JAIL FACES THE SLADKERS

The period of grace for men of miliregister on War Census Day is ended, and it is announced that the quota of men to be drafted into the military service from each state will be based on previous census estimates, not on the actual registration figures, which in Oregon were slightly lower than the estimate. Inasmuch as the men to be called are chosen by lot, the failure to register of any man who should have done so increases the chances against every other man who did his duty and registered.

For this reason, particulary, and also as a patriotic duty, every one of the 62,840 men who registered in Oregon is asked to help in the drive to round up the shirkers. Already the sheriffs, police officers and precinct registrars have been directed by the Adjutant General to report all suspicious cases, But now in response to official orders from Washington, all men who have registered are asked to aid in this Anti-Slacker campaign. Of course, there

RETAIN LEGAL POWERS

District Attorney Max Gehlar recentv received an inquiry concerning the right of alien enemy ministers to perform the marriage ceremony. In reply he says:- "This appears to be a question which had not before arisen. The question depends upon whether a minister of the gospel derives his authority to solemnize marriage from the State law or from ecclesiastical sources. The State law provides that ministers of the gospel and judicial officers may solemnize marriage and before ministers of the gospel may solemnize marriages, they must comply with certain laws. But the power is given to all ministers of the gospel,

without any exception as to nationality. In this state, even prior to the declaration of the war, an alien could not hold a judicial office, but no such restriction is placed upon the ministry. I have come to the conclusion that the laws on the subject are merely regulatory and that ministers have had the anthority to solemnize marriage under the common law, without any state law or statute, and in this case, the fact that they are alien enemies does not affect the legality of the marriages solemnized. At any rate, our Supreme Court has passed upon a similar matter, holding that a marriage solemnized in good faith, by a party who apparently has good authority to do so, is valid regardless of the fact that the party may have acted without authority.'
