

**MY OWN FAMILY USE
PE-RU-NA.**

HON. GEORGE W. HONEY.
Hon. George W. Honey, National Chaplain U. V. U., ex-Chaplain Fourth Wisconsin Cavalry, ex-Treasurer State of Wisconsin, and ex-Quartermaster General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C., as follows:

"I cannot too highly recommend your preparation for the relief of catarrhal troubles in their various forms. Some members of my own family have used it with most gratifying results. When other remedies failed, Peruna proved most efficacious and I cheerfully certify to its curative excellence."

Mr. Fred L. Hebard, for nine years a leading photographer of Kansas City, Mo., located at the northeast corner of 11th and Grand Aves., cheerfully gives the following testimony: "It is a proven fact that Peruna will cure catarrh and grippe, and as a tonic it has no equal. Druggists have tried to make me take something else 'just as good,' but Peruna is good enough for me."

Pe-ru-na in Tablet Form.
For two years Dr. Hartman and his assistants have incessantly labored to create Peruna in tablet form, and their strenuous labors have just been crowned with success. People who object to liquid medicines can now secure Peruna tablets, which represent the solid medicinal ingredients of Peruna.

"20-Mule-Team" Borax tends to stop the development of blight and mildew, and destroys parasitic insects. Stalks, young leaves and buds affected should be carefully sprinkled with Borax solution, and "20-Mule-Team" Borax should be used freely around the winnowing and floors of buildings to protect from insects.

Another Kind.
When Johnny Hobbs left his home up among the New Hampshire hills to visit his grandmother in Worcester, Mass., he was cautioned by his mother that he would find things in the city strangely different from those at home. Johnny arrived in the early afternoon, and long before tea time his grandmother, who lived most simply, told him to run out to the pantry and get a bowl of milk which she had left there "for a hungry boy."
A moment later she followed him, and, to her amazement, beheld her grandson bravely at work on a bowl of spiced milk which she had forgotten put in the place where she had told him to find the milk.
"Why, child," she cried, seizing the bowl from poor Johnny, "don't you know this isn't milk?"
"I—I knew it wasn't like Hillbury milk," stammered Johnny, with a final gulp, "but I thought maybe it was the kind folks had in Worcester."

Peppermint and Tobacco.
If you have a boy who has begun smoking too early and whom you wish to cure of the habit, feed him peppermints. Dr. O. Clayton Jones of Silverton, England, writing in the London Lancet, is authority for this simple cure. Dr. Jones writes: "To break the smoking habit in a youth there is nothing better than peppermint drops. He cannot smoke with a 'bullseye' in his mouth, and even for some time after it is dissolved tobacco will not blend kindly with the taste that remains. Socially the cure may seem worse than the disease, but from a medical point of view the sucking of peppermints is far less hurtful. A common 'bullseye' will prevent smoking for nearly an hour, so the amount of sweets used need not be great."

Unanswerable.
The lion was sneering at the awkward, uncouth, and generally ugly appearance of the elephant.
"I may not be as graceful as you are," observed the elephant, "but I'm nearer skin to the human family than you are. The knees of my hind legs bend forward, as a man's legs do, while yours bend backward, the same as a hyena's, or a 'dog's, or a 'skunk's. You belong to a lower order of creation, and I'd rather not associate with you on terms of equality if it's all the same to you."
Whereat the lion, observing that the elephant was waving his trunk threateningly, went back among the wolves and coyotes, where he still retained some prestige.

An Unfortunate Misunderstanding.
"I had to leave my last situation because the missus said they were going to lead the sinful life, and they wouldn't want any servants about the place."—Punch.

KASPARILLA
This sterling household remedy is most successfully prescribed for a "world of troubles." For derangements of the digestive organs it is a natural corrector, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthful activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. If it fails to satisfy we authorize all dealers to refund the purchase price.

**TWENTY KILLED
IN TRAIN WRECK**

Passenger and Freight Trains Crash Together in Montana.

Not One in Smoking Car Escaped Death or Injury—Blinding Snow Storm Prevented Engineer Seeing Danger Ahead—Freight Should Have Been on Siding.

Butte, Mont., Sept. 26.—In the worst wreck in the history of the Northern Pacific Railroad, 23 persons were killed, 10 seriously injured, several fatally and about 30 more or less injured in a collision between passenger train No. 16, known as the east-bound Burlington flyer, and a west-bound freight train, at 8:10 o'clock yesterday morning, at a siding known as Youngs Point, about thirty miles west of Billings. The fast traveling passenger train crashed into the freight just entering on the siding during a blinding snow storm, the engineer of the passenger failing to see the signal flag of the brakeman of the freight train in time to avert the crash.

A heavy, wet snow which was falling at the time prevented the wreck from catching fire, and undoubtedly held the death list down to the figures given. Every effort is being made by the division forces, aided by volunteers from Livingston and Billings, to clear the wreck, and so far they are able to prevent further loss of life.

None of the passengers from the sleeping cars was injured. The train was made up of an engine, baggage car, smoker, a day coach and two 'ullman sleepers.

The efforts to prevent fire were successful and that horror was saved the wrecked passengers. On the arrival of the relief train the injured were transferred around the wreck and taken to Billings.

The express car was raised over the platform of the smoker, and swept upstructure, seats and passengers off. Not a passenger in this car escaped death or injury. The other passengers escaped with cuts and bruises.

The scenes around the smoker were beyond description, heads, bodies, legs and arms being interwoven with broken seats and equipment. In one place five bodies were packed on top of each other. In another seven had to be pulled apart. It was almost impossible to succor the injured without trampling on the dead.

Railroad men, while refusing to be quoted officially or allowing their names to be used because of the regulations of the road in connection with publicity as to wrecks, intimate that the freight train was stealing time, that it had no orders to proceed to Youngs Point and should have waited at Park City, about six miles west of the scene of the wreck, for the passenger train. This is supposed to explain why the Burlington train was traveling about 50 miles an hour past the siding.

WOULD KILL ROOSEVELT.
Several Plots Uncovered in Different Parts of Europe.
Bayonne, France, Sept. 26.—Evidence of an anarchistic plot against President Roosevelt of the United States was yesterday made public by the secret police of several European countries.

Spanish secret service agents discovered traces of the plot while examining Cantrava, the famous Spanish anarchist, in an effort to connect him with the suspected plot against the life of the king of Spain.

Papers were also found on two Italian anarchists arrested at Sessa, Switzerland, Wednesday, containing the most definite information possible regarding Roosevelt's African trip. They are now being held at Geneva in an effort to obtain further information against them.

There has been much activity noted among the anarchists of Europe during the past few weeks, but this is the first definite information that has been secured as to the nature of their plans.

**TWO MEN BURNED.
Fatigues Follow Forest Fires Near Eureka, California.**

Eureka, Cal., Sept. 25.—A strong wind fanned forest fires to the north of this city that wiped out the town of Luffenholtz from the map last night, and that were again raging with added force, and the greatest destruction during the progress of the fire was recorded during the day.

The plant of the Little River Redwood Lumber company is burning, and all that protects the town of Fieldbrook is 100 yards of green timber, which may ward off the flames, although the residents are preparing to flee with their household goods.

The fire devastated a stretch of timber over 30 miles long and from four to five miles wide, burning houses, mostly squatter settlements, thousands of cords of wood and many thousands of acres of timber land.

Two deaths have been recorded. A body found, at first thought to be that of A. Carlson, has now been identified as that of Frank Whitmore, while another charred corpse found at Trinidad has not been identified.

Fire is now going inland up Little River at a furious pace. At noon the wind was blowing the flames through sparse timber that was once logged off or denuded of its big trees, but so fast are they traveling that there is no doubt they will again get into thick timber at the head of Little river, when the damage will be hard to estimate. If fire once gets into this timber, there will be no stopping it until it reaches the Trinity county line, unless the wind changes or a heavy rain falls.

ROCKEFELLER AS AUTHOR.

Oil King Makes Denial of Accusations Against Him.

New York, Sept. 25.—John D. Rockefeller appears for the first time in the role of an author in a series of articles on "Some Random Reminiscences of Men and Events," the first of which will appear on Friday in the October issue of "The World's Work."

Mr. Rockefeller gives as a reason for speaking now that "if a tenth of the things that have been said are true, then dozens of able and faithful men who have been associated with me, many of whom have passed away, must have been guilty of grave faults. For myself, I had decided to say nothing, hoping that after my death the truth would gradually come to the surface and posterity would do strict justice; but while I live and can testify to certain things, it seems fair that I should refer to some points which I hope will help to set forth several much discussed happenings in a new light. I am convinced that they have not been fully understood."

"It has been said that I forced the men who became my partners in the oil business to join with me. I would not have been so short-sighted. If it were true that I followed such tactics, I ask, would it have been possible to make of such men life-long companions?"

Mr. Rockefeller speaks of the development of the Standard Oil company and says that the plan of selling direct to the consumer and the exceptionally rapid growth of the business "bred a certain antagonism which I suppose could not have been avoided."

STORM DAMAGES PROPERTY

Severe Results from Rainfall and Electrical Tempest in California.

Los Angeles, Cal., Sept. 25.—A storm of unprecedented extent and duration for this time of year visited this city and the surrounding counties the past 48 hours, the rainfall amounting to several inches in some places and the electrical display which accompanied the storm resulting in considerable property damage, particularly at Bakersfield, where a ranch house was struck and destroyed.

A cloudburst in the Kern river oil fields caused the loss of a great quantity of oil, which escaped to the irrigation ditches. At San Luis Obispo a barn was struck by lightning, destroying it and so terrifying the horses that six had to be shot.

Local Option Wins Point.

Indianapolis, Ind., Sept. 25.—Local optionists made a stand in the house yesterday, and won a signal victory over their opponents, who have been working persistently to gain an advantage over the anti-liquor forces. The bill was advanced to a second reading after a vote which showed 51 to 49 in favor of the local optionists. The close vote does not fully signify the full extent of the victory, for there were many powerful influences exerted against the anti-liquor men. An effort was made to kill the bill by indefinite postponement.

Wright Makes Good Trip.

Lemans, France, Sept. 25.—Wilbur Wright made a successful flight yesterday afternoon against a wind that was blowing at the rate of about 15 miles an hour. He remained up for a fraction more than 34 minutes, covering officially 39 kilometers (24 miles), which is about half a kilometer more than the distance made for the Michelin prize on Monday. In reality Mr. Wright covered about 35 miles, the force of the wind obliging him to make wide turns.

S.S.S. THE CURE FOR SCROFULA

Swollen glands about the neck, weak eyes, pale, waxy complexions, running sores and ulcers, skin diseases, and general poor health, are the usual ways in which Scrofula is manifested. The disease being deeply entrenched in the blood often attacks the bones, resulting in White Swelling, or hip disease, and the scrofulous and tubercular matter so thoroughly destroys the healthful properties of the blood that Scrofula sometimes terminates in consumption, an incurable disease. The entire circulation being contaminated, the only way to cure the trouble is to thoroughly purify the blood and restore the circulation to a strong, healthy state. S. S. S. is the very best treatment for Scrofula; it renovates the entire blood supply and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes right down to the very bottom of the trouble and removes the cause, but it supplies the weak, diseased blood with the healthful properties it is in need of, and in this way builds up weak, frail, scrofulous persons and makes them strong and healthy. S. S. S. is a gentle, safe, vegetable preparation and is suited for persons of any age. Book on the blood containing information about Scrofula and any medical advice free.
