Earnest Greenwood and family of Salt Lake, Mr. and Mrs. David Snyder, Alta Giesy and son Ralph and Mrs. John Giesy are all visiting among their relatives here.  
A great many of our people enjoyed their Xmas cheer in family reunions. Dr. W. W. Giesy and wife had their family all at home. The Will families, Gus, Jonas and Anton all enjoyed an elaborate dinner with Mrs. L. Will and daughters. George Miller's family were all at home once more.

Santy Claus came one night earlier to Charles Snyder's than other places because of his numerous engagements. A tree greeted him and all of Mr. Snyder's children and grand children were here to give him a hearty reception. St. Nick was lavish with his gifts and every body from the oldest to the little tots went home laden with presents.

Mrs. Kate Tout, at one time a resident of Aurora, was buried at Woodburn Saturday afternoon. Mrs. Tout made many freinds during her residence here, and her death at Fresno, California, where she had just gone on a visit, came as a great shock. Her body was shipped back to Woodburn that she might be laid to rest beside her husband and children.

Rev. T. T. Vincent preached a very interesting sermon at the Presbyterian church Sabbath evening, appropriate for the present season. He will speak in the evening of every second and fourth Sunday of the month and desires to be greeted by a large congregation.

MRS. ANDREW JOHNSON.

The Life in Washington Was Not a Happy Time For Her.

Mrs. Johnson was so much of an invalid that outside of intimate family friends very few knew her. She appeared only twice in public during her husband's administration. Still, her influence was a strong one, and it was exerted in the direction of toleration and gentleness. A slight movement of her hands, a touch on her husband's arm, a "Now, Andrew," made it easy to see that the woman who had helped him through his struggling youth and given her health to his service, who had taught him to write and had read to him through long winter evenings in the little tailor shop that his active mind might be fed while he was practicing his trade still held her place in his life. She was a sweet faced woman who showed traces of beauty through the sharpened lines caused by the old fashioned consumption which was wearing her out. Her face was not unlike that of the late Mrs. McKinley. The death of her eldest son was a blow from which she never fully recovered. The life in Washington was not a happy time for her. She told me herself that she was far more content when her husband was an industrious young tailor.—William H. Crook in Century.

Nubar Pasha and the Pipes.

Such about the occupation of Cairo by the British troops the late Nubar Pasha took a prodigious fancy to the music of the Black Watch and had the idea of having a servant taught the use of the bagpipes. Nubar dispatched a French friend, who spoke English very well, to interview a piper on the subject.  
Donald replied: "Weel, he nicht learn or he nicht no'. Bit, let me tell ye, it needs wind an' mickle strength to blaw the pipes an' the pipes an' keep blaewin'. Sae if yin o' thae Egyptian chaps took the job on he'd need to be handaged a' ow're like yin o' thae auld mummies, or maybe he'd burst himself."

Depth of Cyclones.

From the study of clouds an official of the United States weather bureau concludes that ordinary cyclones which traverse our country from west to east are not more than two or three miles in depth, although their diameter is many hundreds of miles. In other words, their motion does not affect the upper regions of the atmosphere. In the case of hurricanes this authority finds that the depth is greater, amounting to as much as five or six miles. But higher currents blow directly across the cyclonic and anticyclonic areas which produce storms and fair weather at the surface of the earth.—Chicago Inter Ocean.

Easy Money.

Theodore Hook was one of the Garlick club's most famous members. He generally arrived at the club late in the afternoon and "never went home till morning." He had been told by the doctors, he said, to avoid the night air. A member of the club in Hook's time predicted the advent of the millennium at the end of three years. "Ah right," cried Hook. "Give me a five pound note now, and I will repay you £50 at the millennium."
