ODDS AND ENDS
 General Custer was a total abstainer and anti-tobaccoist. Out of every 1,000,000 of the world's population 49 are blind. Japan has few wild animals and no poisonous reptiles, it is said. The Siamese musical scale divides the octave into seven parts. During a dense London fog there is as much as 200 tons of soot suspended over the city.

A walrus hunt is the most dangerous sport of the arctic regions. Sitting Bull was forty-two years old when he massacred Custer's forces. In Italy wheeled traffic keeps to the left in large cities, but to the right in the country. The civilized nations of the world, it has just been computed, use about 3,200,000 matches every minute of the 24 hours.

Green Music Easy on Eyes.
 Music printed on dark green paper, with the notes and staff in white, is being used to reduce eye strain. Says Popular Mechanics. It is particularly designed for use in theaters, where bad lighting causes unusual strain on the musicians' eyes. In semi-darkness the notes seem to stand out in relief.

Blocked While You Wait.

SOLVE SHANTUNG QUESTION

Japan and China Are Reaching Agreement Over Railway Line.
 Washington, D. C.—As the Japanese-Chinese negotiations over Shantung approach a decision the arms delegates are turning their attention to other features of the far eastern situation. The committee meetings were postponed to give the Shantung problem a clear field.

It appeared Monday night that the central question of the Shantung discussion, withdrawal of Japanese control from the Tsingtao-Tsinanfu railway, was near a solution and that the Japanese and Chinese might be brought into complete accord shortly.

Among other far eastern questions the Chinese request for abrogation of the 21 demands and the proposal for withdrawals of powers from occupied territory in China are attracting interesting notice. The Chinese delegates who are maintaining that they still represent the Chinese people, even though the Pekin cabinet has been overthrown, issued a statement here declaring that the 21-demand agreements must be abrogated if the decisions of the conference are to amount to "more than scraps of paper."

At the same time the Japanese attracted added attention to the question of occupied territory by revealing their desire to keep their troops in northern Saghalien as well as in the Port Arthur district.

Overthrow of the Pekin cabinet has gained wide attention in conference circles, but it apparently has not changed the far eastern negotiations. The Japanese will not comment on it except to say that it was apparently due to internal troubles. Ma Zoo, Washington representative of the rival government at Canton, said in a statement that the Pekin delegation knows it does not represent the people of China and that the fall of the Pekin cabinet long had been expected.

Many Plagues Forecast.
 London.—The year 1926 is destined to shake the world to its foundation, both physically and politically. It is to be a succession of plagues, famine, floods, shipwrecks, rioting and revolution. So says the British Journal of Astrology, which has drawn the horoscope for that year, when the planets Mars and Mercury will be in conjunction.

Six years later the great Armageddon is to take place. It will be a final conflict between Mohammedanism, allied with bolshevism, against the united Anglo-Saxon world. It will end in a "universal peace" in 1932, but "there will be so few of us left and we shall all be so tired that peace should happen anyhow," the horoscope says.

Revolts Stir Portugal.
 London.—A revolution has broken out in Portugal, according to a dispatch to the Daily Chronicle from Paris. It began with cannonading along the Tagus river and severe casualties have resulted to both sides in the controversy. The hospitals are crowded. The dispatch adds that Cunha Leal, who formed a temporary ministry last week, was attacked in the Carlos barracks and he and his followers were compelled to retreat.

Sugar Prices Discussed.
 Washington, D. C.—Efforts to stabilize the price of sugar in the United States and arrange for disposal of the existing surplus without any appreciable increase in price were continued Monday at a meeting of representatives of the industry and Secretary Hoover. The former included spokesmen for the cane sugar growers of Louisiana, the beet sugar producers of the Pacific coast and Cuban interests.

Livestock Loans Made.
 Washington, D. C.—Approval of 150 advances for agricultural and livestock purposes, aggregating \$4,234,000, was announced Monday by the war finance corporation. States participating in the loans included Colorado, \$62,000; Idaho, \$77,000; Montana, \$128,000; Oregon, \$75,000; Utah, \$220,000; Washington, \$70,000, and Wyoming, \$225,000.

Seven Burned to Death.
 Windsor, Nova Scotia.—Mrs. Reuben Johnson and her six children, aged from 3 to 15, were burned to death Sunday in a fire which destroyed their home. Mr. Johnson had been called away from home a short time before to help fight a fire at a neighbor's house ablaze.

Denmark Gets \$30,000,000 Loan.
 New York.—A \$30,000,000 loan to the kingdom of Denmark has been made by the National City company, which is affiliated with the National City bank. The loan will bear interest at 6 per cent, will run for 20 years and will be callable at 105.

Simple Wireless Messages.
 The waves of wireless stations are unceasingly passing through our houses and our bodies and we neither see, hear nor feel them. Yet if there be interposed a few strands of wire, a metal plate and a tiny glowlamp and if these accessories be ranged in order, the wireless messengers will carry the sound of a voice speaking thousands of miles away.—Brooklyn Eagle.

Graphite.
 Down to 1250 graphite was obtained chiefly from the Borrowdale mine in Cumberland, England. Since then a supply has been drawn from eastern Siberia; from Ticonderoga, New York state; Buckingham, Quebec; and Bohemia. Graphite is also produced in Ceylon and Madagascar. Artificial graphite is also being manufactured.

Hogarth's "Marriage a la Mode."
 "Marriage a la Mode," a series of six paintings by William Hogarth (1697-1764), were acquired in 1924 by the National Gallery in London. The paintings depict, with rare satire, a variety of occurrences in the high life of the time. They are generally considered to be the artist's masterpiece.

Money of Ancient Britons.
 Sword-shaped bars of iron were used by the ancient Britons as money, and many of these are now found in British museums. A recent investigation shows that six different denominations were used, distinguished by their size.

Our Business.
 It is therefore our business carefully to cultivate in our minds, to rear to the most perfect vigor and maturity, every sort of generous and honest feeling that belongs to our nature.—Edmund Burke.

Inventor Well Rewarded.
 For his invention of babbit metal, a soft, anti-friction alloy used for bearings, Isaac Babbitt received a reward of \$20,000 from congress.

Paid in Full.
 "I am old-fashioned enough," said the old lady with the angular face, "to believe that honesty pays, my dear young nephew." "Yes, quite so," answered the nephew, "and dishonesty gets paid."

"Ballistic Wind."
 The "ballistic wind" is a fictitious wind assumed in computing the flight of projectiles to express the total effect of the winds that actually occur. Its use was introduced during the World war.
