Force of Storm Waves.
The average storm wave is thirty feet in height. The highest storm waves ever measured were between forty-four and forty-eight feet high. The gigantic force of storm waves is shown by the fact that at Skerryvore lighthouse, off the west coast of Scotland, a mass of rock weighing five and a half tons was once hurled to a height of seventy-two feet above the sea level, while a mass weighing thirteen and a half tons was torn from a cliff seventy-four feet high.—Fall Mail Gazette.

The Variable Feminine.
Dora (at the party)—Geoffrey, you mustn't monopolize me, you know.
Geoffrey—Why, dear, I haven't been monopolizing you.
Dora—Well, why haven't you, you stupid thing?

Insuperable.
"You say you don't object to me on account of my age, Miss Ginevra?"
"No, I don't mind your age a bit, Mr. Rypun."
"Then what is the objection, may I ask?"
"You look it."

A New Name.
"What do you call a man who drives an automobile?"
"Well, judging by the way in which he takes possession of the road I should say an auto-crat."—Baltimore American.

Insisting on Accuracy.
"Did you arrest this man?" asked the police justice.
"I did not, your honor," answered the officer, formerly a resident of Boston. "Obviously I could not arrest him, for he was not in motion at the time. I merely effected his capture, your honor."

Mistaken Idea.
Physician—My dear fellow, you should practice deep breathing.
Caller—Great snakes, doctor, I do! I work in a coal mine.

Out of the Dim Past.
Nebuchadnezzar was eating grass.
"But I'm not yelling 'Ee-yah!' and pretending to like it," he said.
Regardless of what the fans in the grand stand and on the bleachers might think of him, he continued to tear up handfuls and chew it because he hadn't anything else to eat."

Poor Guesser.
The eminent statesman summoned his private secretary.
"This is the third letter I have had from Mannyherup," he said, "at the end of which he has marked 'Confidential.' B. T. L. What does he mean by B. T. L.?"
"Don't you know?" said the private secretary, lowering his voice. "He means 'Burn This Letter.'"—Chicago Tribune.

PEOPLE MAY NAME CHOICE
B It Cannot Force Legislators to Elect One Indicated.

Supreme Court of North Dakota Declares Popular Choice for United States Senator Unconstitutional—Oregon and Washington Statutes Are Quite Similar.

Bismarck, N. D., Oct. 31.—That provision of the direct primary law in this state which requires members of the legislature to vote for the popular choice for United States senator has been declared unconstitutional by the State Supreme court. The validity of the law in other respects, including the provision permitting electors to express their preference as to senator at the general election preceding the session of the legislature at which a senator is to be elected, is sustained. The opinion was written by Judge Fink and was concurred in by Judge Morgan, the third member of the court, Judge Spalding, returning a dissenting opinion.

An application had been made for a writ of mandamus in a proceeding brought to restrain the members of the legislature from electing a senator next week to succeed Senator H. C. Hansbrough, who was defeated in the primary nominating election last spring. The application was denied, and the members of the legislature are now privileged to vote for their personal choice for senator.

BURNING STEAMER IN PORT.

Passengers Driven by Intense Heat to Promenade Deck.
San Juan, Porto Rico, Oct. 31.—The steamer S. V. Luckenbach, from New York for San Juan, arrived here last night with fire in her hold still burning. All her passengers and crew, 31 in number, are well.

The fire was discovered at 4 o'clock on the morning of October 26, when the vessel was 580 miles south of Sandy Hook. The passengers were at once awakened and the small boats were brought out, prepared and made ready to lower away in case it should become necessary to abandon the steamer.

At 6 o'clock in the morning of the 26th, the steamer Philadelphia, of the Red D line, was sighted, and the plight of the Luckenbach was signaled to her. The Philadelphia answered: "I am coming alongside."

She drew near and acted as a convoy until the Luckenbach reached here. Both vessels came into port together.

The heat and smoke from the fire forced the passengers to withdraw from their cabins, and temporary cots and eating tables were placed on the promenade deck for them. The officers did not dare open the hatches to combat the fire in the fear that the draft thus created would fan the flames.

USE AUTO WITH AIRSHIP.

Huge Balloon Carries Touring Car Instead of Basket.
Indianapolis, Oct. 31.—Something new in aeronautics was attempted here today when a monster balloon with a capacity of 110,000 cubic feet of gas shot up into the air with an automobile placed where a basket is usually suspended. The ascension was made at 4 p. m., the balloon carrying two occupants, Carl G. Fisher, of Indianapolis, and C. L. Bumbaugh, of Springfield.

The idea of the aeronauts is to be able at will to load up the balloon in the automobile. The machine used was a new 24-horsepower four-cylinder touring car, and when stripped of all unnecessary equipment, weighs 1,500 pounds.

The balloon descended near Southport, Ind., a distance of seven miles from Indianapolis, after being in the air two hours and ten minutes. The automobile was freed from the balloon and the aeronauts came to Indianapolis in it.

Cocaine in Schools.

Philadelphia, Oct. 31.—Scores of children in the public schools here are addicted to the use of cocaine, according to the confession of Edward Lee, a 15-year-old vender of the drug, and detectives are investigating the appalling condition. Young Lee and Michael Larkins were arrested with quantities of the drug in their possession. Lee told the officers that he purchased the drug at a house on North Tenth street, where a man made a practice of selling it to the schoolboys, who made "lots of money" selling to their schoolmates.

Non-Breakable Car Wheel.

Chicago, Oct. 31.—A new kind of car wheel, the secret of which is being jealously guarded by the manufacturers, is being turned out at the works of the Standard Steel company. The new wheel is said to be of pressed steel the process of its manufacture is unknown to any one but the chemists at the works and the officials of the company. The new wheel is said to be so constructed that broken flanges and cracked wheels are impossible.

Prisoners Break Jail.

Missoula, Mont., Oct. 31.—Eight prisoners awaiting trial for various offenses escaped from the county jail last evening and at a late hour only one had been recaptured.

"I think I'd like something to read on the train," said the austere spinster.

"Well, here's a copy of the latest issue of Pick-Me-Up," suggested the news-dealer.

There being nothing else on the counter she bought it.

But she tore off the conspicuous title of it before she carried it into the car.

She was no giddy young thing.—Chicago Tribune.

Too Late.
Mifkins (to Piffer)—She's a stunning woman, old man, and you're bound to be stuck on her. But don't mention laundry or anything like that! Her grandmother was a washwoman.

Gains Distinction in Queer Way.
Newitt—He's anxious to be considered a man of some social distinction.

Bunker—He's taking a queer way about it.

Newitt—Why?
Bunker—He says golf is "merely tommyrot."—The Catholic Standard and Times.

Recalled Them Distinctly.
"What were your sensations when the automobile struck the tree and threw you out? I presume, though, you didn't have time to think."

"O, yes, I did. I distinctly remember thinking, as I flew through the air, 'Gee! What a repair bill I'll have to foot!'"

The Rich Turkish Beggar.
Beggars are never suppressed in Turkey. The story is told (and they say it is true) about an American lady who by mistake gave a beggar of Constantinople a goldpiece. The man had left his post when she returned, but one of his colleagues told her where he "resided." It was a fine house, and at the door was a servant, who politely informed the lady that "my master is dressing. He will be down soon." And then the well-groomed beggar, dressed for dinner, appeared and gladly returned the gold piece, exclaiming in the meanwhile that such mistakes were highly embarrassing.—Charities and Commons.

BORAX A SAFE PREVENTIVE FOR LICE IN POULTRY—SIMPLE, CHEAP, HARMLESS.

"20-Mule-Team" Borax was a good thing to rid poultry of lice. I had used so much inflammable Lice killers that my Poultry Houses were regular fire traps. I gave my S. C. W. Leghorn house a good spraying just two months ago. Since I have caught several hens and I found no lice. I am rid of lice and shall continue to use "20-Mule-Team" Borax as a spray, also as a wash.

S.S.S. DRIVES OUT BLOOD HUMORS
The skin is not simply an outer covering of the body, but through its thousands of pores and glands it performs the great and necessary work of regulating our temperatures, and also assists in disposing of the refuse and waste matters of the system by the constant evaporation that goes on through these little tubes. To perform these duties the tissues and fibres which connect and surround the pores and glands must be continually nourished by pure blood. When from any cause the circulation becomes infected with impurities and humors, it loses its strengthening powers and begins to disease and irritate the delicate tissues, and produces Eczema, Acne, Tetter, or some other itching, disfiguring skin trouble. S. S. S. cures skin diseases of every kind by going down into the circulation and neutralizing and removing the impurities and humors. It changes the quality of the blood from an acid, fiery fluid to a cooling, health-producing stream, which, instead of irritating and inflaming the skin, cures and nourishes it by its soothing, healthful qualities. Salves, washes, lotions, etc., may be used for any temporary comfort or cleanliness they afford, but skin diseases cannot be cured until S. S. S. has purified the blood. Physicians Recommend Castoria
CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: **First**—The indisputable evidence that it is harmless; **Second**—That it not only allays stomach pains and quiets the nerves, but assimilates the food; **Third**—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
