can fix you out.

Satisfaction Guaranteed CANBY, OREGON

As a result of better mechanical handling and treatment with preservative solutions previous to being laid, wood blocks are now being used for pavement and with very satisfactory results. The first wood blocks laid some fifty years ago were left cylindrical as cut and were not treated, the result being that the edges soon broke or wore off and the blocks rotted. Those laid recently, cut in rectangular shape and given a preservative treatment, are giving the best of satisfaction, surpassing any paving material but granite or sandstone in point of durability. It costs laid per square yard from \$2.40 to \$3.50 as compared with \$3.50 for sandstone, \$3.26 for granite, \$2.30 for asphalt, \$2.06 for brick and 90 cents for macadam. Blocks of Australian eucalyptus in use on the street of London have lasted for fifteen years.

In the vicinity where the writer lives representatives of a foreign grocery house canvassed for supplies, and a bill of goods which one of their customers bought, which was later put on exhibition, contained several eye openers. One of these was the fact that the unsuspecting buyer had paid 98 cents per pound for a cheap tea that was not worth a cent more than 30. The same order included thirty pounds of soda at about the same price that it would sell for at the local grocery store, but there was enough of it to last for four or five years. The same bill of goods which the peddler asked \$41 for could have been bought on tick at the local grocery for \$32, and for \$27.50 if cash had been paid, as it was to the peddler. The experience which these buyers had would seem to suggest the wisdom of at least giving the home merchant an opportunity to bid on a bill of goods before it is given to the representative of the foreign house.

In response to a query as to how to treat seed potatoes to prevent development of the scab we will give briefly the directions which have appeared in these columns in previous seasons. After cutting the potatoes in the sized pieces desired place them in a coarse gunny sack and suspend them for two hours in a solution made up at the rate of half a pint of formalin solution to fifteen gallons of water. After the seed has soaked the desired length of time the sack may be suspended above the barrel on a couple of sticks and the solution allowed to drain back. This treatment of the seed should be given a short time before planting, sufficient time should elapse, however, so that the seed may dry. Potatoes treated in the above manner and planted on what is known as clean ground--cleared and breaking or land that has not raised potatoes for a year or two--will produce an entirely scab free crop. The solution is good for use as long as it lasts if the barrel is covered between times.
